

## BACKGROUND

The Centre for Public Service Innovation (CPSI) and the Department of Public Service and Administration (DPSA), in partnership with the University of Witwatersrand (Wits) is launching an International Dialogue Series with the Danish Agency for Digitisation on Strengthening Open Digital Governance in South Africa (The SA-EU Digital Dialogues). The SA-EU Digital Dialogues will combine traditional knowledge-based engagements (policy dialogues and seminar styles) with “beyond talk” creative co-design sessions (studios or clinics) where practitioners will have the opportunity to exchange experiential knowledge and engage in facilitated, creative collective intelligence explorations and knowledge building around unique, mutual or new issues on the horizon. Careful design and experienced facilitation will guide the process. The first engagement will be hosted at **Maropeng Convention Centre on 6 and 7 April 2022**. This high-level engagement will be attended by select key policy makers and invited stakeholders in the digital governance space.

### MAROPENG CONFERENCE CENTRE IS COVID-19 COMPLIANT.

Safety is of the highest priority for all events and conferences, therefore social distancing is a key consideration in our event planning and execution.

Covid-19 protocols are informed by government regulations and are thus adjusted accordingly. At present the following additional protocols are applied:

We have a “no mask, no entry” policy for all visitors over the age of six years old. Your temperature will be taken. If you have a temperature of higher than 38-degrees, you will unfortunately not be allowed entry to our sites.
