

Add a **“Description”** called **“Wits VPN”**. Click on the **“OK”** button.

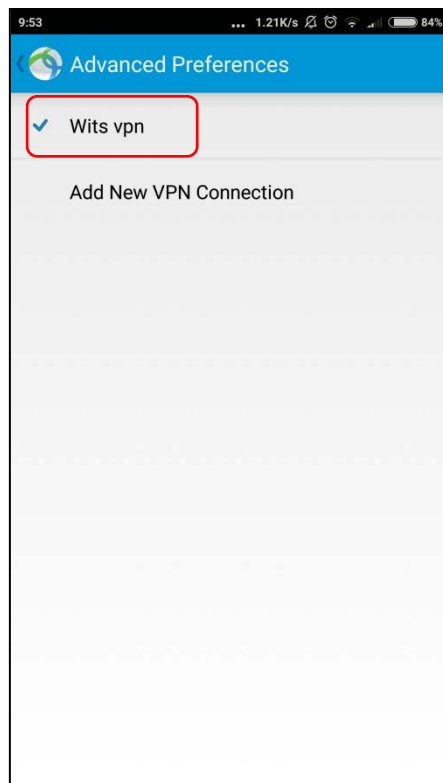

Enter the Server destination **“connect.wits.ac.za”** or **“mobileconnect.wits.ac.za”** depending on which VPN you want to connect to. Click on the **“OK”** button.

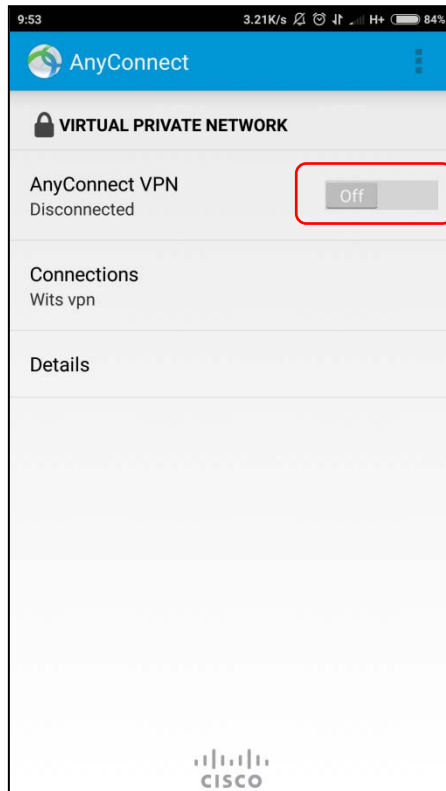

Click on the “**Done**” button to continue.

After creating the profile, click on “**Wits VPN**” to go back to the previous screen.

Switch on the “AnyConnect VPN” button by sliding it across.

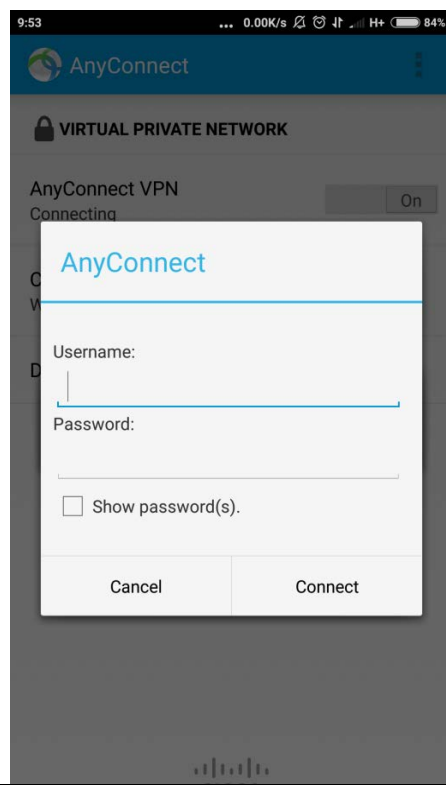

Log on

In the “Username:” field enter your user credentials as follows:

For staff: **staff number**

For students: **student number**

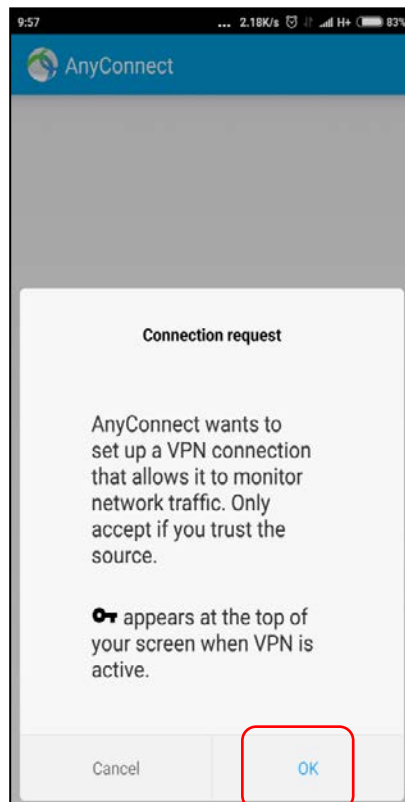

Then enter your password in the “**Password:**” field.

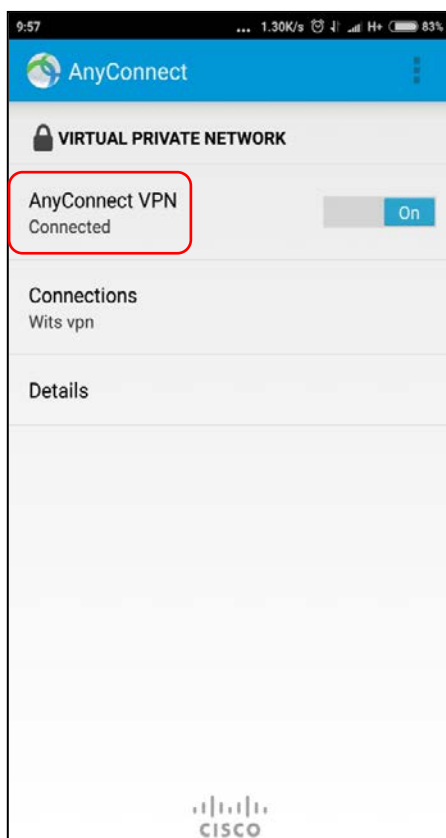

The software will try to connect.

After authentication, connection is established and a "connection request" will be asked. Click on the "OK" button.

After connection, the following screen will display.

To disconnect from VPN, slide the “AnyConnect VPN” button to the “Off” position.
