To find a course site on the Public Course Index

The Public Course Index allows all users within the university to publicly view the institution's course index in a catalog format. These could be project sites that have been made available by owners for users to view and if enabled allow users to enroll into. You can view a link to the Public Course Index on the My Courses page.

1. To find and access course sites that are made public, follow these steps:

3. Search for courses

You can search for courses in several different ways. In the Name field [1], you can type the name of a course.

You can also search for courses by status. If you want to view only public courses, click the **Public courses only** checkbox [2]. If you want to view only open enrollment courses, click the **Open enrollment courses only** checkbox [3]. Open enrollment courses are courses that you can join at any time.

When you are finished selecting your search options, click the Search button [4]

4. View and enrol into courses

>View course> click on $\begin{pmatrix} 1 \\ 1 \end{pmatrix}$
