Dear Colleagues

We trust that you are well.

The Wits Screening App (LogBox Patient Application) is now live and can be downloaded from the App Store or the Google Play Store.

Staff members with permits to be on campus, and *students who have been invited to return* to campus must **COMPLETE THE SELF-SCREENING FORM ON THE APP EVERY DAY, BEFORE** entering campus.

1. Download the Logbox Patient Application from the App Store or the Google Play Store.
2. Follow the initial instructions in the attached brochure to set up the app.
3. Fill in the screening form every day.
4. You will receive a notice on your mobile phone that either clears you for entry or denies you entry to campus.
5. Show your clearance note to the security officers before entering campus.

For those staff members and students without smartphones or computers, hard copies of the screening form can be filled in and/or dropped off in boxes at the gates.

Thank you

SENIOR EXECUTIVE TEAM
