7.8 Minimum requirements of study 22
7.9 Withdrawal of, or refusal to grant credits and/or exemptions 22
7.10 Sub-minimum rule 23

G8 Requirements for Award of Qualification 23

G9 Degree of Master 23

9.1 General 23
9.2 The programme of master proceeding by research 23
9.3 Programme by research and coursework 23
9.4 Conditions for the conferment of the degree of master by research 24
9.5 Supervision of full-time members of staff 24
9.6 Abstract and style of Dissertation or Research Report 24
9.7 Copies of Dissertation or Research Report 24
9.8 Formal declaration 24
9.9 Acknowledgement of conferment of degree if material is published 25
9.10 Completion of all requirements for the degree of master 25

G10 Degree of Doctor of Philosophy 25

10.1 Fulfillment of requirements for conferment of the degree of Doctor of Philosophy 25
10.2 Supervision of full-time members of staff 25
10.3 Copies of thesis 25

G11 Senior Doctorate 26

11.1 Conditions for the conferment of the degree 26
11.2 Notice of intention to apply for candidature 26

G12 Conversion of candidature for higher qualifications 26

12.1 General 26
12.2 Conversion from a programme leading to the degree of master by research to a programme leading to the degree of Doctor of Philosophy 26
12.3 Conversion from a programme leading to a degree of master by coursework and Research Report to a programme leading to the degree of master by research 27

G13 Assessment 28

13.1 General 28
13.2 Examiners 28
13.3 Eligibility for assessment 29
13.4 Additional oral or other form of assessment 29
13.5 Supplementary assessments 29
13.6 Deferred assessments 29
13.7 Re-assessment 30
13.8 Absence from assessment 30

G14 Academic Progression 30

14.1 Completion of courses prescribed for previous year of study 30
14.2 Standard required to proceed 30
14.3 Prerequisite non-credit bearing courses 30
14.4 Special curricula for students who cannot proceed to the next year of study 30
14.5 Re-attendance requirement for students who cannot proceed to the next year of study

G15 Results
15.1 Publication of results
15.2 Non-publication of results

G16 Conferment of qualification
16.1 Congregation
16.2 Issuing of a certificate
16.3 Endorsement of certificate
16.4 Non-conferment of qualification
16.5 Permission to complete qualification by obtaining credits elsewhere

3.2.3 Postgraduate Diploma in Education in the field of Digital Education and Online Teaching
3.3 Degree of Bachelor of Education Honours
3.3.1 Admission Rules
3.3.2 Curricula
3.4 Degrees of Master of Education
3.4.1 Master of Education by Course Work and Research Report
3.4.2 Master of Education in the field of Educational Psychology
3.4.3 Master of Education by Research
3.5 Degrees of Doctor
3.5.1 Admission Rules
3.5.2 Conditions for the Degree of:
3.5.3 Curricula
3.5.4 Completion Rules
3.5.5 Award with Distinction

Outcomes for the Faculty of Humanities - Education
4.1 Degrees of Bachelor
4.1.1 Bachelor of Education in Foundation Phase Teaching
4.1.2 Bachelor of Education in Intermediate Phase Teaching
4.1.3 Bachelor of Education in Senior Phase and Further Education and Training
4.2 Degrees of Bachelor with Honours
4.2.1 Bachelor of Education with Honours
4.3 Degrees of Master
4.3.1 Master of Education
4.4 Doctoral Degrees
4.4.1 Doctor of Philosophy
4.5 Senior Doctoral Degrees
4.5.1 Doctor of Education
4.6 Diplomas
4.6.1 Advanced Diploma
4.6.2 Postgraduate Diploma

Syllabuses for the Faculty of Humanities - Education
HIERARCHY OF ACADEMIC GOVERNANCE

ACTS create the powers and responsibilities of entities by law.

STATUTES
define how and what the University does to give expression to the provisions of the Act, and further includes features that are particular to Wits, for example, not all universities have a role for the Convocation.

POLICIES define a plan of action determined by Council.

REGULATIONS are subordinate to Acts and they define orders and authoritative direction. REGULATIONS are a set of directions on how RULES should be put into effect.

RULES
are made by Council for all areas of operation other than academic matters. Senate approves academic RULES, which are endorsed by Council. A RULE defines the principle to which action or procedure conforms. RULES set out what may or may not be done within a particular area of administration. These Rules are reviewed and published in the University Calendar each year.

PROCEDURES set out the practical steps necessary to realise the object or purpose of Rules and Regulations.

SENATE’S RULES FOR FACULTIES OF THE UNIVERSITY

Senate’s rules for faculties of the university are subordinate to the General Rules. These Rules are reviewed and published in the University Calendar each year.

These standing orders are recommended by the School to the Faculty Board for approval.

These standing orders are recommended by Faculty Board to Senate for approval.
‘University Community’ means all students and employees of the University, persons officially associated with the University, former students and alumni at the University, as well as invitees, visitors and guests.

Means University’s policies, rules, regulations, procedures, standing orders, codes of conduct and guidelines as may be amended from time to time.

Set out the preferred manner in which you carry out a process/procedures or course of action.
Introduction

The rules contained in this section are the General Rules of the University and apply to all students. There are also specific rules for each Faculty, which are subordinate to the General Rules. General Rules are defined by ‘Rule G’ and apply to all students.

On registering at this University, the student bears the responsibility of ensuring that s/he is familiar with the rules applicable to her/his registration. Ignorance of these rules will not be accepted as an excuse.

All Rules and Syllabuses are available online. Limited copies are also available in print format.

All words appearing in italics have been defined. Where information is presented in the shaded boxes, it is intended as explanatory only.

G1 Definitions

1.1 Academic year means the period determined by the Senate from time to time for any particular year of study for any particular qualification.

1.2 Admission means entry to a course or qualification unless it is indicated otherwise.

1.3 Any university or any other university means any university recognised by the Senate for the purpose under consideration.

1.4 Applicant means a person who has submitted an application in hard-copy or electronic format to become a student of the University.

1.5 Assessment means the process of judging learning and may have both a formative and/or summative nature.

1.6 Auxiliary pass (also referred to as ancillary pass or condoned pass, unless the contrary appears in the faculty rules) means a special type of condonation of a failing mark to a pass when no supplementary assessment is offered, so that the course will be included as a credit towards the qualification but the student may not proceed to a higher level course in that subject.

1.7 Candidate/Postgraduate student (see Rule G1.22) means a student registered for a higher qualification (see Rule G1.15).

1.8 Corequisite course is a course which must be taken with another course and is a requirement for credit in the other course.

1.9 Course means a component of teaching and learning activity, which may run for an entire academic year or a portion thereof, that is recognised in any of the faculty rules as a component of a qualification.

1.10 Credit means the recognition that is obtained when a student passes such assessments and complies with such conditions as the Senate may impose for the completion of each course. A credit towards a qualification may be granted to a student in respect of a credit obtained from another institution recognised by the Senate for this purpose or from another faculty within the University.
The plural includes the singular where the sense so suggests.

1.11 Curriculum means a course or combination of courses leading to a qualification.

1.12 Dissertation is the term reserved for an extended piece of written work that makes a contribution to the advancement of knowledge that may incorporate creative work or publications integral to the argument, and is submitted in fulfilment of the requirements for a degree of master by research.

1.13 Examination and re-examination mean a formal, compulsory, summative, scheduled assessment.

1.14 Exemption from a course means that the Senate has deemed a student to have a sufficient understanding of the subject matter of that course to warrant the student not having to complete the course. An exemption is not a credit but allows the student to proceed to the subsequent level in a particular course. The full number of credits required for a qualification is not affected by the granting of an exemption.

1.15 Higher qualification means a qualification which requires at least the attainment of a first degree, or equivalent recognised by the Senate, at entry level and includes a degree of Bachelor with Honours.

1.16 Joint and/or Dual degrees mean a postgraduate degree (Masters and PhD), jointly offered by the University and an external non-South African partner institution, recognised by the Senate. Joint degree: a candidate shall receive a single co-branded degree certificate representing work completed at the University and a partner institution. Dual degree: a candidate shall receive a degree certificate from each of the partner institutions, representing work completed at the University and a partner institution respectively.

1.17 Matriculation means the formal recognition by Umalusi prior to 2008 in terms of any law, of the capacity of a student to enter a university.

Umalusi is a council for quality assurance in the certification of qualifications in the general education and training band (Grades 0 to 9) and the further education and training band (Grades 10 to 12).

1.18 National Senior Certificate (NSC) means the formal recognition by Umalusi from 2008 in terms of any law, of the capacity of a student to enter a university.

1.19 National Certificate (Vocational) [NC(V)] means the formal recognition by Umalusi from 2009 in terms of any law, of the capacity of a vocational student to enter a university.

1.20 NQF credits are credits recognised by the Higher Education Qualifications Sub-Framework (HEQSF) as a measure of the volume of learning required for a qualification, qualified as the number of notional study hours required for achieving the learning outcomes specified for a qualification.

1.21 Occasional student means a person who is registered at the University for any course/s for non-qualification purposes. An occasional student is deemed to be a student as defined in Rule G1.31 for all other purposes.

1.22 Postgraduate student/Candidate means a student who is registered for a higher qualification (see Rule G1.7).

1.23 Prerequisite course is a course for which credit must be obtained before being able to register for the subsequent course.

1.24 Programme is a course or set of courses or postgraduate research which may lead to a qualification.

1.25 Qualification includes any degree, diploma, certificate, licentiate, or any other educational attainment that is offered by the University as stipulated in its list of qualifications.
1.26 Recognition of prior learning means the taking into account of the previous learning and experience of the applicant by the Senate either for purposes of admission and/or for the granting of exemption or full or partial credit towards one or more courses.

1.27 Research Report is the term reserved for the written document which forms the research component of a degree of master by coursework and research and which may include creative work or publications integral to the argument.

1.28 Semester is half an academic year.

1.29 Senate is defined in section 1 as read with section 28 of the Higher Education Act 101 of 1997 and is the body which governs the policies and procedures in respect of the teaching, learning, research and academic functions of the University. The Senate may delegate its powers except where expressly prohibited from doing so by the University Statute.

In many cases the powers of the Senate are, for practical purposes, delegated to and exercised by the deans of the faculties or, in specific instances their nominee/s.

1.30 Short course is a certified teaching and learning activity of less than 1200 notional study hours which does not, or does not directly, carry credit towards a qualification. With special permission of the Senate, short courses may carry credit towards a qualification. A short course student is not deemed to be a student as defined in Rule G1.31 but is still subject to the University rules, policies and procedures.

1.31 Student means a person registered full-time or part-time at the University for a qualification.

1.32 Study-abroad component means that part of a curriculum leading to a qualification which a student has been granted permission by the Senate to complete at an institution recognised by the Senate for this purpose, in a country other than South Africa.

1.33 Teaching block is a quarter of an academic year.

1.34 Thesis is the term reserved for an extended piece of writing based on research that makes an original and significant contribution to knowledge that may incorporate creative work or publications integral to the overall argument, and is submitted in fulfilment of the requirements for a doctor of philosophy qualification.

1.35 University means the University of the Witwatersrand, Johannesburg, unless the context indicates otherwise.

G2 Powers of the University

2.1 The University has the power in terms of its Statute to confer, in any faculty, the degrees of bachelor, master and doctor, as well as to grant a diploma, certificate, licentiate or other qualification to any person who has satisfied such requirements as may be prescribed.

2.2 No qualification, other than an honorary degree, may be conferred by the University upon any person who has not attended the University as a student for such period, and satisfied such other requirements, as may be prescribed.

2.3 The University may confer, without attendance or examination, an honorary degree of master or doctor, in any faculty, upon any person who has rendered distinguished services in the advancement of arts, science, jurisprudence or other branches of learning, or who has otherwise rendered herself or himself worthy of such a qualification. The University has the power in terms of section 79(8) of its Statute to withdraw the conferment of any qualification.

2.4 The University provides higher education at or above level 5 of the National Qualification Framework as contemplated in the National Qualifications Framework Act, Act No 67 of 2008.
2.5 The University has the power in terms of its Statute and the Higher Education Act 101 of 1997 to determine the admission policy, the entrance requirements in respect of its curricula, the number of students who may be admitted for a particular curriculum or course and the manner of their selection and the minimum requirements for the readmission to a curriculum leading to a qualification in a faculty of the University. The University has the power to refuse readmission to a student who fails to satisfy such minimum requirements for readmission.

2.6 The University reserves the right not to offer a particular course or qualification notwithstanding that such course or qualification appears in the rules of a faculty.

**G3 Application of Rules**

3.1 These rules apply to all students who register for the first time in 2020 and to all students who were registered before 2020 unless for compelling reasons the Senate determines otherwise in a particular case, in which event such a student may proceed in terms of the rules under which s/he was last registered, or in terms of amendments to these rules, or in terms of a special curriculum laid down for her/him by the Senate subject to the provisions of Rule G7.

3.2 Where a right of appeal or review exists any student, who is the subject of an adverse decision must be informed by the member of the academic or administrative staff who conveys the decision of that right and of the procedure to be followed.

**G4 Admission**

4.1 Application for admission

A person who wishes to be admitted as a student of the University must apply in hard-copy or electronic format on the University’s application form submitting evidence of her/his academic and general qualifications. In the case of application for admission to a programme leading to a higher qualification the applicant may be required to indicate the line of research s/he wishes to pursue.

4.2 Medical fitness

In respect of certain courses or qualifications an applicant may be required to demonstrate mental and/or physical fitness and may not be admitted to such course or qualification if s/he does not so demonstrate to the satisfaction of the Senate.

4.3 Discretion of the Senate to admit

Notwithstanding anything contained in the Rules regarding the minimum requirements for admission, the Senate may on good cause admit or refuse to admit any student to any year of study.

4.4 Proficiency in English

4.4.1 All applicants for admission (with the exception of those referred to in Rule G4.4.2) to any curriculum leading to a qualification must have passed English as a first or second language (higher grade) at matriculation or passed English home language or first additional language in the NSC or NC(V) or at a level considered equivalent by the Senate or deemed to be equivalent by legislation.

4.4.2 Immigrants of less than five years’ residence in South Africa who have passed English at the standard grade at matriculation or who have passed English in the NSC or NC(V) will be considered for admission.
4.4.3 Notwithstanding Rule G4.4.1 and Rule G4.4.2, the Senate recognises the International English Language Testing System (IELTS) with a minimum test score of seven (7) or the Cambridge English Language Assessment (CAE) with a minimum of 185 points to be proficient for admission. In exceptional cases, the Test of English as a Foreign Language (TOEFL) may be recognised by the University with a minimum test score of 600 for admission.

A pass in English at the General Certificate of Secondary Education (GCSE), the International General Certificate of Secondary Education (IGCSE), or the General Certificate of Education (GCE) Ordinary level is considered equivalent to a pass in English at NSC or NC(V) level or at the higher grade at matriculation level.

4.5 Faculty or qualification-specific requirements

In addition to satisfying the minimum admission requirements of the University, an applicant must satisfy any additional requirements of the faculty to which s/he seeks admission.

4.6 Certificate of good conduct

A student who was registered at any other university, must upon application for admission to this University, submit a certificate of good conduct and an academic transcript issued by that university or those universities, which satisfies the Senate that s/he is a person of good standing.

4.7 Credits and exemptions

4.7.1 Credits

The Senate may grant a student credit in a course or courses once only, if s/he has completed:

a) an equivalent course offered under a different curriculum, for the same qualification in the University;

b) the same or equivalent course offered for another qualification in the University provided that the required attendance period at the University has been satisfied in terms of Rule G6.1; or

c) an equivalent course offered in another university or institution recognised for this purpose by the Senate provided that the provisions of Rule G4.8 and Rule G7.9 are observed.

d) an equivalent short course at this University recognised for this purpose by the Senate in terms of Rule G1.30 but such short courses shall not constitute more than 50 percent of the credits towards a qualification.

Such credits are acknowledged as part fulfilment of the requirements for a qualification and with permission of the Senate these courses may carry credit towards a qualification but shall not constitute more than 50 percent of the credits towards a qualification.

4.7.2 Exemptions

On admission and subject to Rule G7.9 the Senate may grant a student exemption from a course or part of a course offered by the University where it has deemed a student to have a sufficient understanding of the subject matter to warrant the student not having to complete the course or part of the course. An exemption is not a credit but allows the student to proceed to the subsequent year of study in a particular course. The full number of credits required for a qualification is not affected by the granting of an exemption.
4.8 Credits for previous study

4.8.1 An applicant may be admitted to any curriculum leading to a qualification and this University may accept, as far as practicable, certificates of proficiency (credits) issued by another university or institution and periods of study as a matriculated student at another university or institution, provided that:

a) the periods of attendance at this and any other institution are together not less than the completed period prescribed by this University for that qualification;

b) s/he has at this University:

i) in the case of a first qualification for which the period of attendance is three or four academic years, attended for at least two academic years and has attended and completed at least half of the total number of NQF credits prescribed for the qualification including the final year course/courses in her/his major subject; or

ii) in the case of a first qualification for which the period of attendance is more than four years, attended for at least half the required period of attendance and completed at least half of the total number of courses prescribed for the qualification; or

iii) in the case of any other degree of bachelor offered after a first degree, attended for at least two academic years, except for the degree of Bachelor of Education (BEd), for which the period of attendance may be one academic year, and has attended and completed at least half of the total number of NQF credits prescribed for the degree.

iv) in the case of any postgraduate degree, attended and completed at least half of the total number of courses prescribed for the degree.

c) s/he applies for such credit during or before the end of the first registration period.

4.8.2 A student may be granted entry to a qualification if s/he has completed a diploma with a minimum duration of three years at this University or another institution recognised by the Senate for this purpose. To allow for such entry into another qualification Umalusi must have granted complete or conditional exemption from the matriculation examination or must have formally recognised the capacity of the NSC or NC(V) student to enter a university. Such exemption or formal recognition by Umalusi must have been backdated to the commencement of the year in which credit for such diploma was first earned. Credits towards such a diploma may be accepted as part of the requirements for a qualification offered by the University provided that the student complies with Rule G4.8.1 (a), (b) i – iii and (c) above.

4.9 Admission to an undergraduate diploma, certificate, licentiate or other qualification

The Senate may, by resolution, determine the standard for admission to a programme leading to an undergraduate diploma, certificate, licentiate or other undergraduate qualification other than a degree. Different standards may be set for the different qualifications.

4.10 Admission to the degree of bachelor

4.10.1 National Senior Certificate/National Certificate (Vocational)/ Matriculation

The minimum requirement for admission to a programme leading to the degree of bachelor is:

a) a National Senior Certificate (NSC) with the formal recognition by Umalusi in terms of any law, of the capacity of a applicant to enter a university for the degree of bachelor;
b) a National Certificate (Vocational) – NC(V) with the formal recognition by Umalusi from 2009 in terms of any law, of the capacity of a vocational applicant to enter a university for the degree of bachelor;

c) matriculation in the form of a university entrance examination or a matriculation endorsement from Umalusi or the granting of complete or conditional matriculation exemption by the Matriculation Board of Universities South Africa (USAf).

The date of validity of the NSC, NC(V), matriculation certificate, matriculation endorsement, or certificate of exemption from the matriculation examination must precede 2 April of the academic year for which admission is sought, notwithstanding that the certificate may be issued at a later date.

4.10.2 Certificate of conditional exemption on recommendation of the Senate

Certificate of conditional exemption on recommendation of the Senate:

An applicant must be issued a certificate of conditional exemption by Matriculation Board of USAf if that applicant, in the opinion of the Senate has demonstrated, in a selection process approved by the Senate, that s/he is suitable for admission to the University. Where the Senate certifies that the holder of a certificate of conditional exemption issued in terms of this paragraph has completed the normal requirements of the curriculum for the first year of study of any qualification, the Matriculation Board of USAf must issue a certificate of complete exemption to her/him, dated from the first day in January of the year in which the first degree credit was obtained. An applicant may be registered for a course under this rule only if places are available for that course. In the case of an applicant who has not qualified with an NSC or NC(V) for entry to a university, Rule G4.3 will apply.

4.10.3 Certificate of ordinary conditional exemption

An applicant who has been issued a conditional exemption from the matriculation examination and who has one outstanding requirement for complete exemption may be admitted to a programme leading to the degree of bachelor provided that s/he fulfils that outstanding requirement in the first year of study as prescribed by the Matriculation Board of USAf. In the case of an applicant who has not qualified with an NSC or NC(V) for entry to a university, Rule G4.3 will apply.

4.10.4 Mature age conditional exemption

An applicant who has been issued a mature age conditional exemption from the matriculation examination by virtue of being over the age of 23 years or 45 years, as the case may be, may be admitted to a programme leading to the degree of bachelor on condition s/he fulfils the requirements of the undergraduate qualification within the period stipulated by the faculty concerned. Such fulfilment entitles the applicant to complete exemption from the matriculation examination.

For the purposes of mature age conditional exemption the USAf (ex Matriculation Board of USAf) distinguishes between applicants aged 23 to 44 years and applicants of 45 years or more. Further details regarding mature age conditional exemption are available from the Matriculation Board.

In the case of an applicant who has not qualified with an NSC or NC(V) for entry to a university, Rule G4.3 will apply.
4.10.5 **Holder of a three-year diploma**

An *applicant* who has passed school Grade 12, but who did not obtain a *matriculation* exemption, an NSC or an NC(V) to enter university, and who has completed a three-year diploma from a university, university of technology, teachers’ training college, nursing college or a franchised or associated technical or community college recognised by the Senate for this purpose may be admitted to a programme leading to the degree of bachelor on condition that s/he fulfils the requirements of the undergraduate *qualification* within the period stipulated by the faculty concerned. Such fulfilment entitles the *applicant* to complete exemption from *matriculation*, the NSC or the NC(V).

4.10.6 **Immigrant conditional exemption**

Subject to Rule G4.4, a person who has resided in South Africa for less than five years and who has been issued with a conditional *matriculation* exemption by reason of not having passed a second language at higher grade in the school-leaving examination at a South African school, may be admitted to a programme leading to the degree of bachelor, on condition that s/he completes a second language *course* at higher grade or NSC or NC(V) or university level within the period stipulated by the faculty concerned. The *qualification* cannot be awarded until this condition has been fulfilled.

4.10.7 **Foreign conditional exemption**

An *applicant* from a foreign country who has been issued a conditional exemption from the *matriculation* examination by the Matriculation Board of USAF may be admitted to a programme leading to the degree of bachelor on condition that s/he fulfils the requirements of the undergraduate *qualification* within the period stipulated by the faculty concerned. Such fulfilment entitles the *applicant* to complete exemption from the *matriculation* examination. In the case of a foreign *applicant* who has not qualified with an NSC or NC(V) for entry to a university, Rule G4.3 will apply.

4.11 **Admission to a programme leading to a higher qualification**

4.11.1 **General requirement for admission to a programme leading to a higher qualification**

For *admission* to a programme leading to a *higher qualification* the Senate must be satisfied that the *candidate* is qualified at an appropriate standard to undertake the proposed line of study or research or both.

4.11.2 **Admission to a programme leading to a degree of bachelor with honours**

Subject to Rule G4.11.6, a graduate in an area of study which the Senate considers appropriate of this or another university recognised by the Senate for this purpose may be admitted to a *programme* leading to the degree of bachelor with honours. However, in a case considered by it to be exceptional, the Senate may admit a person who has not satisfied all the requirements for the degree of bachelor, and in such a case the degree of bachelor with honours will not be made until the requirements for the degree of bachelor have been satisfied.

4.11.3 **Admission to a postgraduate diploma or certificate**

Subject to Rule G4.11.6, a graduate in an area of study which the Senate considers appropriate of this or another university recognised by the Senate for this purpose may be admitted to a *programme* leading to a postgraduate diploma or certificate. However, in a case considered by it to be exceptional, the Senate may admit as a *student* a person who has not satisfied all the requirements for the degree of bachelor, and in such a case the award of the postgraduate diploma or certificate will not be made until the requirements for the degree of bachelor have been satisfied.
4.11.4 Admission to a programme leading to the degree of master

Subject to Rule G4.11.6, a graduate of this or another university recognised by the Senate for this purpose may be admitted to a programme leading to the degree of master if s/he holds a qualification in a field considered by the Senate to be appropriate and which can normally only be taken over not less than four years of full-time study; or if s/he holds more than one qualification both or all of which are considered by the Senate to be in an appropriate field, and for which the combined number of years of full-time study is not less than four years. The Senate may require an applicant for registration for a programme leading to the degree of master to attend such courses or pass such examinations, oral or written or both, as it deems necessary before admitting her/him as a candidate for the qualification.

4.11.5 Admission to a programme leading to the degree of Doctor of Philosophy

Subject to Rule G4.11.6, a holder of a degree of master in an appropriate field from this or any other university recognised by the Senate for this purpose may be admitted to a programme leading to the degree of Doctor of Philosophy.

4.11.6 Overriding criteria for admission to a programme leading to the award of a higher qualification

Notwithstanding the criteria specified in Rule G4.11.2 to Rule G4.11.5 above, a person who has demonstrated a level of competence to the Senate’s satisfaction by virtue of examples of research, writings, experience, professional standing or reputation or other attainments or qualifications in the discipline or cognate field may be admitted as a candidate to a higher qualification.

4.11.7 Admission to candidature for a senior doctorate

Any person may be admitted as a candidate for the degree of doctor if the Senate is satisfied, after consulting with an ad hoc committee of the faculty board concerned which has been convened to peruse the published work submitted, that, on the face of it, a case exists for admitting the candidate.

The following qualifications are senior doctorates:

4.12 Admission of occasional students

A person, whether matriculated or not, may be permitted by the Senate to register for courses outside a recognised curriculum subject to such requirements and conditions as may be determined by the Senate. However, any such courses may not subsequently be granted as credits towards a degree unless the student had matriculated before commencing them. A student seeking credit towards a qualification in respect of a course taken for non-qualification purposes at this University or another institution must satisfy the Senate that:

a) s/he is eligible for admission to the curriculum leading to the qualification; and

b) the validity of the credit/s has not lapsed.

4.13 Admission of study–abroad/ international occasional students

Students of an institution recognised by the Senate for this purpose may be admitted to courses for non-qualification purposes.
Where an exchange agreement with such an institution exists fees may be waived on the basis of reciprocity.

4.14 Admission – previously excluded students

The Senate may in exceptional circumstances consider the application of a student who was previously excluded from the University, for having failed to satisfy the minimum undergraduate degree requirements and exceeding the maximum time (N+2) for the completion of the degree. In such case the student will have to demonstrate that if s/he is readmitted, s/he will be able to succeed and complete the degree.

G5 Registration

The last day for registration differs among faculties and programmes. It is the responsibility of the student to find out from the relevant faculty office when the last day of registration is for her/his programme and to register on or before that date.

5.1 Registration and renewal of registration

Except with the permission of the Senate no person may attend any course or proceed as a candidate for any qualification unless s/he is registered as a student of the University at the material time. Registration is renewable annually or on such shorter period as the Senate may determine.

Normally, an annual period of registration is from the date of registration in a particular year until the last day of registration in the first quarter of the subsequent year in the relevant faculty.

A student who registers in the first semester for first semester or full year course(s) may with the permission of Senate substitute such course(s) with an equivalent course(s) provided that they do so within the first two weeks of the first semester.

A student who registers in the first semester for a course(s) that commences in the second semester may with the permission of Senate substitute such course(s) with an equivalent course(s) provided that they do so within the first two weeks of the second semester.

5.2 Concurrent registration at other institutions or faculties or for other qualifications

A person who is registered as a student for any qualification may not be registered as a student for any other qualification or at any other faculty of the University or at any other tertiary education institution except with the approval of the Senate normally given in advance. Such approval will only be granted in circumstances considered exceptional by the Senate.

5.3 Registration as a student prior to registration for a qualification

The Senate may permit or require a person, before being registered for a qualification, to register as an occasional student and attend courses for such period and pass assessments at the prescribed standard in such courses as the Senate may determine in her/his case.

5.4 Late registration

Late registration, for which a fee may be charged, may be permitted by the Senate only in exceptional circumstances.
5.5 **Registration for twelve months for senior doctorate**

A candidate for a senior doctorate must be registered as a student of the University for at least twelve months before the qualification may be conferred.

5.6 **Cancellation of registration due to ill health**

5.6.1 An applicant for registration in the first or any subsequent year of study may be required to satisfy the Vice-Chancellor that s/he is physically and mentally fit to carry out the work involved in that or any subsequent year of study, and may for this purpose be required to present herself/himself for, and submit to, any medical examination that the Vice-Chancellor may require in her/his case.

5.6.2 The Vice-Chancellor may suspend the registration of any student if s/he is satisfied that this step is warranted because of the student’s physical or mental ill health. An appeal against such suspension may be made to the Council.

5.6.3 The Council may cancel the registration of any student because of her/his physical or mental ill health if it is satisfied after giving the student a proper opportunity to make representations (as defined in the Administration of Justice Amendment Act 53 of 2002), that this step is warranted.

5.7 **Cancellation of registration as a result of unsatisfactory performance/progress**

5.7.1 The Senate may cancel the registration of an undergraduate student in one or more of the courses for which that student is registered in that year, if in the opinion of the Senate the student’s progress is unsatisfactory or if the academic achievement of the student is such that s/he will not at the end of the year obtain credit in such course or courses. For this rule to be invoked, the Head of School must ensure the criteria have been published in advance by which progress and/or academic achievement will be judged as the case may be. An appeal against such cancellation may be made in the first instance to the relevant Head of School. If the Head of School is unwilling to reverse her/his original decision, s/he shall forthwith place the student’s representations and his/her own written comments before the Dean for a decision. In exceptional cases, the Dean may set up an appeal committee composed of two senior faculty members (one from the school concerned) nominated by her/him. The decision of the Dean or the appeal committee, as the case may be, shall be final. Fee implications associated with the cancellation of registrations are outlined in the Schedule of Fees books.

5.7.2 The Senate may cancel the registration of an undergraduate student in the qualification for which that student is registered in that year and in the opinion of the Senate the student’s progress is unsatisfactory or the student has not met the conditions that was stipulated for her/his readmission in that year of study.

5.7.3 The Senate may cancel the registration of a postgraduate student registered for a programme by research if a higher degrees committee (or equivalent), on the recommendation of the relevant supervisor(s) and head of school, has considered the research proposal and/or other milestones of the research of that student and has judged the research proposal or the progress towards the milestones to be academically unsatisfactory or, in material aspects, incomplete. The higher degrees committee may appoint a panel comprising one member of the higher degrees committee, the relevant supervisor and the relevant Head of School for the purpose of advising the higher degrees committee. Reasons must be given when such registration is cancelled and an appeal against such cancellation may be made to the Dean of the Faculty, who will then propose membership of an ad hoc committee to review the case. The three-person ad hoc committee will be chaired by the Dean. The Chairperson of the higher degrees committee; the Head of School and/or the Supervisor (or equivalent); may be in attendance.
If the ad hoc committee does not permit renewal of registration, the student has the right to submit a further appeal to the Deputy Vice-Chancellor (DVC): Research who may consult with the Dean. The decision of the DVC: Research acting on behalf of the Council, shall be final. Fee implications associated with the cancellation of registrations are outlined in the Schedule of Fees book.

5.7.4 The process set out in Rule G5.7.3 will also apply to a postgraduate student registered for a programme which includes coursework.

5.8 **Change of registration**

In exceptional circumstances, where a first-year student is adjudged by the Senate to be making inadequate progress and the criteria by which such judgment is made have been published in terms of Rule G5.7, the student may be permitted or required to alter her/his registration to a special **curriculum** for the same **qualification**.

5.9 **Cancellation of registration by student**

5.9.1 **Date of cancellation of registration for a qualification**

Unless in exceptional circumstances the Senate otherwise determines, a student who cancels her/his registration for a **qualification** less than one month prior to the commencement of the final examination session in which the assessment for that **qualification** are held, will be deemed to have failed in all the **courses** for which s/he was registered in that year, except for those **courses** which s/he has already completed.

5.9.2 **Date of cancellation of registration in a particular course**

Unless the Senate otherwise determines, a student may not cancel her/his registration for a particular **course** less than one month prior to the commencement date of the final examination session in which the assessment for that **course** is held.

5.10 **Refusal of permission to register**

A student who fails to complete a **course** may be refused permission by the Senate to register again for that **course** if **admission** to the **course** is limited or if s/he has registered more than once for that course.

**G6 Attendance**

6.1 **Statutory minimum attendance**

In terms of Joint Statute 16 the minimum period of attendance –

(i) for any degree of bachelor is three academic years.

(ii) for the degree of bachelor with honours is:

1) one academic year provided the student has completed a degree of bachelor recognised by the Senate; or

2) where the **programme** leading to the degree of bachelor with honours is taken simultaneously with the programme leading to the degree of bachelor, at least one academic year in addition to the minimum period prescribed for the degree of bachelor concerned, provided that the Senate may in a case considered by it to be exceptional, reduce the minimum period of attendance in respect of a degree of honours in Bachelor of Arts, Bachelor of Science, or of Bachelor of Commerce to a total of three academic years.
6.2 Failure to attend

Any student registered for any course who fails to fulfil the attendance requirements prescribed by the faculty for that course may be refused permission by the Senate to present herself/himself for assessment in that course.

6.3 Outside work, visits, tours, fieldwork, vacation employment, non-examined courses

The requirements for any qualification or course may include such work or attendance whether within or outside the University and during the academic year and/or vacation periods as the Senate may prescribe. A student is required to perform satisfactorily all duties required of her/him in this connection. Failure to comply with these requirements may result in the student being refused permission by the Senate to present herself/himself for assessment, to register for the subsequent year of study or any particular year of study thereafter or ineligibility for the conferment of the qualification.

6.4 Exemption from attendance

In exceptional circumstances where it is deemed appropriate, the Senate may excuse a student from attending all or part of a course.

6.5 Attendance requirement for students for qualification

Any student for whom attendance is not otherwise prescribed by the rules is required to attend at the University for such period and in such manner as may be determined by the Senate. The Senate may waive this requirement in exceptional circumstances.

6.6 Limitation on the activity of a student for reasons of ill health

6.6.1 The Vice-Chancellor is entitled to investigate the physical or mental health of any student where s/he considers it necessary in the interest of the student or in the interests of the University, to that end may require the student to obtain a medical report from or to submit to examination by a suitably qualified medical practitioner or psychologist acceptable to the Vice-Chancellor. The University is responsible for any costs incurred in the course of such investigation.

6.6.2 Whenever the Vice-Chancellor has reasonable grounds to believe that a student is or may become a danger to herself/himself or to any other person, or may cause damage to any premises occupied or under the control of the University, or may disrupt any of the activities or functions of the University, s/he may place limitations on the presence or activities of that student on University premises and the student is required to observe those limitations.

Without prejudice to her/his general powers under this rule, the Vice-Chancellor may prohibit the student from –

a) entering the precincts of, or any specified part of the University including a University residence; and/or

b) attending any lecture or any specified lectures, laboratory, or other classes or activity whether academic or otherwise.

Any action taken under this rule must be reported to the next meeting of Council or the Executive Committee of Council.
6.6.3 Unless in the opinion of the Vice-Chancellor the urgency of the case or the condition of the student concerned makes it inappropriate or impractical to do so, the Vice-Chancellor or any other officer of the University designated by the Vice-Chancellor, must interview the student concerned before any action is taken under Rule G6.6.2 above and afford her/him a reasonable opportunity to be heard.

6.6.4 Any limitation imposed on a student under Rule G6.6.2 above remains in force until the Vice-Chancellor is satisfied that it is no longer necessary. However, the student concerned is entitled at any time to make representations to the Vice-Chancellor or to apply to the Council to review any limitations imposed under Rule G6.6.2 above.

6.6.5 The Council may, at any time, investigate the matter and having considered any representations that may have been made by the Vice-Chancellor or the student concerned, may confirm, alter or set aside any limitation imposed under G6.6.2 above.

G7 Curricula

7.1 Senate approval of curriculum

A person may not be registered for a curriculum leading to a qualification in any year of study until her/his curriculum for that year has been approved by the Senate. An approved curriculum may only be amended with the consent of the Senate.

7.2 Condonation of breach of rules

The Senate may, with retrospective effect, condone any breach of the faculty rules governing a curriculum if it is satisfied that the student concerned was not at fault and would suffer undue hardship if the breach were not condoned.

7.3 Restriction on choice of courses

In terms of Rule G2.6 wherever the rules for a qualification provide for the selection of courses by a student, such selection may be limited by the timetable of classes, a restriction on the number of students to be registered for a particular course or insufficient resources.

7.4 Special curricula

The Senate may approve a special cognately consonant curriculum for a student:

a) where it considers it necessary for that student to proceed on a curriculum which extends beyond the minimum period of full-time study. The maximum period of extension is stipulated in the faculty rules; or

b) where it considers it necessary for that student to proceed on foundation and/or additional courses which do not contribute credits towards a qualification; or

c) who has been granted credits or exemptions in terms of Rule G4.7; or

d) who has interrupted her/his studies at the University prior to a change in the rules governing the curriculum or qualification for which s/he was registered or to whom no curriculum is currently applicable; or

e) who has been permitted to proceed to a subsequent year of study without having obtained credit for all the courses prescribed for the previous year of study; or

f) who has, in circumstances considered by the Senate to be exceptional, been able to give satisfactory evidence of her/his qualifications to proceed to a second or third level course in a subject; or

g) who, in the opinion of the Senate, suffers or has suffered a disadvantage because of illness or physical disability or because of some other good and sufficient cause; or
h) who has, in circumstances considered by the Senate to be exceptional, been able to give satisfactory evidence of her/his ability to complete the first course in a subject by part-time study; or

i) in any other circumstances which it considers academically desirable or necessary. The granting of a special curriculum has been delegated by the Senate to the Dean of each faculty, or to the nominee/s of the Dean, in instances where the Dean reports such nomination/s and the period for which each such person will exercise this responsibility, to the Faculty Board.

7.5 Change of rules during a student’s registration

If the rules governing a qualification are changed, a student who registered under the old rules and who has obtained sufficient credits to enable her/him to proceed to the next year of study in terms of those rules, may proceed on the old curriculum unless s/he elects to proceed on the new curriculum. However where there are, in the opinion of the Senate, compelling reasons for doing so, which may include failure in one or more courses, or where a student does not register for the next year of study in the ensuing academic year or where at her/his request, a student is permitted by the Senate to register in the ensuing year on a special curriculum, that student may be required by the Senate to proceed on new rules or on interim rules or on a special curriculum laid down for her/him by the Senate.

7.6 Study-abroad component/ foreign electives

A registered student who completes a study-abroad component approved by the Senate or, as part of an institutional exchange agreement, completes appropriate credits at an institution which is recognised by the Senate for this purpose in a country other than South Africa, earns credits as defined in the requirements for the qualification.

7.7 Credits

Subject to the rules pertaining to a particular qualification and any special restrictions on credits in the rules, a student obtains credit in any course that s/he successfully completes. However, even if a student obtains such credit, s/he may be refused permission to renew her/his registration if s/he fails to comply with the minimum requirements of study prescribed.

7.8 Minimum requirements of study

7.8.1 A student who does not meet the minimum requirements of study may be refused permission by the Senate to renew her/his registration. If, however, a student is permitted to renew her/his registration after having failed to satisfy the minimum requirements of study, s/he may be required to satisfy further conditions as the Senate may determine in her/his case.

The minimum requirements of study prescribed for students are set out in the faculty rules.

7.8.2 Save in exceptional circumstances, a student who fails to meet the minimum requirements of study after s/he has reached or exceeded the maximum time (N + 2) for the completion of the degree shall not be permitted by Senate to renew her/his study with the University.

Rule 7.8.2 will only apply to undergraduate programmes

7.9 Withdrawal of, or refusal to grant credits and/or exemptions

The Senate may withdraw or refuse to grant credits and/or exemptions if, in the opinion of the Senate, the time which has elapsed between obtaining the credit or exemption and completion of the other requirements for the award of a qualification is excessive or is excessive in view of the nature of the subject.
Unless otherwise stipulated by the Dean of the Faculty, the shelf life of a course is four years.

7.10 Sub-minimum rule

Unless specified otherwise in a course outline, a student will not be allowed to obtain credit for a course unless s/he achieves:

a) a final mark of at least 50 percent for that course; and
b) a sub-minimum of 35 percent in each of the components of that course as well as in the summative assessment for that course.

Such a sub-minimum criterion applies only to components which contribute 25 percent or more towards a course, unless specified otherwise in the course outline.

Summative assessment in this instance is assessment that regulates the progression of students by awarding marks at the conclusion of a course.

G8 Requirements for Award of Qualification

In addition to the requirements of admission, registration, attendance and assessment applicable to the qualification for which a student is registered, such student must meet the requirements for the award of the qualification by obtaining credit in the courses set in each academic year and/or conducting research approved by the Senate and satisfying such further requirements as may be prescribed by the Senate and which are set out in the faculty rules.

G9 Degree of Master

9.1 General

The Senate may require a candidate for the degree of master as a condition of the conferment of the degree to attend such courses or pass such examinations (written or oral) as it deems necessary before conferring the qualification.

9.2 The programme of master proceeding by research

Where appropriate a faculty may offer a programme leading to the degree of master by:

a) advanced study and research normally under the guidance of a supervisor/s appointed by the Senate; or
b) attendance, completion of a curriculum approved by the Senate and submission of a topic approved by the Senate.

9.3 Programme by research and coursework

Where appropriate a faculty may offer a programme leading to the degree of master by research and coursework by:

a) attendance, completion of a curriculum approved by the Senate and submission of coursework and Research Report on an approved topic by the Senate; or
b) attendance and completion of an approved curriculum.
9.4 Conditions for the conferment of the degree of master by research

A person who is admitted as a candidate for a degree of master by research must, after consultation with her or his supervisor if there is one, present for the approval of the Senate a dissertation on a subject approved by the Senate. The dissertation must, in the opinion of the Senate, constitute both an application of the methods of research and a contribution to the advancement of knowledge in the subject chosen.

Consistent with the definition of a dissertation in Rule G1.12, a dissertation will be an extended piece of written work which may incorporate creative work or publications.

The terms Dissertation and Research Report are defined in Rule G1. Further conditions for the conferment of the degree of master are set out in the faculty rules and the Senate Standing Orders for Higher Degrees.

9.5 Supervision of full-time members of staff

In circumstances considered by it to be exceptional the Senate may dispense with the requirement for supervision in the case of a candidate who holds an appointment as a member of the full-time academic staff of the University and has held such appointment for such period as is laid down in the faculty rules. In such a case the Senate must appoint an internal and external examiner.

9.6 Abstract and style of Dissertation or Research Report

The Dissertation or Research Report prescribed by the Senate must include an abstract and conform as far as possible to the style, length and format recommended in the authorised style guide obtainable from faculty offices.

9.7 Copies of Dissertation or Research Report

A candidate for the degree of master must submit at least two bound copies, two further unbound copies and an electronic version of her/his dissertation or Research Report. The bound copies must be in a form that, in the opinion of the Senate, is suitable for submission to the examiners. Further bound copies may be required in terms of individual faculty rules. Prior to graduation, two final, corrected copies of the dissertation or Research Report must be submitted in a printed format as well as a final, corrected copy in electronic format as required by the University archivist. The candidate must attest that the electronic copy is identical to the printed copy.

9.8 Formal declaration

Together with her/his dissertation or Research Report, a candidate must submit a formal declaration stating whether –

a) it is her/his own unaided work or, if s/he has been assisted, what assistance s/he has received;

b) the substance or any part of it has been submitted in the past or is being or is to be submitted for a qualification at any other university;

c) the information used in the dissertation or Research Report has been obtained by her/him while employed by, or working under the aegis of, any person or organisation other than the University.
9.9 Acknowledgement of conferment of degree if material is published

A candidate upon whom a degree of master has been conferred by the University and who subsequently publishes or republishes her/his dissertation or Research Report in whole or in part, must indicate on the title page or in the preface or, if this is not appropriate, in a footnote, that such Dissertation or Research Report has been approved for that qualification by the University.

9.10 Completion of all requirements for the degree of master

Unless the Senate has granted an extension of time, a candidate who has not satisfied all the requirements for the degree of master including submission of a Research Report, if s/he is required to submit one, by the date stipulated in the faculty rules is deemed to have failed. If the Senate grants her/him such extension s/he is required to register for the new academic year.

G10 Degree of Doctor of Philosophy

10.1 Fulfilment of requirements for conferment of the degree of Doctor of Philosophy

When the research is completed a candidate must:

a) present for the approval of the Senate a thesis, the research for which is normally conducted under the guidance of a supervisor/s, which must constitute in the opinion of the Senate a substantial contribution to the advancement of knowledge in the subject chosen, and which must be satisfactory as regards literary presentation;

The term thesis is defined in Rule G1.34. Further conditions for the conferment of the degree of Doctor of Philosophy are set out in the faculty rules and the Senate Standing Orders for Higher Degrees.

b) furnish an abstract with each copy of the thesis;

c) if required by the Senate, present herself/himself for such assessment, or such other requirements as the Senate may determine in respect of the subject of her/his thesis.

10.2 Supervision of full-time members of staff

In circumstances considered by it to be exceptional, the Senate may dispense with the requirement for supervision in the case of a candidate who holds an appointment as a member of the full-time academic staff of the University and has held such appointment for such period as is laid down in the faculty rules. In such a case, the Senate must appoint one internal and two external examiners.

10.3 Copies of thesis

Unless the faculty rules for the qualification require otherwise, a candidate for the degree of Doctor of Philosophy must submit three bound copies, two further unbound copies and an electronic version of her/his thesis. The bound copies must be in a form that, in the opinion of the Senate, is suitable for submission to the examiners.
Prior to graduation, two final, corrected copies of the thesis and any other work must be submitted in a printed format as well as a final, corrected copy in electronic format as required by the University archivist. The candidate must attest that the electronic copy is identical to the printed copy.

The rules relating to formal declaration (Rule G9.8), acknowledgement of conferment of the qualification, (Rule G9.9) and completion of all requirements for the degree of master (Rule G9.10), apply with the appropriate changes.

**G9.7, G10.3: A candidate for a higher degree is not entitled to the return of such copies.**

**G11 Senior Doctorate**

**11.1 Conditions for the conferment of the degree**

A candidate for a senior doctorate must present for the approval of the Senate at least five copies of original published work, or original work accepted for publication, in a field approved by the Senate. Such work must, in the opinion of the Senate, constitute a distinguished contribution to the advancement of knowledge in that field.

**11.2 Notice of intention to apply for candidature**

A candidate must give notice in writing to the Registrar of her/his intention to present herself/himself as a candidate for the qualification, submitting at the same time the title and an outline of the proposed submission.

**G12 Conversion of candidature for higher qualifications**

**12.1 General**

Where the requirements for a higher qualification allow, a candidate may be permitted or required by Senate under conditions prescribed by it to convert her/his candidature from one higher qualification to another within the period of registration. Special conditions for conversion are specified in the faculty rules.

The conditions for conversion are generally applicable for existing programmes and qualifications prior to 2009, for new programmes or qualifications, i.e. those which have not existed before 2009, the conditions for conversion are subject to Senate discretion. On conferment of a converted higher qualification, the transcript will be endorsed to reflect the conversion.

**Conditions for conversion may change in light of the Higher Education Qualifications Sub-Framework.**

**12.2 Conversion from a programme leading to the degree of master by research to a programme leading to the degree of Doctor of Philosophy**

a) A person who has been admitted as a candidate for the degree of master may, in exceptional circumstances, at her/his request and on the recommendation of the supervisor and of the Head of the School concerned, on the basis of work towards the dissertation be allowed, by permission of the Senate, to proceed instead to the degree of Doctor of Philosophy. Provided further that the degree of master shall NOT be conferred on her/him in the event of her/his–

i) withdrawing her/his candidature for the degree of Doctor of Philosophy;
ii) having her/his candidature for the degree of Doctor of Philosophy cancelled in terms Rule G5.7; or failing to satisfy the requirements for the degree of Doctor of Philosophy.

b) A person who has completed the requirements for the degree of master, at her/his request and on the recommendation of the Head of the School concerned, may be permitted by the Senate not to have the qualification conferred on her/him, but to conduct, for not less than one academic year of further full-time study, or not less than two academic years of further part-time study, additional research for the degree of Doctor of Philosophy, which shall be a significant extension of the research already completed by her/him: Provided that the period of additional research may be waived or reduced in a case considered by the Senate to be exceptional. Provided further that the degree of master shall NOT be conferred on her/him in the event of her/his –

i) withdrawing her/his candidature for the degree of Doctor of Philosophy;

or

ii) having her/his candidature for the degree of Doctor of Philosophy cancelled in terms Rule G5.7; or

iii) failing to satisfy the requirements for the degree of Doctor of Philosophy.

c) A person who is permitted to change her/his candidature in terms of (a) or (b) above will be deemed to have been admitted to candidature for the degree of Doctor of Philosophy at the date of her/his admission to candidature for the degree of master, or at such later date as the Senate may determine in her/his case, but will be subject, in all other respects, to the rules for the degree of Doctor of Philosophy and such other conditions as the Senate may determine in her/his case.

12.3 Conversion from a programme leading to a degree of master by coursework and Research Report to a programme leading to the degree of master by research

a) A person who has been admitted as a candidate for the degree of master by coursework and Research Report may, in exceptional circumstances, at her/his request and on the recommendation of the supervisor and of the Head of the School concerned, on the basis of work towards the Research Report be allowed, by permission of the Senate, to proceed instead to the degree of master by research. Provided further that the degree of master by coursework and Research Report shall NOT be conferred on her/him in the event of her/his-

i) withdrawing her/his candidature for the degree of master by research; or

ii) having her/his candidature for the degree of master by research cancelled in terms Rule G5.7; or

iii) failing to satisfy the requirements for the degree of master by research.

b) A person who has completed the requirements for the degree of master by coursework and Research Report, at her/his request and on the recommendation of the Head of the School concerned, may be permitted by the Senate not to have the degree conferred on her/him, but to conduct, for not less than one academic year of further full-time study, or not less than two academic years of further part-time study, additional research for the degree of master by research, which shall be a significant extension of the research already completed by her/him: Provided that the period of additional research may be waived or reduced in a case considered by the Senate to be exceptional. Provided further that the degree of master by coursework and Research Report shall be conferred on her/him in the event of her/his –
i) withdrawing her/his candidature for the degree of master by research; or

ii) having her/his candidature for the degree of master by research cancelled in terms Rule G5.7; or

iii) failing to satisfy the requirements for the degree of master by research.

c) A person who is permitted to change her/his candidature in terms of (a) or (b) above will be deemed to have been admitted to candidature for the degree of master by research at the date of her/his admission to candidature for the degree of master by coursework and Research Report, or at such later date as the Senate may determine in her/his case, but will be subject, in all other respects, to the rules for the degree of master by research and such other conditions as the Senate may determine in her/his case.

G13 Assessment

13.1 General

An assessment may be written, practical, electronic, clinical or oral, in project or assignment form or be any other piece of work or any combination thereof as may be specified by the Senate, provided that a student’s overall assessment does not consist of an oral assessment alone, except if expressly determined as appropriate by the Senate. Such determination may not be delegated. In all cases the evaluation must be in a form that is suitable for objective assessment by an internal moderator or external examiner. In each case the School must make clear the extent and nature of the work to be assessed and the criteria to be used.

13.2 Examiners

13.2.1 At least one examiner for each course must be a member of the academic staff of the University who has taught the students in the course under assessment unless it is impracticable in any instance because of the death, dismissal, resignation, absence, illness or other incapacity of the member of staff concerned, or for some reason deemed by the Senate to be sufficient.

13.2.2 At least 50 percent of the assessments that contribute to the final marks for every course will be internally moderated and/or externally examined, provided that at least 30 percent of every course is externally examined.

13.2.3 An internal moderator is normally a member of the academic staff who may be from the same department or school or from another department or school but who has not been involved at all in teaching the course during the relevant academic year. Unless otherwise impracticable or with the approval of the Dean, an internal moderator should not be appointed to examine the same course for more than three consecutive years.

13.2.4 An external examiner is normally appointed from outside the University, preferably from another university, or in the case of professional disciplines, from among experienced members of the professions. In exceptional cases where these options are impracticable, a member of the academic staff may, with the permission of the Dean, be appointed as an external examiner but only if s/he has not been involved at all in teaching the course during the relevant academic year. Unless otherwise impracticable or with the approval of the Dean an external examiner should not be appointed to examine the same course for more than three consecutive years. There should be no reciprocity between external examiners from this and other institutions save in circumstances which the Senate deems exceptional.

13.2.5 An additional requirement with regard to examiners for the degree of Doctor of Philosophy is that the Senate must appoint three examiners of whom two must be external examiners as defined in Rule G13.2.4 above.
13.3 Eligibility for assessment

A student may be disqualified from presenting herself/himself for any assessment if s/he has not satisfied such requirements, including satisfactory participation in the work of the class, as may be prescribed by the Senate.

These requirements include, but are not limited to: attendance, assignments completed, tutorials participated in, practical experiments, clinical work, field work and outside work. It is incumbent on each student to ascertain from the head of school what is required to qualify for presentation for assessment for each course. Disqualification includes being refused permission to complete an assessment or receiving no marks for such assessment.

13.4 Additional oral or other form of assessment

The Senate may require a student to present herself/himself for an oral or other form of assessment if, on the marks obtained by her/him after prescribed assessment/s, s/he is, in the opinion of the Senate, on the borderline of the pass mark or the mark required for a particular class, as defined in the faculty or school standing orders. In such an event the marks obtained in such oral assessment are reported to the Senate in addition to the marks obtained in the prescribed assessment/s. The Senate must then determine the mark to be allocated.

13.5 Supplementary assessments

A student who has failed a course may be permitted by the Senate to present herself/himself for a supplementary assessment where such assessment is permitted by the rules of the faculty which teaches and examines the course, unless otherwise agreed by the faculties concerned. Supplementary assessments may only be deferred in circumstances considered by the Senate to be exceptional.

A supplementary assessment fee may be charged.

13.6 Deferred assessments

13.6.1 Students applying for a deferred examination must do so within three (3) working days after the date of the examination.

13.6.2 If the Dean of the faculty is satisfied that there is sufficient reason, s/he may permit a student to defer her/his assessment/s. The Dean will require the student to submit such evidence to support her/his case as the Dean considers necessary.

A Dean who permits a student to present herself/himself for a deferred assessment may require her/him to do so at such time and subject to such conditions as s/he considers fit and, in particular, may require the student to defer or to repeat (as the case may be) some or all her/his assessments (or some or all the assessments that s/he has not failed) in the year in respect of which her/his application is lodged.

13.6.3 A student who does not present herself/himself for a deferred assessment is not entitled or permitted to have the assessment further deferred unless there are, in the opinion of the Senate, exceptional grounds for permitting her/him to do so.

13.6.4 Unless in the opinion of the Senate, exceptional circumstances exist, a deferred assessment:

a) in the first semester, must be completed not later than the first week of the third teaching block;

b) in the second semester, must be completed before the commencement of the following academic year.
13.7 Re-assessment
Where a student has presented herself/himself for assessment and before the results or provisional or unconfirmed results of such assessment are published, the Dean of the faculty, after due consideration of the relevant factors, may permit a student to sit for re-assessment if at the time of the assessment owing to illness or her/his mental state, the student was unable to bring her/his judgment properly to bear on whether to apply for a deferred assessment in terms of Rule G13.6.1 above and if the Dean considers that the student would suffer hardship to an exceptional degree were s/he not allowed to do so.

13.8 Absence from assessment
Unless the Senate is satisfied that there was good and sufficient reason, a student who is absent from an assessment, in a course for which, in accordance with the relevant curriculum, s/he is required, permitted or entitled to present herself/himself, fails that course.

G14 Academic Progression
14.1 Completion of courses prescribed for previous year of study
Except as provided in the rules for any qualification or by permission of the Senate, a student may not be admitted to a year of study until s/he has completed the courses prescribed for any preceding year of study and satisfied such further requirements, if any, as are prescribed by the rules.

14.2 Standard required to proceed
A student may not include in her/his curriculum any course at a subsequent level unless s/he has attained in that course at the preceding level such standard as is considered by the Senate to warrant her/his admission to the course at the subsequent level and has satisfied the prerequisites for that course as determined by the Senate from time to time.

14.3 Prerequisite non-credit bearing courses
Where a student is required to attend a course which does not constitute a credit towards the qualification for which s/he is registered or to perform any other requirement prescribed for any particular year of study for any qualification, her/him failure to attend such course or to perform such other requirement may result in her/him being refused permission by the Senate to register for the subsequent year of study or any particular year of study thereafter.

14.4 Special curricula for students who cannot proceed to the next year of study
A student who has obtained credit in some of the courses prescribed for any year of study but who may not in terms of the rules proceed to the following year of study and who has not been excluded in terms of the faculty rules for progression, may be permitted or required by the Senate to proceed on a special curriculum. In addition to the courses being repeated the student may be permitted to include in her/his curriculum a course or courses prescribed for the next year of study and/or such course as may enrich the content of her/his curriculum.
14.5 **Re-attendance requirement for students who cannot proceed to the next year of study**

A *student* who is not permitted by the *Senate* to proceed to the subsequent year of study or to include in her/his *curriculum* for the following academic year a further *course* in a subject in which s/he has obtained *credit*, may be required by the *Senate* to re-attend and perform to the satisfaction of the *Senate* the work of the class prescribed for such a repeated *course*, failing which s/he may be refused permission to register for the subsequent year of study or any particular year of study thereafter.

**G15 Results**

15.1 **Publication of results**

The final mark obtained by a *student* in a *course* may be published either by way of a percentage mark or as a result decision except where the *Senate* has, in the case of some supplementary *assessments*, ruled otherwise.

15.2 **Non-publication of results**

The final marks obtained by a *student* will not be published and a *qualification* will not be conferred on a *student* unless and until –

a) s/he has paid all outstanding fees, levies, disbursements, fines and any other monies lawfully owing to the *University*;

b) any disciplinary proceedings, pending or incomplete, have been completed; and

c) there has been compliance with any order made against the student as a consequence of any disciplinary proceedings.

**G16 Conferment of qualification**

16.1 **Congregation**

*Qualifications* must be conferred by the *University* at a meeting of the Congregation of the *University* convened for this purpose.

16.2 **Issuing of a certificate**

Degrees are conferred and Diplomas are granted at a *University* Graduation ceremony. A degree or diploma certificate will not be issued to a *student/candidate* prior to her/his name appearing in the official graduation programme.

16.3 **Endorsement of certificate**

Where a *qualification* is conferred or granted in a specific field, option or branch, the *Senate* may determine that the certificate attesting to such conferment or granting will bear a statement specifying that field, option or branch. The *Senate* may determine that where a person who has been granted such a certificate has satisfied the requirements for another field, option or branch, the original certificate be endorsed to reflect this fact.

16.4 **Non-conferment of qualification**

A *student* who otherwise qualifies for the conferment of a *qualification* may be deemed not to have done so unless and until –
a) the student has paid all outstanding fees, levies, disbursements, fines and any other monies lawfully owing to the University;

b) any disciplinary proceedings, pending or incomplete, have been completed;

c) any order made against the student as a consequence of any disciplinary proceedings has been complied with; and

d) in the case of the conversion from one higher qualification to another s/he has surrendered the certificate in respect of the former higher qualification. Where such surrender is impossible the Senate may permit the conferment of the qualification.

16.5 Permission to complete qualification by obtaining credits elsewhere

The Senate may, if it considers fit, permit a student who has only one or two, or, in a case considered by it to be exceptional, three courses or such number of courses as does not exceed 30 per cent of the total number of prescribed courses outstanding for a qualification and who satisfies the Senate that, by reason of a change of residence, or for some other good and sufficient cause, s/he is unable to continue attending at the University, to complete such course or courses at another university or at an institution recognised for this purpose by the Senate within or outside the Republic of South Africa.

The policy of the faculties on this issue is set out in the standing orders of each faculty.

G17 Conferment of Qualification with Distinction

The qualification is awarded with distinction or with distinction in a particular course to a student who has obtained the standard laid down by the Senate for that purpose.

G18 Honorary Degrees

18.1 A proposal to confer an honorary degree may be made either by a member of the Council or of the Senate and must be seconded by another member of either of these structures.

18.2 The proposal must be communicated in writing to the University Registrar.

18.3 The proposal must be accompanied by a statement setting out the reasons for making it.

18.4 A resolution to confer an honorary degree must be passed in the Council and in the Senate by an absolute majority of the members of each structure voting by secret postal ballot.

18.5 A person who sits on both structures is entitled to vote in each election.

G19 Intellectual Property

Students are advised to refer to the University Policy on Intellectual Property.

19.1 Any owner’s right to intellectual property in any thesis, dissertation, Research Report or any other work is normally subject to the right of the University to make a reproduction of it or parts of it in any medium for a person or institution requiring it for study or research, provided that not more than one copy is supplied to that person or institution.

19.2 Where research includes a patentable invention, the University may keep the research confidential for a reasonable period if specifically requested to do so.
19.3 Where confidentiality has been agreed in advance the University must keep the research confidential for the period agreed.

19.4 Subject to 19.2 and 19.3 the University may distribute abstracts or summaries of any thesis, dissertation, Research Report or any other work for publication in indexing and bibliographic periodicals considered by the University to be appropriate.

G20 Ethical Clearance

Students who propose to conduct research of any kind on human or animal subjects must apply for ethical clearance from the appropriate University’s Ethics Committee/s.

Joint Statutes of the Universities in the Republic of South Africa

Section 74(6) of the Higher Education Act 101 of 1997 states that the joint statutes and joint regulations and rules made in terms of the Universities Act, 1995 (Act 61 of 1955), continue to exist until the date contemplated in that Act. The only provisions of the Joint Statutes remaining in force are:

16

Subject to the provisions of an Act or of this statute, no university may, notwithstanding anything to the contrary in its statute, admit a candidate to the degree of bachelor unless he has –

a) registered as a matriculated student [or an NSC or NC(V) student];

b) passed such examinations or tests and complied with such conditions as the University may impose for the completion of each course in each academic year of study in the subjects offered for the degree: Provided that no recognition for the purposes of a degree shall be given to any course completed in any subject in any academic year of study unless the date of validity of his matriculation certificate or certificate of exemption from the matriculation examination [or NSC or NC(V)] precedes 2 April of the academic year in which such course was completed;

c) completed subsequent to the date of validity of the matriculation certificate [or the NSC or NC(V)] or of the certificate of full exemption from the matriculation examination issued by the Matriculation Board [of Higher Education South Africa (HESA)] the following minimum period of attendance recognised for such degree: Provided that in the case of a student of the University of South Africa the term ‘attendance’ shall mean ‘registration’ –

i) for the degree of Bachelor of Education (BEd) or Bachelor of Physical Education (BEdPh) –

1) two academic years where s/he has obtained prior to this period of attendance a degree of Bachelor of Arts or Science or another degree accepted by the Senate of the University as equivalent thereto; or

2) one academic year where s/he has obtained prior to this period of attendance either an approved four-year bachelor’s degree or an approved three-year bachelor’s degree and also an approved diploma or certificate in education;

ii) for the honour’s degree of bachelor –

1) one academic year provided he has completed a bachelor’s degree recognised by the Senate of the University; or
2) where the honours degree of bachelor is taken simultaneously with the bachelor’s degree, at least one academic year in addition to the minimum period prescribed for the bachelor’s degree concerned: Provided that a university may, in a case considered by it to be exceptional, reduce the minimum period of attendance in respect of an honours degree of Bachelor of Arts, Bachelor of Science, or of Bachelor of Commerce to a total of three academic years.

3) for the degree of Bachelor of Philosophy (BPhil) two academic years after the date of completion of a bachelor’s degree for which the minimum period of attendance is three academic years; or one academic year after the completion of a bachelor’s degree for which the minimum period of attendance is four academic years;

4) for any other bachelor’s degree: three academic years.

17

A student who was registered at a university, must, upon application for admission to another university, submit a certificate of conduct at the first mentioned university which, subject to section 11 of the Universities Act, is acceptable to the Senate of the university to which admission is sought.

18

1) Subject to the provisions of subparagraph (2), the Senate of a university may accept as part of the attendance of a student for admission to a degree of bachelor, other than a one year honours degree of bachelor, of that university, periods of attendance as a registered matriculated student at any other university or institution, and may accept, as far as practicable, certificates of proficiency in any subject issued by such other university or such other institution: Provided that the foregoing shall also apply in the case of periods of attendance and subjects passed for diplomas with a minimum duration of three years which have successfully been completed at a university or another institution and on account of which the Board has granted full or conditional exemption from the matriculation examination [or the NSC or NC(V) examination], backdated to the commencement of the year in which credit for such diploma was first earned; and provided further that the provisions of subparagraph (2) shall also apply to such diplomas completed at the same university as that at which the student concerned is to be admitted to a degree of bachelor.

2) A candidate shall not be admitted to an ordinary degree of bachelor in terms of sub-paragraph (1) unless –

a) his periods of attendance are together not less than the completed period prescribed for admission to such degree;

b) he attended at the university that confers the degree courses prescribed by that university –

i) for a degree for which the period of attendance is three academic years, for at least two academic years: Provided that he has attended as a registered student for that degree at least half of the total number of courses prescribed for the degree, or

3) A candidate shall not be admitted to an ordinary degree of bachelor in terms of sub-paragraph (1) unless –

a) his periods of attendance are together not less than the completed period prescribed for admission to such degree;

b) he attended at the university that confers the degree courses prescribed by that university –

i) for a degree for which the period of attendance is three academic years, for at least two academic years: Provided that he has attended as a registered student for that degree at least half of the total number of courses prescribed for the degree, or
ii) for any other degree of bachelor, at least two academic years, except for the degree of Bachelor of Education (BEd), or Bachelor of Physical Education (BEdPh), or Bachelor of Philosophy (BPhil), for which the period of attendance may be one academic year.

4) The Senate of a university may recognise for admission to a one-year honours degree of bachelor at the university, courses completed for a one-year honours degree of bachelor at any other university: Provided that at least half of the courses required for the degree shall be attended and passed at the university granting the degree and that the total period of attendance is not less than one year.

1 Information in square brackets is inserted for explanatory purposes.

2 This word is used in accordance with the definition in Rule G1.13
These Rules are subordinate to and should be read in conjunction with the General Rules. The Rules for degrees and diplomas published here are subject to change. They reflect the Rules and Regulations of the University as at 31 July 2019 but may be amended prior to the commencement of the 2020 academic year.

Definitions

Course levels: courses are offered at four levels, 1000, 2000, 3000 and 4000. The course levels are defined by the Senate according to its determination of the difficulty of the course. The most difficult are classified as being at the 3000 and 4000 level, the least difficult at the 1000 level and the others at the 2000 level. The levels 1000, 2000, 3000 and 4000 are denoted by numerals I, II, III and IV respectively.

Corequisite course is a prerequisite which may be taken concurrently with another course and which a requirement is for credit in that other course.

Prerequisite course is a course which must be passed before registration for a subsequent course.

For further definitions see Rule *G1 and Rule *G2.

2.1.1 Bachelor of Education in Foundation Phase Teaching

2.1.1.1 Admission Rules

a) Matriculation requirements:

The normal requirement for admission is matriculation with exemption. However, with permission of the Senate and in terms of Rule *G4.10.2, an applicant may be considered for admission provided that s/he has passed the Senior Certificate examination with a minimum of three subjects (including English) in the Higher Grade and has, in addition, demonstrated, in a selection process approved by the Senate, that s/he is suitable for admission.

b) National Senior Certificate and National Certificate (Vocational) Requirements:

A pass in English First Language with at least level 5 at the NSC level or a pass in English First Additional Language with at least level 5 at the NSC level. A 50% pass in Mathematics at the NSC level or a 60% pass for Maths Literacy at the NSC level. Teachers who are in possession of a recognised certificate or diploma in education may be admitted with a possibility of transfer of credits for cognate previous studies.

c) Admission into courses

Admission into courses is governed by the course corequisite and prerequisite rules under point d).

d) Prerequisite Courses

Except when permitted by the Senate, a student may not register for the courses in list A unless s/he has credit or exemption in the course in list B. See the course prerequisite tables for the curriculum in which you are enrolling.

2.1.1.2 Curriculum

Length of curriculum

The curriculum extends over not less than four academic years of full-time study or six years of part-time study.

The curriculum offered by the University must meet the provisions, set out in the revised Minimum Requirements for Teacher Education Qualifications (Government Gazette no. 38487, February 2015). The degree comprises a minimum of 480 credits, in accordance with the Higher Education Qualifications Sub-Framework (HEQSF) and the policy referred to above.

### 2.1.1.4 Progression Rules

In order to progress to the succeeding year of study a student must have obtained the following number of credits:

**First Year of Study:**

72 credits (including 12 credits for EDUC1261A Teaching Experience IA, EDUC1262A Teaching Experience IB and 24 credits EDUC1252A Childhood Studies I).

**First Year of Study (repeat):**

120 credits (including 12 credits for EDUC1261A Teaching Experience IA, EDUC1262A Teaching Experience IB and 48 credits obtained across Education, EDUC1252A Childhood Studies I, EDUC1250A Mathematics for Primary School Teachers I and/or EDUC1251ALiteracy for Primary School Teachers I).

**Second Year of Study:**

180 credits (including 24 credits for EDUC2238A Teaching Experience II and 24 credits for EDUC2233A Childhood Studies II, EDUC2231A Mathematics for Primary School Teachers II and/or EDUC2232A Literacy for Primary School Teachers II).

</tbody>
</table>
Second Year of Study (repeat):

240 credits (including 24 credits for EDUC2238A Teaching Experience II and 48 credits obtained across Education, EDUC2233A Childhood Studies II, EDUC2231A Mathematics for Primary School Teachers II and/or EDUC2232A Literacy for Primary School Teachers II).

Third Year of Study:

300 credits (including 48 credits for EDUC3142A Teaching Experience IIIA, EDUC3143A Teaching Experience IIIB and 24 credits for EDUC3117A Education III, EDUC3116A Childhood Studies III, EDUC3132A Mathematics for Primary School Teachers III and/or EDUC3129A Literacy for Primary School Teachers III).

Third Year of Study (repeat):

360 credits (including 48 credits for EDUC3142A Teaching Experience IIIA, EDUC3143A Teaching Experience IIIB and 48 credits obtained across Education, EDUC3116A Childhood Studies III, EDUC3132A Mathematics for Primary School Teachers III and/or EDUC3129A Literacy for Primary School Teachers III and/or EDUC3169A isiZulu Additional Language II or EDUC3121A Sesotho First Additional Language III).

Fourth Year of Study:

408 credits (including 48 credits for EDUC4232A Teaching Experience IVA, EDUC4233A Teaching Experience IVB and 24 credits obtained across Education, EDUC4211A Childhood Studies IV, EDUC4227A Mathematics for Primary School Teachers IV and/or EDUC4224A Literacy for Foundation Phase Teachers IV and/or EDUC3169A isiZulu Additional Language II or EDUC3121A Sesotho First Additional Language III)

2.1.1.5 Completion Rules

Students must complete the full curriculum as stipulated above in order to complete the qualification.

2.1.2 Bachelor of Education in Intermediate Phase Teaching

2.1.2.1 Admission Rules

a) Matriculation requirements:

The normal requirement for admission is matriculation with exemption. However, with permission of the Senate and in terms of Rule *G4.10.2, an applicant may be considered for admission provided that s/he has passed the Senior Certificate examination with a minimum of three subjects (including English) in the Higher Grade and has, in addition, demonstrated, in a selection process approved by the Senate, that s/he is suitable for admission.

b) National Senior Certificate and National Certificate (Vocational) Requirements:

A pass in English First Language with at least level 5 at the NSC level or a pass in English First Additional Language with at least level 5 at the NSC level. A 50% pass in Mathematics at the NSC level or a 60% pass for Maths Literacy at the NSC level. Teachers who are in possession of a recognised certificate or diploma in education may be admitted with a possibility of transfer of credits for cognate previous studies.

c) Admission into courses

Admission into courses is governed by the course corequisite and prerequisite rules under point d).

d) Prerequisite Courses

Except when permitted by the Senate, a student may not register for the courses in list A unless s/he has credit or exemption in the course in list B. See the course prerequisite tables for the curriculum in which you are enrolling.

<td>Becoming a Teacher A</td>
<td>6</td>
<td>5</td>
</tr>
<tr>
<td>EDUC1270A</td>
<td>Becoming a Teacher B</td>
<td>6</td>
<td>6</td>
</tr>
</tbody>
</table>

(iii) Select the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
<th>NQF Credits</th>
<th>NQF Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC1274A</td>
<td>Natural Sciences I</td>
<td>24</td>
<td>6</td>
</tr>
<tr>
<td>EDUC1275A</td>
<td>Social Sciences I</td>
<td>24</td>
<td>6</td>
</tr>
</tbody>
</table>

And one of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
<th>NQF Credits</th>
<th>NQF Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC1276A</td>
<td>English I</td>
<td>24</td>
<td>6</td>
</tr>
<tr>
<td>EDUC1267A</td>
<td>isiZulu I</td>
<td>24</td>
<td>6</td>
</tr>
<tr>
<td>EDUC1268A</td>
<td>Sesotho I</td>
<td>24</td>
<td>6</td>
</tr>
</tbody>
</table>

(iii) Select the following courses subject to the following conditions:

a) For students who are unable to demonstrate existing Conversational Competence in Sesotho, isiZulu or South African Sign Language, choose one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
<th>NQF Credits</th>
<th>NQF Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC1265A</td>
<td>isiZulu (Conversational Competence)</td>
<td>12</td>
<td>5</td>
</tr>
<tr>
<td>EDUC1266A</td>
<td>Sesotho (Conversational Competence)</td>
<td>12</td>
<td>5</td>
</tr>
<tr>
<td>EDUC1272A</td>
<td>South African Sign Language (Conversational Competence)</td>
<td>12</td>
<td>5</td>
</tr>
</tbody>
</table>

b) For students who are unable to demonstrate existing competence in ICT

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
<th>NQF Credits</th>
<th>NQF Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC1260A</td>
<td>ICT Literacy</td>
<td>12</td>
<td>5</td>
</tr>
</tbody>
</table>

c) if a) and b) do not apply select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
<th>NQF Credits</th>
<th>NQF Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC1257A</td>
<td>Fun with Choir</td>
<td>12</td>
<td>5</td>
</tr>
<tr>
<td>EDUC1256A</td>
<td>Physical Activity and Sports in Schools</td>
<td>12</td>
<td>5</td>
</tr>
<tr>
<td>EDUC1259A</td>
<td>Financial Planning and Entrepreneurship</td>
<td>12</td>
<td>5</td>
</tr>
<tr>
<td>EDUC1316A</td>
<td>Learning in and through Art</td>
<td>12</td>
<td>5</td>
</tr>
<tr>
<td>EDUC1317A</td>
<td>Learning in and through Drama</td>
<td>12</td>
<td>5</td>
</tr>
</tbody>
</table>

iv) Select this course only by school instruction:
## 2020 Rules for the Faculty of Humanities - Education

<table>
<thead>
<tr>
<th>Programme Code: HFA01</th>
<th>NQF Exit Level: 7</th>
</tr>
</thead>
<tbody>
<tr>
<td>Plan Code: HPAIPHT20</td>
<td>NQF Credits: 480</td>
</tr>
</tbody>
</table>

### Course Code | Description | NQF Credits | NQF Level
---|---|---|---
EDUC1263A | Additional Teaching Experience I | 0 | 6

#### Year of Study II

i) 

EDUC2230A | Education II | 24 | 6
EDUC2238A | Teaching Experience II | 12 | 6
EDUC2231A | Mathematics for Primary School Teachers II | 12 | 6

If not selected in Year of Study I (ii) above:

EDUC1276A | English I | 24 | 6

If English I was selected in Year of Study I (ii) above then select one of:

EDUC1267A | isiZulu I | 24 | 6
EDUC1313A | isiZulu Additional Language I | 24 | 6
EDUC1268A | Sesotho I | 24 | 6
EDUC1314A | Sesotho Additional Language I | 24 | 6
EDUC1264A | South African Sign Language I | 24 | 6

ii) Select the course not completed under Year of Study I (i) above

EDUC1274A | Natural Sciences I | 24 | 6
EDUC1275A | Social Sciences I | 24 | 6

iii) Select the pedagogy courses that correspond to the subject of the courses selected in Year of Study I (ii) above:

EDUC2244A | Teaching Natural Sciences (Intermediate Phase) A | 6 | 6
EDUC2245A | Teaching Natural Sciences (Intermediate Phase) B | 6 | 7

Or

EDUC2242A | Teaching Social Sciences (Intermediate Phase) A | 6 | 6
EDUC2243A | Teaching Social Sciences (Intermediate Phase) B | 6 | 7

For students who have not yet completed the required number of elective options, select one of the following courses:

EDUC1257A | Fun with Choir | 12 | 5
EDUC1256A | Physical Activity and Sports in Schools | 12 | 5
EDUC1316A | Learning in and through Art | 12 | 5
EDUC1317A | Learning in and through Drama | 12 | 5

v) Select this course only by school instruction:

EDUC2239A | Additional Teaching Experience II | 0 | 6

#### Year of Study III

i) 

EDUC3117A | Education III | 24 | 7
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
<th>NQF Credits</th>
<th>NQF Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC3132A</td>
<td>Mathematics for Primary School Teachers III</td>
<td>24</td>
<td>7</td>

### 2.1.2.4 Progression Rules

**First Year of Study:**

72 credits (including 12 credits for EDUC1261A Teaching Experience 1A, EDUC1262A Teaching Experience 1B and 24 credits obtained from a teaching subject, EDUC1250A Mathematics for Primary School Teachers I or EDUC1251A Literacy for Primary School Teachers I).
First Year of Study (repeat):

120 credits (including 12 credits for EDUC1261A Teaching Experience 1A, EDUC1262A Teaching Experience 1B and 48 credits obtained from EDUC 1248A Education IA and EDUC1249A Education IB, EDUC1251A Literacy for Primary School Teachers I, EDUC1250A Mathematics for Primary School Teachers I or a subject specialisation).

Second Year of Study:

180 credits (including 24 credits for EDUC2238A Teaching Experience II and 24 credits obtained from a teaching subject, EDUC2231A Mathematics for Primary School Teacher II and/or a 24 credit language course).

Second Year of Study (repeat):

240 credits (including 24 credits for EDUC2238A Teaching Experience II and 48 credits obtained from EDUC2230A Education II, a teaching subject, EDUC2231A Mathematics for Primary School Teacher II and/or a 24 credit language course).

Third Year of Study:

300 credits (including 48 credits for EDUC3142A Teaching Experience IIIA, EDUC3143A Teaching Experience IIIB and 24 credits obtained from EDUC3132A Mathematics for Primary School Teachers III or EDUC3139A Teaching Home Language in the Intermediate Phase).

Third Year of Study (repeat):

360 credits (including 48 credits for EDUC3142A Teaching Experience IIIA, EDUC3143A Teaching Experience IIIB and 48 credits obtained from EDUC3117A Education III, EDUC3132A Mathematics for Primary School Teachers III or EDUC3139A Teaching Home Language in the Intermediate Phase).

Fourth Year of Study:

408 credits (including 72 credits for EDUC4232A Teaching Experience IVA, EDUC4233A Teaching Experience IVB and 24 credits obtained from EDUC4212A Education IV, EDUC4225A Mathematics or EDUC4272A Teaching Additional Languages for Primary School Teachers IV

2.1.2.5 Completion Rules

Students must complete the full curriculum as stipulated above in order to complete the qualification.

2.1.3 Bachelor of Education in Senior Phase and Further Education and Training Teaching

2.1.3.1 Admission Rules

a) Matriculation requirements:

The normal requirement for admission is matriculation with exemption. However, with permission of the Senate and in terms of Rule *G4.10.2, an applicant may be considered for admission provided that s/he has passed the Senior Certificate examination (including English) in the Higher Grade and has, in addition, demonstrated, in a selection process approved by the Senate, that s/he is suitable for admission.

b) National Senior Certificate and National Certificate (Vocational) Requirements:

A pass in English First Language with at least 5 at the NSC level or a pass in English First Additional Language with at least 5 at the NSC level. Teachers who are in possession of a recognised certificate or diploma in education may be admitted with a possibility of transfer of credits for cognate previous studies.
c) Admission into courses

Admission into courses is governed by the course corequisite and prerequisite rules under point d).

d) Prerequisite Courses

Except when permitted by the Senate, a student may not register for the courses in list A unless s/he has credit or exemption for the course in list B. See the course prerequisite tables for the curriculum in which you are enrolling.

Year of Study II

i)
- EDUC2230A  | Education II                                    | 24          | 6         |
- EDUC2238A  | Teaching Experience II                          | 12          | 6         |
- EDUC2266A  | Life Skills for Teachers                        | 12          | 6         |

ii) Select the level II courses of the courses selected in Year of Study I (ii) above:
- EDUC2263A  | Natural Sciences II                             | 24          | 6         |
- EDUC2264A  | Social Sciences II                              | 24          | 6         |
- EDUC2259A  | English II                                      | 24          | 6         |
- EDUC2260A  | isiZulu II                                      | 24          | 6         |
- EDUC2261A  | Sesotho II                                      | 24          | 6         |
- EDUC2258A  | Mathematics II                                  | 24          | 6         |
- EDUC2262A  | Technology II                                   | 24          | 6         |
- EDUC2265A  | Information Technology II                       | 24          | 6         |
- EDUC2269A  | Life Orientation II                             | 24          | 6         |

iii) Select a course in Senior Phase pedagogy A and B corresponding to one course taken in Year of Study II (ii) above:
- EDUC2302A  | Teaching Natural Sciences (Senior Phase) A      | 6           | 6         |
- EDUC2303A  | Teaching Natural Sciences (Senior Phase) B      | 6           | 7         |
- EDUC2248A  | Teaching Social Sciences (Senior Phase) A       | 6           | 6         |
- EDUC2249A  | Teaching Social Sciences (Senior Phase) B       | 6           | 7         |
- EDUC2252A  | Teaching English (Senior Phase) A               | 6           | 6         |
- EDUC2253A  | Teaching English (Senior Phase) B               | 6           | 7         |
- EDUC2256A  | Teaching isiZulu (Senior Phase) A              | 6           | 6         |
- EDUC2257A  | Teaching isiZulu (Senior Phase) B              | 6           | 7         |
- EDUC2267A  | Teaching Sesotho (Senior Phase) A              | 6           | 6         |
- EDUC2268A  | Teaching Sesotho (Senior Phase) B              | 6           | 7         |
- EDUC2254A  | Teaching Mathematics (Senior Phase) A          | 6           | 6         |
- EDUC2255A  | Teaching Mathematics (Senior Phase) B          | 6           | 7         |
### Programme Code: HFA02

#### Plan Code: HPASPFET20

2.1.3.4 Progression Rules

In order to progress to the succeeding year of study a student must have obtained the minimum number of credits as listed below:

First Year of Study:

72 credits (including 12 credits for EDUC1261A/EDUC1289A Teaching Experience IA, EDUC1262A/EDUC1290A Teaching Experience IB and 24 credits obtained from a teaching subject at first year level).

First Year of Study (repeat):

120 credits (including 12 credits for EDUC1261A/EDUC1289A Teaching Experience IA, EDUC1262A/EDUC1290A Teaching Experience IB and 48 credits obtained from EDUC1248A/EDUC1288A Education IA, EDUC1249A/EDUC1288A Education IB and subject specialisations at first year level).

Second Year of Study:

180 credits (including 24 credits for EDUC2238A/EDUC2274A Teaching Experience II and 24 credits obtained from a teaching subject at second year level).

Second Year of Study (repeat):

240 credits (including 24 credits for EDUC2238A/EDUC2274A Teaching Experience II and 48 credits obtained from EDUC2230A/EDUC2273A/EDUC2299A Education II and subject specialisations at second year level).

Third Year of Study:

300 credits (including 48 credits for EDUC3151A Teaching Experience IIIA, EDUC3168A Teaching Experience IIIB and 24 credits obtained from a teaching subject at third year level).

Third Year of Study (repeat):

360 credits (including 48 credits for EDUC3151A Teaching Experience IIIA, EDUC3168A Teaching Experience IIIB and 48 credits obtained from EDUC3167A Education III and subject specialisations at third year level).
Fourth Year of Study:

408 credits (including 72 credits for EDUC4261A Teaching Experience IVA and EDUC4238A Teaching Experience IVB and 24 credits obtained from EDUC4260A Education IVA and EDUC4237A Education IVB or a teaching subject at fourth year level).

2.1.3.5 Completion Rules

Students must complete the full curriculum as stipulated above in order to complete the qualification.

2.2 Supplementary Examinations

A student in any year of study who has failed to complete no more than three courses prescribed for that particular year of study, but who has obtained credit for all the courses prescribed for any preceding year of study, may be permitted by the Senate to present her/himself for a supplementary examination in one or more of courses s/he has failed, provided that s/he has obtained in such course or courses the minimum standard determined by the Senate for this purpose.

2.3 Exemption from Courses

The Senate may in exceptional circumstances exempt a student from a courses if s/he has obtained credit in a course at this or another university which in the opinion of the Senate is the same as or similar content.

2.4 Academic Progression

Except when permitted by the Senate, a student may not be admitted to:

a) The second year of study unless s/he has gained credit for at least seven courses (including the course in Teaching Experience) prescribed for the first year of study;

b) the third year of study unless s/he has gained credit for all the courses prescribed for the first year of study and at least seven courses (including the course in Teaching Experience) prescribed for the second year of study;

c) The final year of study unless s/he has gained credit in all the courses prescribed for the first three years of study.

2.5 Minimum requirements of study

The minimum requirements of study prescribed for students are set out below. A student who does not meet the minimum requirements of study may be refused permission by the Senate to renew her/his registration. If however, a student is permitted to renew her/his registration after having failed to satisfy the minimum requirements of study s/he may be required to satisfy such further conditions as the Senate may determine in her/his case.

2.6 Award with Distinction

2.6.1 For the unaligned curriculum:

a) Unless the Senate otherwise determines, a student must have completed all years of study for the degree of Bachelor of Education at this University and must have completed in the minimum period of study namely, four years full-time for that degree.

b) In the case of a student who has completed courses at another university or tertiary institution, the first and second year courses may be recognised for the purposes of obtaining the degree of Bachelor of Education.

c) The following criteria shall be applied to determine whether a student shall be awarded the degree with distinction:
i) A student must have at least obtained a first class pass (75% or above) in Teaching Experience IVA or Teaching Experience IVB;

ii) A student must have obtained at least a first class pass (75% or above) in third and fourth year courses to a total of 72 credits. This excludes any elective courses; and

iii) A student must have obtained at least an upper second class pass (70%-74%) in any other third and fourth year courses to a total of 24 credits. This excludes any elective courses.

2.6.2 For the aligned curriculum:

Unless the Senate otherwise determines, a candidate must have completed all years of study for the degree of Bachelor of Education at this University and must have completed in the minimum period of study namely, four years (full-time) for that degree.

The following criteria shall be applied to determine whether a candidate shall be awarded the degree with distinction:

a) A candidate must have obtained a first class pass (75% or above) in Teaching Experience IVA or Teaching Experience IVB.

b) A candidate must have obtained a first class pass (75% or above) in third and fourth year courses* to a total of 72 credits.

c) A candidate must have obtained an upper second class pass (70%-74%) in any other third and fourth year courses* to a total of 24 credits.

*Excluding credits obtained for elective endorsement or enrichment courses.

2.7 Additional requirements for the Degree

2.7.1 Teaching experience

2.7.1.1 For endorsement in a school phase or phases, a student must satisfactorily complete Teaching Experience in the selected phase or phases for a minimum duration as laid down by the Senate for that purpose.

2.7.1.2 A student who is repeating a year of study will be required to participate in additional teaching experience during the year of repeat.

2.7.2 Language requirement

A student’s competence to use, as a medium of instruction, English and, unless otherwise permitted by the Senate, at least one other official South African language or another language approved by the Senate shall be reflected as an endorsement on the degree certificate.

2.7.3 IT Competence

A student’s competence in Information Technology for education purposes shall be reflected as an endorsement on the degree certificate.

2.8 Endorsement on certificate

In terms of Rule *G16.2, the certificate will be endorsed to the effect that the student has qualified as a Foundation phase teacher, as Intermediate phase teacher or a Secondary phase and Further Education and Training teacher.

Note: The term “teacher”, as used in these Rules is interchangeable with the term “educator”.

2.9 **Declaration rules**

2.9.1 **Declaration at commencement of studies**

Prior to the commencement of the teaching practice in the first year of study a student will be required to subscribe to the following declaration from the code of conduct of the South African Council of Educators:

‘As a student of Education at the University of the Witwatersrand, Johannesburg, I do solemnly declare that:

I acknowledge the noble calling of the education profession to educate and train the learners of our country;

I acknowledge that the attitude, dedication, self-discipline, ideals, training and conduct of the teaching profession determines the quality of education in this country;

I acknowledge, and will uphold and promote basic human rights, as embodied in the Constitution of South Africa;

I commit myself therefore to do all within my power, in the exercising of my professional duties, to act in accordance with the ideals of my profession, as expressed in this Code and to act in a proper and becoming way such that my behaviour does not bring the teaching profession into disrepute.

2.9.2 **Declaration by graduate**

Prior to being admitted to the degree a student will be required to subscribe to the following declaration:

‘As a grad and in Education of the University of the Witwatersrand, Johannesburg, I do solemnly declare that:

I acknowledge the great responsibility I now assume for the education and well-being of all persons entrusted to my care;

I will strive to foster and protect the needs of learners, and to help them develop as individuals, and as members of their communities;

I will, through my example and my teaching, encourage learners to value knowledge and skills, to exercise sound judgement, and to develop humane values and attitudes;

I will seek to develop in learners independence of thought, feeling and action that does not infringe on the rights of others;

I will not permit consideration of gender, sexual orientation, race, nationality, religion, politics, social standing, or physical or mental ability to prejudice my dealings with any learner;

I promise never to insult the dignity, nor to harm nor abuse, any learner in my care, nor will I condone any such action instigated by others;

I will use with discretion and fidelity any information that I may obtain in the course of my duties concerning learners or their parents, guardians and families;

I will be loyal to my school and my colleagues, and I will contribute to the best of my ability to the full life of the institution I serve and I will, by accepting the rights and duties of an educator, do all in my power to uphold the honour and dignity of my profession.

</tbody>
</table>

Length of curriculum

The advanced diploma shall extend over one academic year of full-time study or two academic years of part-time study.

Completion Rules

Students must complete the full curriculum as stipulated below in order to complete the qualification.

2.3.1 Advanced Diploma in Technical and Vocational Teaching

2.3.1.1 Admission Rules

Admission as a student for the Advanced Diploma in Technical and Vocational Teaching is at the discretion of the Senate. An applicant must at least have:

a) An appropriate 360 credit diploma or bachelor’s degree, that is linked to teaching specialisations relevant to the TVET context;

b) A Senior Certificate with an endorsement or a School Leaving Certificate; and

c) A proficiency in English to the satisfaction of the Senate, with a minimum of 60% for English at Grade 12 or having passed the previous qualification through the medium of English.

2.3.2 Advanced Diploma in School Leadership and Management (Subject to SAQA registration)

2.3.2.1 Admission Rules

Admission is at the discretion of the Senate. The following are eligible for admission:

a) Applicants must have at least three years’ experience in a school leadership position and have been appointed at a post at level 2 or higher; and

b) One of the following:
   i) A four-year Bachelor of Education degree or a former four-year Higher Diploma in Education.
   ii) A general 360 credit degree or diploma with either a Postgraduate Certificate in Education or a one-year Higher Diploma in Education (Postgraduate).
   iii) An Advanced Certificate in Education with a three-year diploma or a three-year certificate in education.

</tr>
</tbody>
</table>

3.1.1 Admission Rules

Admission shall be restricted to applicants who have satisfied all the requirements for a bachelor’s degree at this or another university, which includes credits in a school teaching subject at General Education and Training (Senior Phase Grades 7-9) level (GET) and Further Education and Training Phase (Grades 10 – 12) level (FET). The PGCE may not be taken by B Ed graduates.

3.1.2 Restrictions on admission

a) Unless otherwise permitted by the Senate, a candidate shall not be admitted as a student for the qualification unless the candidate has obtained credit in her/his qualification for the following courses:

i) At least one approved FET teaching subject at NQF level 7 with courses extending over one year at each of the levels 1000, 2000 and 3000. Exception: Mathematics, Physics and Chemistry – at levels 1000 and 2000, at NQF level 6.

ii) A level 2000 course or two level 1000 courses extending over at least one year in an approved senior phase teaching subject at NQF level 6.

b) The Senate may admit as a candidate a person who has not satisfied all the requirements for a bachelor’s degree but in such a case, the Postgraduate Certificate in Education shall not be awarded until the requirements for the bachelor’s degree have been satisfied.

c) Unless otherwise provided for in the rules, an applicant who has been admitted as a candidate for the certificate under paragraph (b) of this rule shall not qualify for the PGCE unless s/he has obtained credit at level 3000 in the approved FET teaching subject (at level 2000 in the case of Mathematics, Chemistry and Physics), even if all the other requirements for the award of the certificate have been satisfied.

d) A candidate entering the PGCE and selecting multidisciplinary subjects must have sufficient disciplinary learning in appropriate academic fields for their teaching specialisations. If they did not cover sufficient disciplinary subject matter in their degree, they will be required to study and a complete additional subject-oriented course prior to or concurrently with their PGCE before the qualification is awarded.

e) A candidate shall be required to satisfy the Senate as to competence in the knowledge base of the FET and GET teaching subject and may be required by the Senate to complete a subject competency test. Failure to be assessed as competent in the subject knowledge will bar the candidate from commencing Teaching Experience until such time as the candidate can demonstrate that s/he is competent in the subject knowledge.

f) A candidate’s competence to use English, as a medium of instruction, and another language approved by the Senate for classroom communication shall be reflected as an endorsement on the certificate.
g) IT Competence: A candidate’s competence in Information Technology for educational purposes shall be reflected as an endorsement on the degree certificate.

h) Approved university subjects, Further Education and Training (FET) and Senior Phase subject methodologies and learning areas. The University offers PGCE studies in particular FET and Senior Phase teaching subjects. Applicants wishing to take FET and Senior Phase teaching subjects not listed in the tables below will need to apply to other institutions, as approved by the Senate. Applicants will be allowed certain combinations of FET and Senior Phase courses. Certain FET and senior Phase courses are complementary and must be taken together:

i) FET: Accounting or Business Studies or Economics with Senior Phase: Economic and Management Sciences

ii) FET: Dramatic Arts or Visual Arts or Music with Senior Phase: Arts and Culture

iii) FET: English with Senior Phase languages (English)

iv) FET: Mathematics with Senior Phase: Mathematics

v) FET: Life Orientation with Senior Phase: Life Orientation

vi) FET: Physical Sciences with Senior Phase: Natural Sciences

vii) FET: History with Senior Phase Social Sciences

viii) FET: Geography with Senior Phase: Natural Sciences or Social Sciences

ix) FET: Life Sciences with Senior Phase: Natural Sciences or Mathematics

x) FET: English or another FET subject with Senior Phase languages (Sesotho, isiZulu or SA Sign Language

Year of Study II

i)
EDUC5243A  Theory of Education B  20  7

ii) Select one course in subject methodology in the associated FET teaching subject indicated in the list below:
EDUC5244A  Accounting  24  7
EDUC5245A  Business Studies  24  7
EDUC5246A  Dramatic Arts  24  7
EDUC5247A  Economics  24  7
EDUC5248A  English (FET)  24  7
EDUC5249A  Geography  24  7
EDUC5250A  History  24  7
EDUC5251A  Life Sciences  24  7
EDUC5252A  Life Orientation (FET)  24  7
EDUC5253A  Mathematics (FET)  24  7
EDUC5254A  Music  24  7
EDUC5255A  Physical Sciences  24  7
EDUC5256A  Visual Arts  24  7
EDUC5257A  isiZulu (FET)  24  7
EDUC5258A  Sesotho (FET)  24  7
EDUC5274A  Information Technology  24  7

iii) Select one course in teaching experience in the associated FET subject selected in ii) subject methodology, from the list indicated below:
EDUC5259A  Accounting Teaching Experience  16  7
EDUC5260A  Business Studies Teaching Experience  16  7
EDUC5261A  Dramatic Arts  Teaching Experience  16  7
EDUC5262A  Economics Teaching Experience  16  7
EDUC5263A  English Teaching Experience  16  7
iv) If not taken in the first year of study, select one course from the list below, unless the candidate applies for exemption and provides documentary proof of existing competence in an indigenous African language (excluding Afrikaans) or South African Sign Language and is granted exemption from the course or parts thereof.

- EDUC5240A isiZulu (Conversational Competence)
- EDUC5241A Sesotho (Conversational Competence)
- EDUC5242A South African Sign Language (Conversational Competence)

3.1.4.4 Progression Rules (PT)

In order to progress to the succeeding year of study a student must have obtained the minimum number of credits as listed below:

First Year of Study:

30 credits obtained in courses, excluding credits obtained for ICT literacy and the language taken at conversational competence level.

First Year of Study (repeat):

60 credits obtained in courses, excluding credits obtained for ICT literacy and the language taken at conversational competence level.

3.1.5 Credit rules

Exemption

The Senate may in exceptional circumstances exempt a candidate from no more than two courses listed in the curriculum above if s/he has obtained credit in a course at this or another university which in the opinion of the Senate is the same as or similar to one of these courses.

3.1.6 Repeating Courses

a) Unless otherwise permitted by the Senate, a candidate will not be re-admitted to a course for which s/he has twice registered and failed to complete.
b) A candidate who has obtained credit in course/s but who has failed one or more courses in Teaching Experience will be required to appeal to the Faculty of Humanities for readmission to the PGCE.

3.1.7 Completion Rules

Students must complete the full curriculum as stipulated above in order to complete the qualification.

3.1.8 Conditions for Award of certificate

A candidate who has obtained credit in the prescribed courses and has attained a pass in Teaching Experience, and has satisfied such other requirements as may be stipulated in the curriculum shall be qualified for the certificate.

3.1.9 Additional requirements for the Award

Language Requirement:

A student’s competence to use, as a medium of instruction, English, and unless otherwise permitted by the Senate, at least one other official South African language or another language approved by the Senate shall be reflected as an endorsement on the certificate.

IT Competence

A student’s competence in Information Technology, for education purposes shall be reflected as an endorsement on the qualification certificate.

3.2 Postgraduate Diplomas

</tr>
</tbody>
</table>

Length of curriculum

The diploma extends over not less than one year of full-time study or two years of part-time study.

3.2.1 Postgraduate Diploma in Education

3.2.1.1 Admission

Any of the following may be admitted by the Senate as a candidate for the diploma, provided that s/he has attained in the qualifying examinations upon which her/his candidature is based, such standard as the Senate may require for the purpose, or that s/he submits evidence of postgraduate work of a standard considered satisfactory by the Senate.

a) An applicant holding a Bachelor of Education with Honours or a Bachelor of Education Degree under rules pertaining before 2001, of the University;

b) A graduate of this or another university who in the opinion of the Senate holds a qualification equivalent to the Degree of Bachelor of Education with Honours of this University;
c) An applicant who has been accepted by virtue of having completed at another university or institution such examinations as are, in the opinion of the Senate, equivalent to, or higher than, the examinations prescribed for the Bachelor of Education with Honours or a Bachelor of Education Degree under rules pertaining before 2001, of the University;

d) An applicant other than a graduate who has in any other manner satisfied the Senate that s/he

e) An applicant who holds another Degree of this or any other university, the shortest curriculum for which extends over at least four years of full-time study.

f) In the field of Deaf Education an applicant who holds a Bachelor of Honours degree of this or another university within the field of Deaf Education and Deaf Studies, or equivalent as approved by the relevant university Senate, the shortest curriculum for which extends over at least four years of full-time study and has previous or concurrent relevant teaching experience within a Deaf Education context.

3.4.1 Master of Education by Course Work and Research Report

3.4.1.1 Admission Rules

Any of the following may be admitted as a candidate under such conditions as the Senate may determine if the Senate is satisfied that s/he is qualified to undertake the proposed line of advanced study or research or both, as the case may be:

a) A Bachelor of Education with Honours in terms of the rules of the University or a Bachelor of Education Degree under rules pertaining before 2002.

b) A graduate of this or another university who, in the opinion of the Senate, holds a qualification equivalent to the Bachelor of Education with Honours.

c) An applicant who has been accepted by virtue of having completed at any other university or institution such examinations as are, in the opinion of the Senate, equivalent to, or higher than, the examinations prescribed for a the Bachelor of Education Honours in terms of the rules of the University.

d) An applicant who holds another qualification of this or another university, the shortest curriculum for which extends over at least four years of full-time study.

e) In a case considered by the Senate to be exceptional, an applicant who has held for a period of at least ten years (or such shorter period as the Senate may determine) a qualification of this or another university, the curriculum for which extends over at least three years of full-time study, and who provides evidence to the satisfaction of the Senate of research competence in a specific field of education.

f) An applicant who holds a degree of this or another university and the Higher Diploma for Educators of Adults of the University or an equivalent diploma of another university, who, in the opinion of the Senate, has had at least three years’ relevant experience in the field of adult education, and who provides evidence to the satisfaction of the Senate of research competence.

g) An applicant who wishes to specialise in the field of Educational Psychology (MEd) (Ed Psych) if s/he holds an Honours degree of this or another university in Psychology, or an equivalent qualification: provided that a student who, on completion of a qualification in Educational Psychology, is neither registered nor qualified for registration as an Educational Psychologist by the Health Professions Council of South Africa (HPCSA) shall be ineligible for admission.

3.4.1.2 Curricula

Length of curriculum

The programme extends over a period of not less than one academic year of full-time study or two academic years of part-time study except in the field of Educational Psychology in which case the programme extends over a period of two years full-time study. In addition, when resources permit, the coursework may be offered on a part-time basis in which case the programme would extend over a period of three years of part-time study.

Curriculum

1) Subject to the approval of the Senate, an applicant admitted as a candidate may elect to proceed on one of the following curricula: provided that an applicant admitted as a candidate may elect to proceed on the specified curriculum only in a case considered by the Senate to be exceptional: provided further that a candidate who wishes to specialise in the field of Educational Psychology shall proceed on the curriculum prescribed in terms hereof:

a) The prosecution of advanced study and research on a topic approved by the Senate and the submission of a dissertation based on that research.
b) The completion to the satisfaction of the Senate of such course as may be determined by the Senate in her/his case and the submission of a report on a project approved by the Senate.

c) The completion to the satisfaction of the Senate of a specified course/s as determined by the Senate from time to time.

2) A candidate who elects to proceed in terms of (1)(a) hereof shall:

a) conduct advanced study and research under the guidance of a supervisor appointed by the Senate; provided that the Senate may dispense with the requirement as to supervision in the case of a candidate who holds an appointment as a member of the full-time academic staff of the University; and

b) at the close of the period of advanced study and on completion of the research, submit for the approval of the Senate after consultation with her/his supervisor, a dissertation on a subject approved by the Senate, such dissertation to constitute both an application of the methods of research and a contribution to the advancement of knowledge in the subject chosen.

3) A candidate who elects to proceed in terms of (1) (b) hereof:

a) shall attend and complete to the satisfaction of the Senate either Research Design (EDUC7030A);

b) or shall complete a combination of three courses approved by the Senate from the following list:

Following the completion of the four courses listed in the table above and a Research Report (PSYC7051A), a candidate shall undertake a 12-month internship (PSYC7050A) in accordance with a programme which has been approved by the Senate and accredited by the HPCSA.

3.4.3 Master of Education by Research

3.4.3.1 Admission

Any of the following may be admitted as a *candidate* under such conditions as the Senate may determine if the Senate is satisfied that s/he is qualified to undertake the proposed line of advanced study or research or both, as the case may be:

a) A Bachelor of Education with Honours in terms of the rules of the University.

b) A graduate of this or another university who, in the opinion of the Senate, holds a *qualification* equivalent to the Bachelor of Education with Honours.

c) An *applicant* who has been accepted by virtue of having completed at *any other university or institution* such *examinations* as are, in the opinion of the Senate, equivalent to, or higher than, the *examinations* prescribed for a the Bachelor of Education in terms of the rules of the *University*.

d) An *applicant* who holds another *qualification* of this or another *university*, the shortest *curriculum* for which extends over at least four years of full-time study.

e) In a case considered by the *Senate* to be exceptional, an *applicant* who has held for a period of at least ten years (or such shorter period as the Senate may determine) a *qualification* of this or another university, the *curriculum* for which extends over at least three years of full-time study, and who provides evidence to the satisfaction of the Senate of research competence in a specific field of education.

f) An *applicant* who holds a degree of this or *another university* and the Higher Diploma for Educators of Adults of the University or an equivalent diploma of *another university*, who, in the opinion of the Senate, has had at least three years’ relevant experience in the field of adult education, and who provides evidence to the satisfaction of the Senate of research competence.
g) An applicant who wishes to specialise in the field of Educational Psychology (MEd) (Ed Psych) if s/he holds an Honours degree of this or another university in Psychology, or an equivalent qualification: provided that a candidate who, on completion of a qualification in Educational Psychology, is neither registered nor qualified for registration as an Educational Psychologist by the HPCSA shall be ineligible for admission.

### 3.4.3.2 Curricula

### 3.4.4 Credit Rules

The Senate may exempt a candidate from attendance at an examination in a course for the Master of Education degree and grant him/her credit therein if s/he has passed the examination in:

a) An equivalent course offered for another qualification in the University; or

b) An equivalent course offered in another university or institution recognised for this purpose by the Senate; provided such exemption or exemptions does not or do not exceed one-third of the total number of courses prescribed for the qualification and the Research Report is completed at this University.

### 3.4.5 Re-examination

A candidate for the degree who fails to satisfy the Senate with respect to a dissertation, a Research Report or a course may re-present himself/herself as a candidate only with the special permission of the Senate and under such conditions and after such period as the Senate may determine.

### 3.4.6 Special Endorsement

In the case of a candidate who has qualified for the degree in the specialised field of Educational Psychology, the certificate shall bear an appropriate statement to that effect.

### 3.4.7 Conversion Rules

#### 3.4.7.1 Conversion of candidature from the Degree of Doctor to Degree of Master

a) An applicant who has been admitted to candidature for the Doctor of Philosophy may, at her/his request and on the recommendation of the Senate, be permitted to proceed instead as a candidate for the Master of Education.
b) A candidate who is permitted to change her/his candidature in terms of paragraph (a) hereof shall be deemed to have been admitted to candidature for the Masters Degree at the date of her/his admission to candidature for the Doctor of Philosophy or at such later date as the Senate may determine in her/his case, but shall be subject, in all other respects, to the rules for the Master of Education.

3.4.8 Progression Rules

a) Master of Education

i) Candidates must obtain at least 50% for the research report and at least 50% for each course.

b) For the field of Educational Psychology

Final assessment

For the award of the degree, candidates must have:

i) passed all the required courses;

ii) achieved in the internship and other practical work required for the degree, a standard deemed satisfactory by the Senate and the Health Professions Council of South Africa; and

iii) been passed in their research report, which will constitute 50% of the requirements for the degree.

3.4.9 Completion Rules

During the examination process, extracts of examiners’ reports, without disclosure of the examiners’ names, may be made available to a candidate to assist her/him in the revision of her/his work. The discretion as to how much may be disclosed to a candidate lies with the Chairperson of the Graduate Studies Committee.

The following applies for a Master of Arts by Research to be awarded:

a) Where both examiners recommend that the degree is awarded.

b) Where both examiners recommend that the degree is awarded “WITH DISTINCTION”.

c) Only the correction of minor errors is required, e.g. typographical mistakes, omissions from the list of references or the rewriting of certain sentences.

d) In all other cases, the Chair of the Graduate Studies Committee shall recommend to the executive members of the Graduate Studies Committee that the award of the degree be considered. In the case of unfavourable reports, the Chair of the Graduate Studies Committee shall set in motion the appointment of an ad hoc committee according to the procedures laid down in the Senate Standing Orders on Higher Degrees.

Once the final submission has been made, the candidate is entitled to know the names of her/his examiners. Examiners should be advised of this at the point at which they are approached to examine the thesis.

Once the examination process has been concluded, the contents of examiners’ reports are made available to candidates through their supervisors, in accordance with the Senate Standing Orders on Higher Degrees.

The curriculum for the degree shall extend over no less than two academic years of full-time study and over no longer than three years for candidates that specialise in the field of Educational Psychology (MEd) (Ed Psych).
3.4.10 Award with Distinction

a) Master of Education by Research
   
i) In straightforward cases where the examiners of a dissertation for the degree of Master unanimously recommend the award of the degree with distinction, the Chair of the Graduate Studies Committee may approve the award of the degree with distinction.
   
ii) In other cases, where only one examiner recommends the award of the degree with distinction, the Chair of the Graduate Studies Committee may solicit comment from the examiner/s and/or convene an ad hoc committee. She/he shall then forward a recommendation to the executive members of the Graduate Studies Committee for the award of the degree with or without distinction.

b) Master of Education by Coursework and Research Report
   
i) The degree may be awarded with distinction if a candidate obtains at least 75% for both the research report and the aggregate of the coursework.
   
ii) Where a candidate obtained a mark of 75% or higher for either the coursework component or the research report, the degree will not be awarded with distinction, but may be awarded with a first class pass in the appropriate component.

</table>

3.5.1 Admission Rules

3.5.1.1 Doctor of Philosophy (HDA01)

Any of the following may be admitted as a candidate, provided that the Senate is satisfied that s/he is qualified to undertake the proposed line of research:

a) A Master of Education of the University.

b) By special permission of the Senate, a Bachelor of Education with Honours with distinction of the University.

c) By special permission of the Senate, a Bachelor of Education who also holds a Bachelor’s degree with Honours by distinction of the University.

d) A Bachelor of Education with Honours who holds a Masters degree in Arts or Commerce or Science of the University.

e) An applicant who holds the degree of Master in any faculty of the University and has had at least four years’ experience in education.

f) A graduate of another university who, in the opinion of the Senate, holds a qualification equivalent to the degree mentioned in (a), (b), (c), (d) or (e) hereof and satisfies the Senate in any further respect mentioned therein.

g) An applicant who has been accepted by virtue of having completed at another university or institution such examinations as are, in the opinion of the Senate, equivalent to, or higher than, the examinations prescribed for the Master of Education of the University.

h) An applicant other than a graduate who has in any other manner satisfied the Senate that s/he is so qualified.
3.5.1.2 Doctor of Education (HDA00)

Any one of the following may be admitted by the Senate as a candidate:

a) An applicant who has held for at least five years a degree of Bachelor of the University for which the prescribed period of full-time study is not less than four years.

b) An applicant who has held for at least five years a degree of Bachelor with Honours of the University.

c) An applicant who has held for at least five years the qualification of Bachelor of Education with Honours of this University.

d) An applicant who holds the qualification of Master of the University and who has held one of the degree/s mentioned in paragraphs (a), (b), and (c) hereof for at least four years.

e) A Doctor of Philosophy of the University of at least two years’ standing.

f) A graduate of another university who holds a degree of Master and who has held the qualification by virtue of which such admission has been granted for at least four years.

g) A graduate of another university who holds the degree of Doctor of Philosophy and who has held the degree by virtue of which such admission has been granted for a period of at least two years.

h) An applicant other than a graduate who has in any other manner satisfied the Senate that s/he is so qualified.

3.5.2 Conditions for the Degree of:

3.5.2.1 Doctor of Philosophy

a) The Senate may dispense with the requirement as to supervision in the case of a candidate who holds an appointment as a member of the full-time academic staff of the University.

b) The Senate may permit a candidate to conduct her/his research outside the University for such portions of the prescribed period and in such manner as the Senate may determine.

A candidate who is being permitted to conduct her/his research outside the University must consult her/his supervisor from time to time in accordance with any arrangement which the latter may make.

c) An applicant shall be deemed to have commenced her/his candidature for the Doctor of Philosophy at the date of her/his admission to candidature for the Doctor of Philosophy, or at such later date as the Senate may determine in her/his case.

d) The Senate may require any candidate to attend any course of instruction that it considers to be cognate to the subject of her/his research.

e) A candidate planning to do research with human subjects must submit her/his research design to the Ethics Committee for approval.

3.5.2.2 Doctor of Education

a) A candidate for the Doctor of Education shall present for approval of the Senate original published work; or original work accepted for publication, in a field approved by the Senate which shall constitute a distinguished contribution to the advancement of knowledge in that field.

b) A candidate shall give at least six months’ notice in writing to the Registrar of her/his intention to present herself/himself as a candidate, submitting at the same time the title and scope of the proposed work.
3.5.3 Curricula

3.5.3.1 Length of curriculum for Doctor of Philosophy

A candidate must conduct full-time research in the University for a period of not less than two years under the guidance of a supervisor appointed by the Senate. However, in a case considered by it to be appropriate, the Senate may permit a candidate to conduct the whole (or part) of the research on a part-time basis in which event the curriculum shall extend over at least three years of academic study unless the Senate considers that it would be appropriate to reduce this period because the candidate prior to the date of her/his admission has been engaged in research work cognate to the subject of the thesis.

3.5.3.2 Curriculum

**Curriculum for Doctor of Philosophy and Doctor of Education**

3.5.4 Completion Rules

Where all the examiners recommend that the degree is awarded

a) Only the correction of minor errors is required, e.g. typographical mistakes, omissions from the list of references or the rewriting of certain sentences.

b) In all other cases, the Chair of the Graduate Studies Committee shall recommend to the executive members of the Graduate Studies Committee that the award of the degree be considered.

c) In the case of unfavourable reports, the Chair of the Graduate Studies Committee shall set in motion the appointment of an ad hoc committee according to the procedures laid down in the Senate Standing Orders on Higher Degrees.

d) Availability of examiners’ reports to candidates

i) During the examination process, extracts of examiners’ reports, without disclosure of the examiners’ names, may be made available to a candidate to assist him/her in the revision of her/his work. The discretion as to how much may be disclosed to a candidate lies with the Chairperson of the Graduate Studies Committee.

ii) Once the final submission has been made, the candidate is entitled to know the names of her/his examiners. Examiners should be advised of this at the point at which they are approached to examine the thesis.

iii) Once the examination process has been concluded, the contents of examiners’ reports are made available to candidates through their supervisors; in accordance with the Senate Standing Orders on Higher Degrees. External examiners are advised that their names and the content of their reports are made available to candidates.
3.5.5 Award with Distinction

There is no provision for the award of the degree of Doctor of Philosophy with distinction.
OUTCOMES FOR THE FACULTY OF HUMANITIES - EDUCATION

The University aspires for its students to achieve the following outcomes upon qualifying. The outcomes and assessment criteria listed are those, for each qualification of the University, as agreed by the Senate.

4.1 Degrees of Bachelor

4.1.1 Bachelor of Education in Foundation Phase Teaching

<table>
<thead>
<tr>
<th>Qualification Title</th>
<th>Bachelor of Education in Foundation Phase Teaching</th>

<td>4 years full time</td>
</tr>
<tr>
<td>NQF Exit Level</td>
<td>Level 7</td>
</tr>
<tr>
<td>NQF Credits</td>
<td>Total minimum 480</td>
</tr>
</tbody>
</table>

Exit Level Outcomes

The qualified learner should be able to:

1. demonstrate sound subject knowledge;
2. show that they know how to teach their subject(s) and how to select, determine the sequence and pace of content in accordance with both subject and learner needs;
3. demonstrate that they understand how learners learn, and be able to tailor teaching according to individual needs;
4. communicate effectively in general, as well as in relation to their subject(s), in order to mediate learning;
5. will have developed literacy, numeracy and Information Technology (IT) skills;
6. be able to use available resources to plan and design suitable learning programmes;
7. show an understanding of diversity in the South African context in order to teach in a manner that includes all learners;
8. manage classrooms effectively across diverse contexts in order to ensure a conducive learning environment;
9. assess learners in reliable and varied ways, as well as being able to use the results of assessment to improve teaching and learning;
10. demonstrate an understanding of teacher professionalism and display appropriate professional values, attitudes and behaviours;
11. reflect critically on their own practice, in theoretically informed ways in order to constantly improve and adapt to evolving circumstances.
4.1.2 Bachelor of Education in Intermediate Phase Teaching

**Qualification Title**  
Bachelor of Education in Intermediate Phase Teaching

**Qualification Abbreviation**  
BEd(Intermediate Phase Teaching)

**Minimum Period of Study**  
4 years full time

**NQF Exit Level**  
Level 7

**NQF Credits**  
Total minimum 480

**Exit Level Outcomes**

The qualified learner should be able to:

1. demonstrate sound subject knowledge;
2. show that they know how to teach their subject(s) and how to select, determine the sequence and pace of content in accordance with both subject and learner needs;
3. demonstrate that they understand how learners learn, and be able to tailor teaching according to individual needs;
4. communicate effectively in general, as well as in relation to their subject(s), in order to mediate learning;
5. will have developed literacy, numeracy and Information Technology (IT) skills;
6. be able to use available resources to plan and design suitable learning programmes;
7. show an understanding of diversity in the South African context in order to teach in a manner that includes all learners;
8. manage classrooms effectively across diverse contexts in order to ensure a conducive learning environment;
9. assess learners in reliable and varied ways, as well as being able to use the results of assessment to improve teaching and learning;
10. demonstrate an understanding of teacher professionalism and display appropriate professional values, attitudes and behaviours;
11. reflect critically on their own practice, in theoretically informed ways in order to constantly improve and adapt to evolving circumstances.

4.1.3 Bachelor of Education in Senior Phase and Further Education and Training

**Qualification Title**  
Bachelor of Education in Senior Phase and Further Education and Training

**Qualification Abbreviation**  
BEd(Senior Phase and Further Education and Training)

**Minimum Period of Study**  
4 years full time

**NQF Exit Level**  
Level 7

**NQF Credits**  
Total minimum 480

**Exit Level Outcomes**

The qualified learner should be able to:

1. demonstrate sound subject knowledge;
2. show that they know how to teach their subject(s) and how to select, determine the sequence and pace of content in accordance with both subject and learner needs;

3. demonstrate that they understand how learners learn, and be able to tailor teaching according to individual needs;

4. communicate effectively in general, as well as in relation to their subject(s), in order to mediate learning;

5. will have developed literacy, numeracy and Information Technology (IT) skills;

6. be able to use available resources to plan and design suitable learning programmes;

7. show an understanding of diversity in the South African context in order to teach in a manner that includes all learners;

8. manage classrooms effectively across diverse contexts in order to ensure a conducive learning environment;

9. assess learners in reliable and varied ways, as well as being able to use the results of assessment to improve teaching and learning;

10. demonstrate an understanding of teacher professionalism and display appropriate professional values, attitudes and behaviours;

11. reflect critically on their own practice, in theoretically informed ways in order to constantly improve and adapt to evolving circumstances.

4.2 Degrees of Bachelor with Honours

4.2.1 Bachelor of Education with Honours

<table>
<thead>
<tr>
<th>Qualification Title</th>
<th>Bachelor of Education with Honours</th>

<td>1 year full time</td>
</tr>
<tr>
<td>NQF Exit Level</td>
<td>Level 8</td>
</tr>
<tr>
<td>NQF Credits</td>
<td>Total minimum 120</td>
</tr>
</tbody>
</table>

Exit Level Outcomes

The qualified learner will:

1. continue to deepen and advance their knowledge of theories, principles, content, values, skills and ways of thinking in their subject, learning area, phase- and/or role-specialism, in ways that promote learning with due cognisance of the level and context of different learners;

2. change stereotypical ways of understanding educational issues;

3. engage in and contribute to reflective, critical debate on research, policy and other matters of local, provincial or national concern in education;

4. use theory and research tools to think about and solve problems related to school or workplace practice within the broader educational community;

5. deepen their capacity for playing a leadership role in the activities of an extended professionalism, both in the workplace and within the broader educational community;

6. contribute to building a more equitable and effective education system;

7. speak, read and write critically where appropriate;
8. communicate effectively and reasonably in visual, oral and written modes using technology where appropriate;

9. design, execute and report on a small scale research project;

10. apply knowledge to educational settings in creative and responsible ways.

### 4.3 Degrees of Master

#### 4.3.1 Master of Education

<table>
<thead>
<tr>
<th>Qualification Title</th>
<th>Master of Education</th>
</tr>
</thead>
<tbody>
<tr>
<td>Qualification Abbreviation</td>
<td>MEd</td>
</tr>
<tr>
<td>Minimum Period of Study</td>
<td>1 year full time or 2 years part time</td>
</tr>
<tr>
<td>NQF Exit Level</td>
<td>Level 9</td>
</tr>
<tr>
<td>NQF Credits</td>
<td>Total minimum 180</td>
</tr>
</tbody>
</table>

**Exit Level Outcomes**

The qualifying learner is able to:

1. design and write a research proposal, carry out a research report or dissertation using appropriate research techniques, and present a clearly written report on the project outcome;

2. identify major issues and debates from the literature in the field or sub-field, and argue for and against a position;

3. assess and comment critically on proposed research plans and designs, reported research results, policy initiatives or implementation strategies;

4. consider and discuss the implications of various approaches to facilitating and managing learning;

5. develop an understanding of knowledge, theory and principle in the field or sub-field;

6. facilitate discussion and learning amongst actors in Education, Training and Development (ETD) practice;

7. use information technology and other resources responsibly to select and access a range of resources relevant to an enquiry;

8. demonstrate an understanding that ETD concepts, theories, principles and practices do not exist in isolation, and are best understood in relation to one another, and in a wider context;

9. apply critically and creatively knowledge reported in local and international literature to a selected area of enquiry and related practice;

10. become a member of a community of practice by working collaboratively.
## 4.4 Doctoral Degrees

### 4.4.1 Doctor of Philosophy

<table>
<thead>
<tr>
<th>Qualification Title</th>
<th>Doctor of Philosophy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Qualification Abbreviation</td>
<td>PhD</td>
</tr>
<tr>
<td>Minimum Period of Study</td>
<td>2 years full time or 4 years part time</td>
</tr>
<tr>
<td>NQF Exit Level</td>
<td>Level 10</td>
</tr>
<tr>
<td>NQF Credits</td>
<td>Total minimum 360</td>
</tr>
</tbody>
</table>

**Exit Level Outcomes**

1. The qualifying learner is capable of independent and original research;
2. The qualifying learner possesses highly specialised, authoritative knowledge and is competent to apply that knowledge to the solution of problems;
3. The qualifying learner is self-directed and self-critical.

## 4.5 Senior Doctoral Degrees

### 4.5.1 Doctor of Education

<table>
<thead>
<tr>
<th>Qualification Title</th>
<th>Doctor of Education</th>
</tr>
</thead>
<tbody>
<tr>
<td>Qualification Abbreviation</td>
<td>DEd</td>

<tr>
<td>NQF Credits</td>
<td>Total minimum 120</td>
</tr>
</tbody>
</table>

**Exit Level Outcomes**

1. Qualifying students must show that they know how to teach their subject(s) and how to select, determine the sequence and pace of content in accordance with both subject and learner needs.
2. Qualifying students must demonstrate that they understand how learners learn, and be able to tailor teaching according to individual needs.

3. Qualifying students will communicate effectively in general, as well as in relation to their subject(s), in order to mediate learning.

4. Qualifying learners will have developed literacy, numeracy and Information Technology (IT) skills.

5. Qualifying students are able to use available resources to plan and design suitable learning programmes.

6. Qualifying students show an understanding of diversity in the South African context in order to teach in a manner that includes all learners.

7. Qualifying students must be able to manage classrooms effectively across diverse contexts in order to ensure a conducive learning environment.

8. Qualifying students must be able to assess learners in reliable and varied ways, as well as being able to use the results of assessment to improve teaching and learning.

9. Qualifying students must demonstrate an understanding of teacher professionalism and display appropriate professional values, attitudes and behaviours.

10. Qualifying students must be able to reflect critically on their own practice, in theoretically informed ways in order to constantly improve and adapt to evolving circumstances.

### 4.6.2 Postgraduate Diploma

**Qualification Title**  
Postgraduate Diploma in Education

**Qualification Abbreviation**  
PDE

**Minimum Period of Study**  
1 year full time or 2 years part time

**NQF Exit Level**  
Level 8

**NQF Credits**  
Total minimum 120

**Exit Level Outcomes**

Qualified learners will:

1. identify major issues and debates from the literature in the field or sub-field, and argue for and against a position;

2. assess and comment critically on policy initiatives or implementation strategies;

3. consider and discuss the implications of various approaches to facilitating and managing learning;

4. develop a rich understanding of knowledge, theory and principle in the field or sub field;

5. facilitate discussion and learning amongst actors in ETD practice;

6. use information technology and other sources responsibly to select and access a range of resources relevant to an enquiry;

7. demonstrate an understanding that ETD concepts, theories, principles and practices do not exist in isolation, and are best understood in relation to one another, and in a wider context;

8. apply critically and creatively knowledge reported in local and international literature to a selected area of enquiry and related practice;

9. become a member of a community of practice by facilitating working collaboratively.
### Course Code: EDUC1248A and EDUC1249A

**Course Description: Education IA and Education IB**

<table>
<thead>
<tr>
<th>NQF credits: 6/18</th>
<th>NQF Level: 5/6</th>
</tr>
</thead>
</table>

This course introduces the central contributions of psychology and sociology to the academic study of education, paying particular attention to implications for teaching and learning and understanding contemporary issues in education. It explores what it means to educate, and considers the aims, challenges, and conditions of possibility for education in contemporary South African society from a psychological and sociological perspective.

### Course Code: EDUC1288A

**Course Description: Education I: Psychology in Education (part-time)**

<table>
<thead>
<tr>
<th>NQF Credits: 16</th>
<th>NQF Level: 6</th>
</tr>
</thead>
</table>

This course introduces the central contributions of psychology to the academic study of education, paying particular attention to implications for teaching and learning and understanding contemporary issues in education. The syllabus explores what it means to educate, and considers aims, challenges, and conditions of possibility for educating in contemporary South African society from a psychological perspective.

### Course Code: EDUC1276A

**Course Description: English I**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 5</th>
</tr>
</thead>
</table>

This course introduces students to the study of English at tertiary level; the relationship between language, society, and education, with particular reference to a multilingual South Africa. It consists of an introduction to literary and other texts in English, drawn from a range of genres (such as poetry, drama, prose fiction, children’s literature, media, and film) in a variety of contexts, including South Africa. The course also explores the social, cultural, and educational issues arising out of these texts and their context.

### Course Code: EDUC1267A

**Course Description: isiZulu I**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 5</th>
</tr>
</thead>
</table>

This course introduces students to the study of isiZulu at tertiary level; the relationship between language, society, and education, with particular reference to a multilingual South Africa. It consists of an introduction to literary and other texts in isiZulu, drawn from a range of genres (such as poetry, drama, prose fiction, children’s literature, media, and film) in a variety of contexts, including South Africa. The course also explores the social, cultural, and educational issues arising out of these texts and their context.

### Course Code: EDUC1268A

**Course Description: Sesotho I**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 5</th>
</tr>
</thead>
</table>
This course introduces students to the study of Sesotho at tertiary level; the relationship between language, society, and education, with particular reference to a multilingual South Africa. It consists of an introduction to literary and other texts in Sesotho, drawn from a range of genres (such as poetry, drama, prose fiction, children’s literature, media, and film) in a variety of contexts, including South Africa. The course also explores the social, cultural, and educational issues arising out of these texts and their context.

**Course Code: EDUC1264A**

**Course Description: South African Sign Language I**

**NQF Credits: 24**  
**NQF Level: 5**

This course provides an introduction to theoretical and practical aspects of South African Sign Language (SASL) in particular, in terms of linguistics and literature. This course focuses on the development of proficiency in the use of South African Sign Language. It promotes the development of skills in visual observing, signing, fingerspelling and thinking and reasoning as required in teaching the South African school curriculum.

**Course Code: EDUC1279A**

**Course Description: Technology I**

**NQF Credits: 24**  
**NQF Level: 5**

This course provides an introduction to the theoretical and central concepts of technology, focusing on the design process; graphic communication and structures. This course covers basic mechanical, electrical and processing concepts.

**Course Code: EDUC1261A and EDUC1262A**

**Course Description: Teaching Experience IA and Teaching Experience IB**

**NQF Credits: 6/6**  
**NQF Level: 5/6**

This course provides an opportunity for the formation of professional teacher identity. It introduces students to school life, focusing on a professional work ethic and conduct. It creates awareness of different contexts of schooling by helping students to plan their lessons; to consider the use of teaching resources and to monitor learners’ work. The focus of this course is on the observation of lessons and the analysis of teachers’ classroom practices, with some opportunity to plan and teach lessons. Students are equipped to organise and maintain a preparation file and a reflective journal.

**Course Code: EDUC1275A**

**Course Description: Social Sciences I**

**NQF Credits: 24**  
**NQF Level: 5**

This course is made up of two components: geography and history. In the course, students are introduced to the knowledge base and skills embraced by these components. Geography begins with the analysis and interpretation of maps, aerial photographs, satellite images, and statistics. This component also provides an introduction to earth sciences, studying processes in the atmosphere, lithosphere, and hydrosphere. History examines the origin and growth of complex human societies in Africa up to the 15th century. It introduces students to historical debates about key periods of change in this context.

**Course Code: EDUC1274A**

**Course Description: Natural Sciences I**

**NQF Credits: 24**  
**NQF Level: 5**

This course introduces students to key concepts in the natural sciences. The course consists of an introduction to cell structure and the principles of classification and biodiversity. Students learn about the three-domain trees of life, bacteria, archaear, and eukarya. This course also introduces students to phylum chordata, examines the characteristics of vertebrates and invertebrates and develops a working understanding of important chemistry concepts and skills such as measurements, the particle nature of matter and simple inorganic reactions. Important electrical and nuclear concepts are also covered,
including electrical energy, circuits, and power. Students will be taught to use laboratory equipment, perform investigations and report results.

Course Code: EDUC1277A
Course Description: Mathematics I

NQF Credits: 24  NQF Level: 5

This course extends students’ knowledge of fundamental mathematical concepts, central to the school curriculum. The course includes the study of functions and associated algebraic concepts; aspects of trigonometry and Euclidean geometry. It emphasises the use of multiple representations (symbolic, graphical or visual, verbal and numeric) for understanding and making connections. The functions component of the course covers types of functions, associated algebraic concepts, the transformation of functions and the algebra of functions. The Euclidean geometry section of the course includes definitions, constructions, theorems, and proofs.

Course Code: EDUC1278A
Course Description: Information Technology I

NQF Credits: 24  NQF Level: 5

This course introduces students to information technology (IT). Students learn and practice key computer programming concepts and develop problem-solving techniques using computer programmes with applications in other subjects. A range of topics is covered including those necessary for design and programming. These include computational thinking, problem-solving, program design, abstraction, definition, implementation, resources management, web development and the theoretical foundations of programming languages. The course also focuses on the fundamental mathematical concepts necessary to deepen students’ understanding required for programming languages. It covers techniques on using productivity software, spreadsheets, formulas, conditional logic, relational databases, relational algebra, and data presentation.

Course Code: EDUC1250A
Course Description: Mathematics for Primary School Teachers I

NQF Credits: 12  NQF Level: 5

This course provides the content and pedagogic knowledge supporting the teaching of mathematics both in the Foundation Phase and the Intermediate Phase. It focuses on the development of mathematical knowledge and concepts from the early years across the Foundation and Intermediate phases of schooling. In particular, it covers the development of early number concepts, calculations; early proportional reasoning and algebraic reasoning.

Course Code: EDUC1251A
Course Description: Literacy for Primary School Teachers I

NQF Credits: 12  NQF Level: 5

This course facilitates students’ understanding of language and literacy development, with a focus on how children learn language/s. These concepts form the basis of foundational knowledge for the teaching of early literacy and learning to read and write. Students are encouraged to apply their knowledge of the theories of language and literacy learning to a range of texts.

Course Code: EDUC1252A
Course Description: Childhood Studies I

NQF Credits: 24  NQF Level: 5

This course presents and problematises theories of childhood and approaches to educating young children in the South African context. Childhood is explored from the perspective of different disciplines and pedagogies based on an understanding of the integrated nature of holistic development, learning and well-being in young children. Particular attention is paid to the physical well-being of the embodied child.
<table>
<thead>
<tr>
<th>Course Code: EDUC1265A</th>
<th>Course Description: isiZulu (Conversational Competence)</th>
</tr>
</thead>
<tbody>
<tr>
<td>NQF Credits: 12</td>
<td>NQF Level: 5</td>
</tr>
</tbody>
</table>

This course introduces students to basic classroom communication in isiZulu. It covers basic aural comprehension, conversational competence as well as the reading and writing of simple print and digital texts. The course also explores isiZulu as a language for teaching and learning within a multilingual context.

<table>
<thead>
<tr>

<td>NQF Level: 5</td>
</tr>
</tbody>
</table>

This course introduces students to basic classroom communication in Sesotho. It covers basic aural comprehension, conversational competence as well as the reading and writing of simple print and digital texts. The course also explores Sesotho as a language for teaching and learning within a multilingual context.

<table>
<thead>
<tr>
<th>Course Code: EDUC1258A</th>
<th>Course Description: School-Based Support</th>
</tr>
</thead>
<tbody>
<tr>
<td>NQF Credits: 12</td>
<td>NQF Level: 5</td>
</tr>
</tbody>
</table>

This course focuses on the development of basic counseling skills for educators. It prepares students in applying the theoretical principles of guidance and counseling to the provision of support for the personal, social, educational and vocational development of learners. It covers the organisation of guidance services within educational institutions. It also includes introduction to crisis management, trauma debriefing, and bereavement counseling within the school setting. It further prepares students to identify learners who are in need of more individual personal counselling, equipping educators to understand the networking and referrals systems available.

<table>
<thead>
<tr>
<th>Course Code: EDUC1256A</th>
<th>Course Description: Physical Activity and Sports in Schools</th>
</tr>
</thead>
<tbody>
<tr>
<td>NQF Credits: 12</td>
<td>NQF Level: 5</td>
</tr>
</tbody>
</table>

This course orientates the student teacher to better understand the role of physical activity, physical education, and sport within the school and community contexts. It develops health and fitness knowledge, using a multi-disciplinary approach, in an attempt to eradicate sedentary living.

<table>
<thead>
<tr>
<th>Course Code: EDUC1260A</th>
<th>Course Description: ICT Literacy</th>
</tr>
</thead>
<tbody>
<tr>
<td>NQF Credits: 12</td>
<td>NQF Level: 5</td>
</tr>
</tbody>
</table>

This course provides an overview of current Information and Communication Technologies (ICT) and the fundamental relationship between ICT and education. Students are familiarised with basic computing concepts such as computer parts, software packages, collaborative computing environments, computer security, privacy, and ethics. The course discusses the consequences and challenges faced by the ubiquity of computers. Students develop the requisite knowledge and skills to use ICT for educational purposes.
This includes fundamental computing, common computing terminology and basic principles of operation for computer systems. Students acquire fundamental knowledge on various computer applications and make use of common application software packages to carry out classroom activities.

**Course Code: EDUC1257A**

**Course Description: Fun with Choir**

NQF Credits: 12  NQF Level: 5

This course provides students with the first-hand experience of the potential of choir for social transformation, as well as individual and community well-being. The choral work serves as a generative space for experiential learning of music-reading and performing skills. The course models the practice of starting and developing choirs in schools and communities, thus enabling students to begin and develop their own choirs. This enhances a holistic and well-rounded approach to teaching.

**Course Code: EDUC1255A**

**Course Description: Arts for Teachers**

NQF Credits: 12  NQF Level: 5

In this course, students explore the role and potential of the arts in the lives of primary school children in the Foundation Phase. Studio-based learning and making music and visual art provide opportunities for students to express and develop their individual and collaborative abilities and literacies.

**Course Code: EDUC1269A and EDUC1270A**

**Course Description: Becoming a Teacher A and Becoming a Teacher B**

NQF Credits: 6/6  NQF Level: 5/6

This course enables students to examine their understanding of what it means to teach and the role that content knowledge plays in effective teaching. Students learn about the organisation of conceptual knowledge in lessons. They analyse a range of textbook extracts with respect to key content, skills-development and the level of thinking required by the learning activities. The course introduces students to the management of ideas and learners in the classroom. Students are introduced to instructional design for coherent lesson-planning and assessment. The course also prepares students for undertaking classroom observations during the teaching experience.

**Course Code: EDUC1280A**

**Course Description: Literacy for Literacy for Senior Phase and FET Teachers**

NQF Credits: 12  NQF Level: 5

This course concerns the different forms of literacy and focuses on the literacies that students need for their own studies. It also develops the literacies needed for reading, analysing and producing a range of texts. This course enables students to work critically with texts and helps them to evaluate a range of texts. This course also develops the literacies needed for the different learning areas and subjects in the Senior Phase and Further Education and Training (FET) curriculum.

**Course Code: EDUC1259A**

**Course Description: Financial Planning and Entrepreneurship**

NQF Credits: 12  NQF Level: 5

This course consists of two sections: entrepreneurship and financial planning. Students are introduced to a number of aspects of entrepreneurship such as its characteristics and its value. The course examines the characteristics conducive to entrepreneurship and the feasibility of new opportunities. It goes into a successful business plan and is grounded within the South African entrepreneurial environment. The financial planning section introduces students to budgetary processes; costing activities and decision-making. These are applied practically to a school-based event or activity.
<table>

</table>
South African education. The section on philosophy of education focuses on and explores the aims and conceptions of education as well as issues related to critical thinking and practical reasoning.

**Course Code: EDUC2273A**

**Course Description: Education IIA: Sociology in Education (part-time)**

| NQF Credits: 16 | NQF Level: 6 |

This course introduces the central contributions of sociology to the academic study of education, paying particular attention to implications for teaching and learning and understanding contemporary issues in education. The syllabus explores what it means to educate, and considers aims, challenges and conditions of possibility for educating in contemporary South African society from a sociological perspective. The course also focuses on the inter-relationship between structure and agency and links these to contemporary issues in South African education.

**Course Code: EDUC2299A**

**Course Description: Education IIB: Philosophy in Education (part-time)**

| NQF Credits: 16 | NQF Level: 6 |

This course introduces the central contributions of philosophy to the academic study of education, paying particular attention to implications for teaching and learning and understanding contemporary issues in education. The course explores the aims and conceptions of education as well as issues related to critical thinking and practical reasoning.

**Course Code: EDUC2284A**

**Course Description: Life Orientation II**

| NQF Credits: 24 | NQF Level: 6 |

This course furthers the principles of Life Orientation with a specific focus on diversity and inclusion in three core components of Life Orientation, namely Physical Education, Personal and Social Development and Democracy and Human Rights.

**Course Code: EDUC2233A**

**Course Description: Childhood Studies II**

| NQF Credits: 24 | NQF Level: 6 |

This course examines how children’s learning is guided and shaped by the curriculum, pedagogy and assessment during children’s informal learning (ages birth to 6 years), then after children’s transition and entry into the formal education system in the Foundation Phase (Grades R to 3). Alternative approaches to schooling young children are examined. The different conceptions of how children should be educated relate to and build on the different constructions of childhood explored in the first year of study with specific reference to constructions as represented in the Life Skills curriculum.

**Course Code: EDUC2238A**

**Course Description: Teaching Experience II**

| NQF Credits: 12 | NQF Level: 6 |

During school-based practicum sessions, students will have the opportunity to participate in different contexts of school life, including extra-mural programme. They observe and analyse teaching and learning processes, organise and manage a preparation file, work with supervising teachers in designing coherent lessons, select and use appropriate teaching resource materials, and practice teaching strategies that are appropriate to the content and the promotion of learner participation. Students must organise and manage the learning environment during the lessons they deliver, explain concepts clearly, question learners at a variety of levels of thinking, monitor and assess learners’ answers and written work during class time and deepen their reflective practice through journal writing.
**Course Code: EDUC2231A**

**Course Description: Mathematics for Primary School Teachers II**

NQF Credits: 12 | NQF Level: 6

This course combines content and pedagogy in Mathematics. The primary focus of this course will be on 2D and 3D geometry, symmetry, transformations, congruency and similarity, constructions, angles, measurement and data handling. It supports the development of specialists in teaching mathematics both in the Foundation Phase and the Senior Primary Phase and as such, will continue to build on the overarching theme of developing mathematical thinking and understanding. While continuing to build on and further develop concepts covered in the first year of study.

**Course Code: EDUC2232A**

**Course Description: Literacy for Primary School Teachers II**

NQF Credits: 12 | NQF Level: 6

This course further develops student teachers’ understanding of teaching language and literacy. The course is underpinned by an exploration of language structures and systems, and supports the development of reading and writing, especially for second language learners. It extends the focus on what children need to learn to be interactive readers and writers, and how this can be taught.

**Course Code: EDUC2266A**

**Course Description: Life Skills for Teachers**

NQF Credits: 12 | NQF Level: 6

This course equips students with general life skills to cope in a complex and diverse society and to teach these skills to school learners. The course is made up of various personal and social topical issues to engage students in debating and navigating the complexities and challenges that diversity brings and to develop emotional skills. The course also exposes students to the benefits of healthy living and positive lifestyle choices.

**Course Code: EDUC2262A**

**Course Description: Technology II**

NQF Credits: 24 | NQF Level: 6

This course assists student-teachers who wish to teach information technology at Grades 10, 11 and 12. This course makes students proficient in the use of high level programming languages such as Java within an object-oriented programming paradigm and to be able to design and manipulate databases using programming principles.

**Course Code: EDUC2246A and EDUC2247A**

**Course Description: Teaching Technology (Senior Phase) A and Teaching Technology (Senior Phase) B**

NQF Credits: 6/6 | NQF Level: 6/7

This course assists pre-service teachers in developing methods and theories of teaching technology subjects. These theories will cut across the pedagogical content knowledge notion as well as the technological pedagogical content knowledge theory. These two theories will help strengthen and foreground the teachings that are suitable for teaching technology.

**Course Code: EDUC2267A and EDUC2268A**

**Course Description: Teaching Sesotho (Senior Phase) A and Teaching Sesotho (Senior Phase) B**

NQF Credits: 6/6 | NQF Level: 6/7

This course equips students with the ability to relate to theories of language acquisition and language teaching approaches. The course consists of critical language awareness and the understanding of the Language in Education Policy (LiEP) implementation. It promotes designing of text based lessons suitable for senior primary schools.

**Course Description:** Teaching Natural Sciences (Senior Phase) A and Teaching Natural Sciences (Senior Phase) B

<table>
<thead>
<tr>
<th>NQF Credits: 6/6</th>
<th>NQF Level: 6/7</th>
</tr>
</thead>
</table>

This course introduces the student to key concepts about teacher professional knowledge for teaching Natural Science. Students are introduced to pedagogical content knowledge as the unique knowledge that teachers use in their teaching. The course explores methodological skills for pedagogically transforming content knowledge of core topics in Natural Science into Big Ideas, which are statements assisting teachers to explain the most important understanding to be established in a topic. The course further introduces students to important aspects of teaching Natural Science such as the infusion of inquiry into classroom practices and management of laboratory practice.

### Course Code: EDUC2264A

**Course Description:** Social Sciences II

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>

</table>

This course introduces the relationship between the discipline of history and geography and how it is taught; identification of central processes in history and geography, their application in designing learning materials, activities, and eventually full lessons for the Senior Phase (Grades 7 to 9) learners. Engagement with historical thinking, exploration of the relevance of history and geography learners, the introduction to the Social Sciences (SP) Curriculum, classroom management demands relating to fieldwork and classroom teaching and an introduction to assessment in Social Science are covered in this course.

### Course Code: EDUC2259A

**Course Description:** English II

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 6</th>
</tr>
</thead>
</table>

This course involves the continuing study of language and at a tertiary level, the relationship between language, society and education, with particular reference to a multilingual South Africa. The course
draws from a range of genres including poetry, drama, prose fiction, media and film in a variety of contexts and engages social, cultural, and educational issues arising out of these texts and their context.

**Course Code: EDUC2252A and EDUC2253A**

**Course Description:** Teaching English (Senior Phase) A and Teaching English (Senior Phase) B  
**NQF Credits:** 6/6  
**NQF Level:** 6/7

This course prepares students for general language and literacy education and core skills for teaching English at South African schools. It also ensures students have the basic analytical skills and a sound knowledge of method and theory on which to base their teaching. The course includes topics such as reading literacy, language acquisition and learning, literature and methodologies. There is a strong emphasis on teaching languages within multicultural classroom context as well as both home and first additional language proficiency levels.

**Course Code: EDUC2260A**

**Course Description:** isiZulu II  
**NQF Credits:** 24  
**NQF Level:** 6

This course provides an in-depth critical knowledge needed by teachers of isiZulu language. The course consists of language, linguistics and literature drawn from a range of genre such as poetry, drama and prose fiction.

**Course Code: EDUC2256A and EDUC2257A**

**Course Description:** Teaching isiZulu (Senior Phase) A and Teaching isiZulu (Senior Phase) B  
**NQF Credits:** 6/6  
**NQF Level:** 6/7

This course equips students with the ability to relate to theories of language acquisition and language teaching approaches. The course consists of critical language awareness and the understanding of the Language in Education Policy (LiEP) implementation. It promotes designing of text based lessons suitable for senior primary schools.

**Course Code: EDUC2261A**

**Course Description:** Sesotho II  
**NQF Credits:** 24  
**NQF Level:** 6

This course provides an in-depth critical knowledge needed by teachers of Sesotho language. The course consists of language, linguistics and literature drawn from a range of genre such as poetry, drama and prose fiction.

**Course Code: EDUC2267A and EDUC2268A**

**Course Description:** Teaching Sesotho (Senior Phase) A and Teaching Sesotho (Senior Phase) B  
**NQF Credits:** 6/6  
**NQF Level:** 6/7

This course enables the student to relate to theories of language acquisition and language teaching approaches. The course consists of critical language awareness and the understanding of the Language in Education Policy (LiEP) implementation. It promotes the designing of text-based lessons suitable for senior primary schools.

**Course Code: EDUC2258A**

**Course Description:** Mathematics II  
**NQF Credits:** 24  
**NQF Level:** 6

The course takes on the form of applied mathematics studies. Statistical Reasoning is studied from an advanced perspective to develop a broader understanding of statistical methods and how they apply across contexts in mathematics.

This course focuses on contemporary issues of childhood in South Africa. It is underpinned by an inclusive approach to education and a strong social justice framework. The course responds to contextual issues like abuse, poverty, race, gender and sexuality and introduces students to appropriate social justice pedagogies.

**Course Code: EDUC3162A**

**Course Description:** Engineering Graphics and Design III

| NQF Credits: 24 | NQF Level: 7 |

This course introduces instrument drawing and entails a further study of geometrical constructions and reproduction drawing as well as perspective drawing, loci, cams, helices, screw threads and civil drawing.

**Course Code: EDUC3158A**

**Course Description:** English III

| NQF Credits: 24 | NQF Level: 7 |

This course involves the advanced study of: multiple texts drawn from literary genres, including major writers from Africa and beyond; different forms of media, including narrative film; the English language and the shifting relationship between form, style and context; and engages social, cultural, and educational issues arising out of these.

**Course Code: EDUC3169A**

**Course Description:** isiZulu Additional Language II

| NQF Credits: 24 | NQF Level: 6 |

This course continues the study of isiZulu to further develop competence in isiZulu for professional purposes, develop aural comprehension, reading and writing skills in isiZulu in a multilingual classroom context and increase student teachers’ capacity to communicate with learners.

**Course Code: EDUC3121A**

**Course Description:** Sesotho First Additional Language III

| NQF Credits: 24 | NQF Level: 6 |

This course is a continuation of the development and understanding of the Sesotho language. Introductions are made to relevant Sesotho literature (all genres) and emphasis is placed on resource development for First Additional Language (FAL) teaching in the classroom. There is also a continued development of the methodological understanding of teaching FAL.

**Course Code: EDUC3122A/EDUC3156A**

**Course Description:** Geography III

| NQF Credits: 24 | NQF Level: 7 |

This course further develops content knowledge and skills required for geographical studies. Topics include the ability to observe, identify, classify, measure, compute, record and process data; analyse and interpret (data, opinions, maps, photos, graphs, points of view, amongst others); illustrate; seek interrelationships; synthesise; work in a team; solve problems and develop thinking skills. Emphasis is placed on developing spatial awareness and competency. This course also develops an understanding of major contemporary topics in geography, building on topics covered in the second year Social Science course. The course comprises an in-depth study in applied climatology, population & political geography, development and economic geography, hazards and disaster management.

**Course Code: EDUC3157A**

**Course Description:** History III

| NQF Credits: 24 | NQF Level: 7 |
This course provides substantive and procedural historical knowledge. It also focuses aspects of South African history – from early Cape history to the mineral revolution and South Africa after 1910 including the Segregation Era 1910 – 1948, the Apartheid Era 1948 – 1994, and the Post-Apartheid Era, which includes the Truth Reconciliation Commission (TRC), public history and heritage.

**Course Code:** EDUC3164A  
**Course Description:** Information Technology  
**NQF Credits:** 24  
**NQF Level:** 7  
This course deepens the understanding of systems and application software; and the software development process. It provides an introduction to windows programming, web-based applications and working with databases. It also enables student teachers to develop web-based systems and windows applications that can be used for educational purposes.

**Course Code:** EDUC3159A  
**Course Description:** isiZulu III  
**NQF Credits:** 24  
**NQF Level:** 7  
This course studies literary texts in isiZulu drawn from a variety of contexts. It concentrates on literary theories, study of language structures, conventions and usage in the South African classroom. Furthermore, it considers major debates about teaching in multilingual and cultural classrooms.

**Course Code:** EDUC3152A  
**Course Description:** Life Sciences IIIA  
**NQF Credits:** 24  
**NQF Level:** 7  
This course studies the life processes related to homeostasis and some environmental issues. Topics include homeostasis, temperature regulation, endocrine system, excretion, nervous system, sense organs and population ecology.

**Course Code:** EDUC3153A  
**Course Description:** Life Sciences IIIB  
**NQF Credits:** 24  
**NQF Level:** 7  
This course studies the life processes in both plants and animals that sustain life. Topics include biological compounds and their uses, cell biology and mitosis, tissues, gaseous exchange, nutrition, transport in plants and animals, photosynthesis and respiration.

**Course Code:** EDUC4262A/EDUC4240A  
**Course Description:** Teaching Life Sciences (FET)  
**NQF Credits:** 12  
**NQF Level:** 7  
This course explores the nature and scope of Life Sciences, with reference to the teaching of topics covered in Life Sciences. It extends the student’s knowledge of the significance of teaching Life Sciences in high schools and critical study of the present Life Sciences school curriculum.

**Course Code:** EDUC3129A  
**Course Description:** Literacy for Foundation Phase Teachers III  
**NQF Credits:** 12  
**NQF Level:** 7  
This course expands on the role of the reader as a text user and analyst. It includes an exploration of children’s literature and texts for learning to read, with a focus on various pedagogies and approaches (for example multimodality/ arts-based approaches and critical literacy) for teaching these texts.
<table>
<thead>
<tr>
<th>Course Code: EDUC3161A</th>
<th>Course Description: Mathematics III</th>
</tr>
</thead>
<tbody>
<tr>
<td>NQF Credits: 24</td>
<td>NQF Level: 7</td>
</tr>
</tbody>
</table>

This course comprises two components: Linear Algebra and Calculus. The Linear Algebra component introduces key concepts and procedures related to working with vectors and matrices. Vectors are studied in 2D and 3D and matrices are explored using a variety of methods related to matrix algebra. The Calculus component introduces key concepts and procedures in differential calculus and integration.

<table>

<th>Course Description: Mechanical Technology III</th>
</tr>
</thead>
<tbody>
<tr>
<td>NQF Credits: 24</td>
<td>NQF Level: 7</td>
</tr>
</tbody>
</table>

This course equips students with the requisite content knowledge and pedagogical skills to teach Mechanical Technology at the FET (Grades 10-12) level in South Africa. Mechanical Technology focuses on the design process from conceptual design to practical problem solving and the application of scientific principles. The subject provides scope for learning about systems and services used in the motor industry. The emphasis is in the fields of auto-motive engineering and manufacturing.

<table>
<thead>
<tr>
<th>Course Code: EDUC3135A/EDUC3154A</th>
<th>Course Description: Physical Sciences IIIA</th>

<tr>
<td>Course Description: Teaching Geography (FET)</td>
</tr>
<tr>
<td>NQF Credits: 12</td>
</tr>
</tbody>
</table>
This course introduces the essence of teaching geography in high school and draws on experience, and professional development as a FET student teacher. It also develops a student’s understanding of a student teacher's role as a high school teacher. Student teachers are exposed to methods in geography that enables them to teach young people confidently to study the world around them in a holistic manner.

Course Code: EDUC4265A/EDUC4243A  
Course Description: Teaching History (FET)  
NQF Credits: 12  
NQF Level: 7

This course provides the pedagogy for the learning, teaching and assessing in the Further Education and Training (FET) phase.

Course Code: EDUC4267A/EDUC4245A  
Course Description: Teaching isiZulu (FET)  
NQF Credits: 12  
NQF Level: 7

This course provides the pedagogy for the learning, teaching and assessing for teaching isiZulu from Grades 10 through Grades 12 in South African classrooms. Approaches to language and literature teaching across multiple genres, modes and media are taught. The principles of unit planning, materials design and assessment will be dealt with, drawing on both Home Language and First Additional Language curriculum documents.

Course Code: EDUC3147A  
Course Description: Teaching Social Sciences (Intermediate Phase) A  
NQF Credits: 6  
NQF Level: 6

This course provides the pedagogy for the learning, teaching and assessing Social Sciences in the Intermediate Phase, Grades 4-7. It focuses on pedagogy and teaching subject knowledge for teaching in History and Geography through the study of relevant and applicable topics.

Course Code: EDUC3148A  
Course Description: Teaching Social Sciences (Intermediate Phase) B  
NQF Credits: 6  
NQF Level: 7

This course extends the teaching of Geography in the context of the Subject: Social Sciences through the study of relevant and applicable topics. The focus is on teaching pedagogical and subject knowledge for teaching geography in Grades 4 to 7. The course also focuses on the practical knowledge required for History and Geography learning and teaching.

Course Code: EDUC4268A/EDUC4246A  
Course Description: Teaching Sesotho (FET)  
NQF Credits: 12  
NQF Level: 7

This course provides the pedagogy for the learning, teaching and assessing Sesotho from Grades 10 to 12 in the South African classroom. Approaches to language and literature teaching across multiple genres, modes and media will be taught. The principles of unit planning, materials design and assessment will also be dealt with, drawing on both Home Language and First Additional Language curriculum documents.

Course Code: EDUC4219A  
Course Description: Information Technology IV  
NQF Credits: 24  
NQF Level: 7

This course deepens students’ understanding of networking fundamentals, communication technologies, data and information management. Students are acquainted with the basic terminologies of networking fundamentals, internet applications, and data and information management. Student teachers develop future-oriented, innovative IT teaching strategies.
### Course Code: EDUC4212A
**Course Description: Education IV**
**NQF Credits:** 24  
**NQF Level:** 7

This course covers history, inclusive education, teacher-related policies and the legal framework of teaching. The historical component covers pre-apartheid colonial and missionary education, the history of and resistance against apartheid education, and the need for a democratic approach to education. The inclusive education component presents the legal framework of inclusion for SA schools, as well as psychological theories that explain and enable approaches to inclusive education and how to deal with diversity in schools and classrooms. The course also considers what it means to be a practicing teacher within the context of contemporary South African education policy and law.

### Course Code: EDUC4211A
**Course Description: Childhood Studies IV**
**NQF Credits:** 24  
**NQF Level:** 7

This course focuses on current debates about childhood and early learning in the literature in what is now a contested field. Students are expected to critically engage with these ideas to inform their developing practice. They are required to integrate what they have learned about children’s rich imagination, creativity and resourcefulness with a range of innovative pedagogies. This enables students to develop and implement life skills programmes for children in meaningful and sensitive ways.

### Course Code: EDUC4260A
**Course Description: Education IVA: Assessment and Inclusive Education (part-time)**
**NQF Credits:** 16  
**NQF Level:** 7

Through exploration of contemporary issues in education, the course endeavors to cultivate in students an ability to think critically about education, with regard to assessment and inclusive education. The course addresses key questions of assessment and inclusive practices and explores and interrogates different approaches to the professional practices of teachers.

### Course Code: EDUC4237A
**Course Description: Education IVB: History, Policy and Law in Education (part-time)**
**NQF Credits:** 16  
**NQF Level:** 7

This course covers history, inclusive education, teacher-related policies and the legal framework of teaching. The historical component also covers pre-apartheid colonial and missionary education, the history of and resistance against apartheid education, and the need for a democratic approach to education. The course also considers what it means to be a practicing teacher within the context of contemporary South African education policy and law.

### Course Code: EDUC4236A
**Course Description: Teaching Life Orientation (FET)**
**NQF Credits:** 12  
**NQF Level:** 7

This course advances pedagogical knowledge and skills for teaching Life Orientation in the FET phase. The course focuses on teaching and learning diversity and inclusion in Physical Education, Personal and Social Development and democratic citizenship and human rights’ education.

### Course Code: EDUC4210A/EDUC4239A
**Course Description: Being a Teacher**
**NQF Credits:** 12  
**NQF Level:** 7

This course prepares students for the transition to novice teachers. It explores professional identity construction and what it means to be a teacher with a mission in the context of South African schooling. It introduces students to practice-based research both as reflective practitioners and as classroom
researchers with an emphasis on their professional agency in the school context. The course consolidates professional learning of the initial teacher education programme and explores teaching as knowledge-based practice.

**Course Code: EDUC4213A/EDUC4259A**

**Course Description: Engineering Graphics and Design IV**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>

This course focuses on a study of geometrical solids (both orthographic and sectional views), isometric drawings, isometric sectional drawing, perspective drawings of complex figures like pools, house hold furniture, screw threads and a spring. The course also deals with sectional drawing, civil drawing and assembly drawing.

**Course Code: EDUC4214A/EDUC4255A**

**Course Description: English IV**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>

This course continues with the advanced study of literary texts from the 20th and 21st centuries (novels, poetry and drama); and an advanced study of film. Advanced language theories are also studied with particular reference to a multilingual South Africa.

**Course Code: EDUC4215A**

**Course Description: isiZulu First Additional Language III**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 6</th>
</tr>
</thead>
</table>

This course further develops competence in isiZulu for professional purposes, develops aural comprehension, reading and writing skills in isiZulu in a multilingual classroom context and increases student teachers’ capacity to communicate with learners.

**Course Code: EDUC4217A/EDUC4253A**

**Course Description: Geography IV**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>

This course further develops content knowledge and skills required for geographical studies. Topics include the ability to observe, identify, classify, measure, compute, record and process data; analyse and interpret (data, opinions, maps, photos, graphs, points of view, amongst others); illustrate; seek interrelationships; synthesise; work in a team; solve problems and develop thinking skills. Emphasis is placed on developing spatial awareness and competency. This course further develops an understanding of major contemporary topics in geography, building on topics covered in the third year Geography course. The course also comprises an in-depth study of research and applied geographic techniques; applied regional studies, regional geomorphology; applied geomorphology.

**Course Code: EDUC4218A/EDUC4254A**

**Course Description: History IV**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>

This course provides both substantive and procedural historical knowledge. The course focuses on aspects of the Cold War, including the Cuban Missile Crisis, Propaganda, the Arab-Israeli Conflict, and the end of the Cold War; History of Africa, including pre-colonial, colonial and postcolonial history; Representations of genocide in Australia, Nazi Germany, and Rwanda.

**Course Code: EDUC4219A**

**Course Description: Information Technology IV**

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>
This course introduces students to networking fundamentals, communication technologies, data and information management. Students are acquainted with the basic terminologies of Networking Fundamentals, internet applications, and data and information management. Student teachers develop an understanding of networking, how to troubleshoot, maintain, and run internet applications.

<table>
<thead>
<tr>
<th>Course Code: EDUC4220A/EDUC4256A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Description: isiZulu IV</td>
</tr>
<tr>
<td>NQF Credits: 24</td>
</tr>
<tr>
<td>NQF Level: 7</td>
</tr>
</tbody>
</table>

The course deals with the advanced study of literary texts and language from a representative selection of renowned new authors. The course also explores language theories that are relevant and practically applicable in South African classrooms.

<table>
<thead>
<tr>
<th>Course Code: EDUC4251A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Description: Life Sciences IV</td>
</tr>
<tr>
<td>NQF Credits: 24</td>
</tr>
<tr>
<td>NQF Level: 7</td>
</tr>
</tbody>
</table>

The course explores the study of life processes associated with the continuity of life including reproduction, meiosis and embryology, genetics and evolution and its applications e.g. biotechnology.

<table>
<thead>
<tr>
<th>Course Code: EDUC4223A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Description: Life Skills II: Personal, Social and Physical Well-being</td>
</tr>
<tr>
<td>NQF Credits: 12</td>
</tr>
<tr>
<td>NQF Level: 6</td>
</tr>
</tbody>
</table>

The course focuses on developing the well-being of the Intermediate Phase child from a values-based perspective: the personal, social and physical. It explores how emotional literacy, knowledge of rights and responsible citizenship and healthy living provide the foundations upon which healthy societies are based.

<table>
<thead>
<tr>
<th>Course Code: EDUC4224A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Description: Literacy for Foundation Phase Teachers IV</td>
</tr>
<tr>
<td>NQF Credits: 12</td>
</tr>
<tr>
<td>NQF Level: 7</td>
</tr>
</tbody>
</table>

This course synthesises students’ understanding of the theories and practices of literacy education. It also extends understandings of assessment and remediation for young readers and writers. Students are required to develop and teach integrated units for multilingual classrooms that apply theory and practice.

<table>
<thead>
<tr>
<th>Course Code: EDUC4225A/EDUC4258A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Description: Mathematics IV</td>
</tr>
<tr>
<td>NQF Credits: 24</td>
</tr>
<tr>
<td>NQF Level: 7</td>
</tr>
</tbody>
</table>

This course comprises two components. One component is Connecting Mathematics; the other component is Mathematical Modelling. The Connecting Mathematics component focuses on a variety of topics which include more advanced mathematics. This component introduces students to key concepts in sequences and series, the binomial theorem and complex numbers. Conic sections are also studied in order to deepen knowledge of geometry and its intersection with algebra and trigonometry. This component also introduces students to Mathematical Induction as a method of proof. The Mathematical modelling component integrates mathematical concepts that have been explored across Mathematics I, II and III. The component applies techniques from science and mathematics to deal with and solve real life problems. This component introduces students to well-known mathematical models, such as the fitting of different curves to data.

<table>
<thead>
<tr>
<th>Course Code: EDUC4226A</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Description: Mathematics for Foundation Phase Teachers IV</td>
</tr>
<tr>
<td>NQF Credits: 12</td>
</tr>
<tr>
<td>NQF Level: 7</td>
</tr>
</tbody>
</table>
Deepening of mathematics concepts that include measurement, space and shapes, money and data handling will be addressed that are aligned with creative pedagogies. The course also focuses on different philosophies of the nature of mathematics, in particular the Platonic view of a mathematics that is ‘put into’ representations and the view that mathematics is constructed through representations.

Course Code: EDUC4227A
Course Description: Mathematics for Primary School Teachers IV
NQF Credits: 24  
NQF Level: 7
This course covers the following content areas: Algebra and Functions, Probability, Logic and Proof, Triangles and Similarity that would lead into Trigonometry; Understanding the van Hiele levels in Geometry, Proof and Geometry, Computer skills like Microsoft Excel and Geogebra.

Course Code: EDUC4228A
Course Description: Mechanical Technology IV
NQF Credits: 24  
NQF Level: 7
This course enables the student to develop the skills and the underlying process technology required for the routine maintenance, to motor vehicles and includes fitting and turning.

Course Code: EDUC4229A/EDUC4252A
Course Description: Physical Sciences IV
NQF Credits: 24  
NQF Level: 7
This course has two components: chemistry and physics. In Chemistry the following topics are covered: Polymers; Organic Chemistry; Electrochemistry; Acids and Bases; Rates of Reactions; and Phase Solubility. In Physics the following topics are covered: Electrical Properties of Matter; Electronic Properties; Relativity and Modern Physics; and Applications of Physics.

Course Code: EDUC4230A/EDUC4257A
Course Description: Sesotho IV
NQF Credits: 24  
NQF Level: 7
This course considers the advancement of the study of literary texts and language including of a representative selection of renowned new authors. This course also involves the study of language theories that are relevant and practically applicable in South African classrooms.

Course Code: EDUC4272A
Course Description: Teaching Additional Languages for Primary School Teachers IV
NQF Credits: 12  
NQF Level: 7
This course promotes an advanced understanding of the main ideas around language teaching methodologies and approaches for learning additional languages. It focuses on analysing language curricula, identifying the main teaching approaches and principles for additional language teaching and translating these into classroom practice.

Course Code: EDUC4232A/EDUC4261A
Course Description: Teaching Experience IVA
NQF Credits: 12  
NQF Level: 7
During school-based practicum sessions, students have the opportunity to participate in different contexts of school life, including extra-mural programmes; observe and analyse teaching and learning processes; organise and manage a preparation file; work with supervising teachers in designing coherent lessons; select and use appropriate teaching resource materials, and practice teaching strategies that are appropriate to the content and promote learner participation.
Course Code: EDUC4233A/EDUC4238A
Course Description: Teaching Experience IVB
NQF Credits: 12  NQF Level: 7
During school-based practicum sessions, students have the opportunity to participate in different contexts of school life, including extra-mural programmes; observe and analyse teaching and learning processes; organise and manage a preparation file; work with supervising teachers in designing coherent lessons; select and use appropriate teaching resource materials, and practice teaching strategies that are appropriate to the content and promote learner participation.

Course Code: EDUC4249A
Course Description: Teaching Mechanical Technology (FET)
NQF Credits: 12  NQF Level: 7
This course introduces teaching and learning within the field of Mechanical Technology with emphasis on Technical Vocational Education and Training (TVET). The course also examines various innovative teaching strategies and learning activities appropriate for teaching core concepts and the forms of knowledge that are important in Vocational Education.

Postgraduate Diploma in Education in the field of Deaf Education

Course Code: EDUC5214A
Course Description: Theories and Policies within the Deaf Education Context
NQF Credits: 30  NQF Level: 8
This course explores and critiques the international and national legal and theoretical contexts within which the field of Deaf Education has developed over the years. Complex issues of philosophical views and heuristics are explored in order to gain an understanding of the current schools of thought within both the local and international contexts.

Course Code: EDUC5217A
Course Description: Psychology, Identity and Socio-Emotional Development of the Deaf and Hard of Hearing Learner
NQF Credits: 30  NQF Level: 8
This course explores the continuum of understanding of Deaf Identity, Community and Culture and how these can impact on the socio-emotional development and educational outcomes of deaf and hard of hearing learners.

Course Code: EDUC5215A
Course Description: Pedagogy, Praxis and Research within the Context of Educating Deaf and Hard of Hearing Learners
NQF Credits: 30  NQF Level: 8
This course explores the unique pedagogy within the various contexts of educating deaf and hard of hearing learners along with the core role that research can play in informing best practice. Social research principles and skills are investigated as we explore the value of evidence-based practice for educators, practitioners and leadership within a multitude of Deaf Education contexts.

Course Code: EDUC5216A
Course Description: Curriculum and Assessment in the Education of Deaf and Hard of Hearing Learners
NQF Credits: 30  NQF Level: 8
This course explores and critiques the complexity of ‘The Curriculum’ relating to the Education of Deaf and hard of hearing learners within the current South African and international context. This is followed
by discussions on outcomes and assessment within Deaf Education as they relate to both the intended and hidden curriculum within the wide range of educational contexts, levels of hearing loss as well as communication methodologies.

### Postgraduate Diploma in Education in the field of Higher Education

<table>
<thead>

<tr>
<td>This course focuses on the use of technologies for improved teaching and learning. It covers emerging digital learning environments connecting them with teaching and learning. The course explains the latest trends in educational technology are analysed and technological affordances are explored to determine their potential to improve teaching and learning in specific contexts. Participants have an opportunity to analyse their current contexts in relation to pedagogic problems, students’ learning needs and current available technologies. Students apply relevant research to solve problems suitable for their contexts.</td>

</table>
### Course Code: EDUC1322A
**Course Description:** Technical and Vocational Education Studies

<table>
<thead>
<tr>
<th>NQF Credits: 34</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>

The course covers the following topics: The TVET educator; as a professional and a reflective practitioner; approaches to teaching and learning which include theories about learning and how learning happens; in the vocational context. The course introduces students to lesson planning and effective ways of lesson presentation, how to develop and modify teaching and learning materials, how to interact productively with TVET students who come from diverse socio-economic backgrounds.

### Course Code: EDUC1321A
**Course Description:** Teaching, Learning and Researching in Technical and Vocational Education and Training

<table>
<thead>
<tr>
<th>NQF Credits: 7</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>

This course analyse various acts and policies will be critically analysed to understand their impact on the TVET sector. It exposes students to methods of designing and conducting research. The course will also introduce students to how to develop and modify teaching and learning to suit the needs of students who come from diverse socio-economic backgrounds.

### Course Code: EDUC1320A
**Course Description:** Teaching Practice

<table>
<thead>
<tr>
<th>NQF Credits: 24</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>

This course applies the theoretical learning and teaching covered in disciplinary, pedagogical and situational knowledge frameworks. Students will also engage with principles of action research. They are exposed to teaching principles across a variety of contexts, including classrooms, workshops and laboratories.

### Course Code: EDUC1323A
**Course Description:** Lecturer Industry Experience

<table>
<thead>
<tr>
<th>NQF Credits: 8</th>
<th>NQF Level: 7</th>
</tr>
</thead>
</table>

This course update industry-based learning in line with developments in their field in order to improve the relevance of what they are teaching and its links to actual industry practice, technology and systems. The course prepare the students for the demands of the workplaces within which they will find themselves. It exposes students to work/workplaces through structured learning in workplace/industry settings (e.g. factories, worksites, offices, etc.)

### Course Code: EDUC1325A
**Course Description:** Curriculum Studies: Civil Engineering and Building Construction

<table>
<thead>
<tr>
<th>NQF Credits: 7</th>
<th>NQF Level: 7</th>
</tr>

<tbody>
<tr>
<td></td>
<td>The first part of this course has two foci which are mathematical in nature, introducing candidates to the mathematical entailments of contextualised problem-solving and mathematical modelling in the school curriculum, and focuses on the specificity of mathematical language. Candidates reflect on some of the issues that arise in South Africa where mathematics is taught and learnt in multilingual settings. The second part of the course embeds the mathematics above in the candidates’ professional practice by inducting candidates into scholarly work on connecting and expressing mathematics, and exploring the implications of related curriculum issues in their professional practice.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Course Code: EDUC4038A
Course Description: Science Education I
NQF Credits: 20  NQF Level: 8
This course discusses the key ideas and concepts relating to learning theories in science (from behaviorist and humanistic-perceptual positions, Piaget’s developmental model, to social and radical constructivism). It further examines issues around language and communication in science education for first and second language learners. The course also examines ways of promoting scientific and technological literacy amongst learners through science and technology in society approaches to teaching and learning science.

Course Code: EDUC4016A
Course Description: Inclusive Education: Learning Support I
NQF Credits: 20  NQF Level: 8
This first part of this course examines Learning and Development by discussing the provision of education for learners with individual differences and barriers to learning in the context of inclusive education and the Eco-systemic framework used to underpin the exploration of the implementation of inclusive education. The second part of the course examines Accommodating Diversity which includes exemplary methods for the teaching and learning of literacy are examined which includes an emphasis on continuous assessment, methods for designing the teaching and learning of maths and reading and writing to suit individual needs in inclusive classrooms and designing and teaching learning support for individuals and small groups.

Course Code: EDUC4111A
Course Description: Curriculum Issues II
NQF Credits: 20  NQF Level: 8
The course focuses on key issues in curriculum, teaching and learning, including emotions, identity and the relationship between schooling and the moral order in South Africa. It draws on a range of theoretical perspectives to understand these issues, to research them and to develop strategies for improving teaching and learning in schools.

Course Code: EDUC4003A
Course Description: Democracy in Education
NQF Credits: 20  NQF Level: 8
This course focuses on the question of how a conception of justice, describing fair terms of co-operation between people with different and conflicting interests, might be justifiable. Special attention is given to questions of just distribution of educational goods and to questions of moral development, in particular to the question of how a sense of justice is acquired, how this process might be facilitated by educational structures, and how a sense of justice might be required for democratic participation. The course examines the meaning of democracy as a form of government and a way of life in which justice, equality and freedom are pursued.

Course Code: EDUC4032A
Course Description: On-line Teaching and Learning
NQF Credits: 20  NQF Level: 8
The course deals with information literacy, or the ability to participate in the information society with ability to access, evaluate and create knowledge. It provides candidates with opportunities to understand some issues related to learning in the information society and gain competence in facilitating learning through information and communication technologies. The course also covers the following topics: Education in the language society, the Internet and education, from information to knowledge, the search for, and critical evaluation of electronic resources and the mediation of learning on the Internet.

<tr>
<td><strong>Course Description:</strong> Leadership, Management and Organisational Development in Education</td>
<td></td>
</tr>
<tr>
<td><strong>NQF Credits:</strong> 20</td>
<td><strong>NQF Level:</strong> 8</td>
</tr>
<tr>
<td>The course focuses on two main themes: leadership and organisational development in education. Educational institutions survival depends on greater awareness of what is outside their boundaries, how they define themselves and their ability to think strategically. The course explores the concept of effective leadership, with particular reference to local context and the educational contribution to the process of national reconstruction. It exposes candidates to different perspectives on educational leadership and provides a broader understanding of why attempts by educational institutions to ‘learn to learn’ sometimes seem paradoxical and confused. As leadership is considered crucial to the process, different conceptions of leadership come under the spotlight and the barriers to learning, change and agency are explored.</td>

<td><strong>Course Description:</strong> Educational Theory; Research and Enquiry I</td>
<td></td>
</tr>
<tr>
<td><strong>NQF Credits:</strong> 25</td>
<td><strong>NQF Level:</strong> 8</td>
</tr>
</tbody>
</table>
This course offers a challenging introduction to educational issues and debates arising from the theory of knowledge, and from considerations of teaching and learning. It will examine the knowledge around which educational research and practice is organised.

**Course Code: EDUC4130A**

**Course Description: Educational Theory, Research and Enquiry II**

**NQF Credits: 25**  **NQF Level: 8**

This course introduces critical educational issues and debates related to schooling and curriculum delivery. Themes revolve around areas of knowledge systems, school knowledge, curriculum learner and education development and the teacher as a professional. Using theoretical typologies provided by sociology of academic knowledge the course also analyses experiences of implementing the school curriculum in the South African, African and other education and training systems.

**Course Code: EDUC4112A**

**Course Description: Issues in Curriculum**

**NQF Credits: 20**  **NQF Level: 8**

The course focuses on key questions relating to curriculum, pedagogy and assessment in South African schools. It draws on a range of theoretical perspectives to understand these questions, to research them and to develop strategies for improving teaching and learning in school.

**Course Code: EDUC4018A**

**Course Description: Issues in Management and Leadership**

**NQF Credits: 20**  **NQF Level: 8**

This course engages with definitions of leadership within the context of educational institutions and examines critically the main theories of school leadership. Issues that are addressed include new approaches to leadership in education, differences between management and leadership, the development of leadership and management skills, and different styles of management. The course further engages with the concept of school leadership and management in school change and how this helps to manage a school as a learning organisation.

**Course Code: EDUC4107A**

**Course Description: Language, Literacy and Communication**

**NQF Credits: 20**  **NQF Level: 8**

This course focuses on key concepts such as oracy, literacies, critical literacy, visual literacy, multiliteracies; the complex processes involved in becoming a reader/viewer, writer, designer and performer of a range of text types; the social, cultural and linguistic factors that impact on learners’ development as readers/viewers, writers, designers and performers of texts and teaching approaches and strategies which support language and literacy learning, styles, and ways of dealing with stress, teaching in ways that enhance emotional and social intelligence of learners, as well as responses to colleagues, learners and parents affected by HIV/AIDS. The course further focuses on mentoring for beginner teachers.

**Course Code: EDUC4029A**

**Course Description: Life Orientation**

**NQF Credits: 20**  **NQF Level: 8**

This course introduces candidates to the central principles, debates and underpinnings of the approach to the learning area: Life Orientation. Topics include the place of Life Orientation in the South African educational curriculum, Life Orientation and curriculum integration, assessment of the affective domains and the development and analysis of learner support materials.
Course Code: EDUC4019A  
Course Description: Issues in Mathematics Education (Block Release)  
NQF Credits: 20  
NQF Level: 8  
There are three interrelated components in this course. The first component focuses on selections from school mathematics and how these are taught and learnt. The remaining two components consolidate the mathematics above in candidates’ professional practice by introducing candidates into scholarly work on teaching and learning mathematics, and exploring the implications of related curriculum issues on their professional practise.

Course Code: EDUC4114A  
Course Description: Arts Education I  
NQF Credits: 20  
NQF Level: 8  
The course covers the theory and practice of Arts Education. Students explore issues related to the teaching of the arts, as well as ways in which arts teaching methodologies can be used across the curriculum.

Course Code: EDUC4115A  
Course Description: Arts Education II  
NQF Credits: 20  
NQF Level: 8  
This course covers studio practice of Arts Education. Students develop and present an independent body of work and an accompanying research paper in one or more of the Arts disciplines in relation to critical classroom practice. The role of the art teacher as artist-teacher-researcher is explored.

Course Code: EDUC4125A  
Course Description: Contemporary Issues in Early Childhood Education  
NQF Credits: 20  
NQF Level: 8  
This course deepens conceptualisations of childhood from a critical perspective and reads these against teacher identity and practice. It locates itself within the African context where candidates will analyse the impact of multiple factors that affect the quality of provisioning in early childhood education. The course draws together theories and research in early childhood in order to consider the implications for practice.

Course Code: EDUC4126A  
Course Description: Mathematics and the Young Child  
NQF Credits: 20  
NQF Level: 8  
This course deepens candidates’ conceptual and procedural understanding of mathematics and mathematical teaching and learning in the early years. This includes current research in mathematics education. Candidates will be required to apply this knowledge to practice.

Course Code: EDUC4127A  
Course Description: Development of online materials  
NQF Credits: 20  
NQF Level: 8  
This course provides an overview of the main models and theories of instructional and learning design in the field of e-Learning; and development and evaluation of a range of online teaching and learning materials. Candidates are expected to engage in key debates in learning theory and in materials design and to produce and justify (theoretically and in terms of research on learning efficacy) a set of online learning materials suitable for a particular teaching and learning context.

Course Code: EDUC4128A  
Course Description: Issues in History Education  
NQF Credits: 20  
NQF Level: 8
This course covers historical thinking and identity and how this relates to History Education; The History educator and the historiography of Africa; and Teaching controversial and hurtful pasts.

Course Code: EDUC4168A  
Course Description: Sociological Issues in Education  
NQF Credits: 20  |  NQF Level: 8  
This course includes selected topics in sociological theory, the sociology of curriculum, the sociology of schooling, and the sociology of development and underdevelopment, as they have been engaged and debated in sociology in education. The course includes an examination of the history of ideas in sociology, and systematic engagement with contemporary debates and disputes.

Course Code: EDUC4167A  
Course Description: Ethical Issues in Education  
NQF Credits: 20  |  NQF Level: 8  
This course includes selected topics in ethics and the related areas of moral philosophy and the philosophical study of professionalism, as they have been developed and debated in the philosophy of education. The course includes examination of the history of ideas in ethics, and systematic engagement with contemporary debates and disputes in the discipline.

Course Code: EDUC4165A  
Course Description: Deaf Education I  
NQF Credits: 20  |  NQF Level: 8  
This course introduces candidates to sign language, Deaf culture and the Deaf communities within South Africa. The primary aim is to enhance the candidates’ understanding of the Deaf learner, with sign language being the focus within the educational context. It introduces candidates to contemporary issues and debates both nationally and internationally. In addition the course deals with language and reading instruction and the role of the teacher of the Deaf. The focus is on the application of the theory of Deaf education in practical classroom situations and explicitly links to South African Sign Language (SASL) and the Deaf community.

Course Code: EDUC4166A  
Course Description: Deaf Education II  
NQF Credits: 20  |  NQF Level: 8  
This course builds on the knowledge and skills acquired in Deaf Education I and focuses on more advanced linguistic and practical aspects of South African Sign Language (SASL). In line with the Bilingual Education paradigm, Sign Language is viewed as the first language of the Deaf learner, and literacy learning discussed from a second language learning perspective. The course also discusses Sign Language and the cognitive development of the Deaf learner. Issues such as language development, social development, creativity and memory are discussed from both a theoretical and practical perspective. In order to effectively link theory and practice, the course includes a practical intervention component.

Course Code: EDUC4090A  
Course Description: Child Development and School Learning  
NQF Credits: 20  |  NQF Level: 8  
This course examines the current debates and theories about child development and learning. Drawing from developmental psychology and pedagogy, the course thoroughly examines the theories of learning, teaching and development, with specific emphasis on the development and learning at primary level of schooling. The course will further explore classroom practices of teaching and learning, against the background of the specific curriculum and the institutional context in which these take place. The practices of schooling in South Africa, and the specific curriculum practices that inform and shape classroom practices will be examined with a view of understanding their possible consequences on pupils learning and development.
Course Code: EDUC4091A  
Course Description: Personal Growth for Teachers and Mentoring  
NQF Credits: 20  
NQF Level: 8

The course emphasises professional development. The first component focuses on the personal development of teachers. Using the frame of the Emotional Geography of Teaching (Hargreaves), it explores case studies of teachers’ life histories reflecting in their teaching styles, ways of dealing with stress, teaching in ways that enhance emotional and social intelligence of learners, as well as responses to colleagues, learners and parents affected by HIV/AIDS. The second component focuses on mentoring for beginner teachers. Using a framework of mentoring as socialisation into the practice of teaching, it presents findings of research studies into mentoring, provides practical skills and processes for mentoring, strengthens the mentors’ abilities to reflect on their craft knowledge and deals with the assessment of student teachers.

Course Code: EDUC4196A  
Course Description: Research Design  
NQF Credits: 0  
NQF Level: 8

The course assists students to develop the concepts, skills and processes needed to develop a small scale, usually qualitative, research project. The course enables students to design a viable research proposal and complete an application for ethics clearance in close collaboration with their supervisor. The course further supports students to organize and analyse their data, again in close collaboration with their supervisor. Students are then required to present their proposals and reports to their peers and lecturers and to receive formative feedback.

Course Code: EDUC4199A  
Course Description: Technical Vocational Education and Training (TVET)  
NQF Credits: 20  
NQF Level: 8

The first part of this course examines Engineering Graphics and Design Education; it discusses the pedagogical content knowledge in teaching and learning Engineering Graphics and design and allows candidates to deal with issues of teaching and learning in Engineering Graphics and Design and to address the challenges experienced by both the in-service teachers and the learners. The second part of the course examines Engineering Technology Education; it discusses the technological pedagogical content knowledge in teaching and learning technology subjects and allows candidates to integrate technology in their teaching to prepare a community that is globally competitive in issues of technology application in the learning of technology subjects like Electrical, Civil and Mechanical technologies.

Course Code: EDUC4200A  
Course Description: Issues in English Education  
NQF Credits: 20  
NQF Level: 8

This course provides a theoretical framework for English education by bringing the principles and practices of teaching to bear upon the discipline of English in its many forms. An emphasis is placed on pedagogies and curricula for the 21st century with a particular view to their application within a South African context.

Course Code: EDUC4201A  
Course Description: Language and Literacy Theories and Practices  
NQF Credits: 25  
NQF Level: 8

This course exposes students to key theories, debates and practices in the field of language and literacy education. Language and literacy are conceived of as social practices that are embedded in the power relations of schooling systems and their broader social contexts.
### Course Code: EDUC4202A
**Course Description:** Issues in Mathematics Education Research  
**NQF Credits:** 25  
**NQF Level:** 8  

The course introduces students to key issues in mathematics education research with specific attention to learning, teaching and assessing mathematics. The course includes issues such as learner thinking, errors and misconceptions; concepts related to teacher knowledge including subject matter knowledge, pedagogical content knowledge and mathematical knowledge for teaching; language and communication in mathematics; and aspects of assessment. In all aspects of the course attention is given to international and local literature, with particular focus on the South African context.

### Course Code: EDUC4203A
**Course Description:** Mathematics and Mathematical Thinking I  
**NQF Credits:** 20  
**NQF Level:** 8  

This course deepens candidates’ mathematical knowledge and providing a more advanced perspective on key aspects of the secondary school curriculum with particular focus on Function and Calculus. It also deals with research related to the teaching and learning of the mathematical content in focus, with additional attention to the essential underlying concepts and how these are best taught and learned. Candidates make use of technology in their study of mathematics in this course.

### Course Code: EDUC4204A
**Course Description:** Mathematics and Mathematical Thinking II  
**NQF Credits:** 20  
**NQF Level:** 8  

This course focuses on deepening candidates’ mathematical knowledge and providing a more advanced perspective on key aspects of the secondary school curriculum with particular focus on Euclidean geometry and Statistics. It also deals with research related to the teaching and learning of the mathematical content in focus, with additional attention to the essential underlying concepts and how these are best taught and learned. Candidates make use of technology in their study of mathematics in this course.

### Course Code: EDUC4205A
**Course Description:** Key Issues in Science Education Research  
**NQF Credits:** 25  
**NQF Level:** 8  

The course investigates key issues in Sciences Education research and comprises four components: The first component introduces students to the fundamental aspects of the history and philosophy of science; scientific literacy; and the nature of science. The second examines the role of language in science as well as associated socio-cultural issues and ways in which language can be mobilized as a resource in the teaching and learning of science. The third is an introduction to the aims and philosophy of practical work, focussing on both theoretical and practical issues of implementation in schools. The fourth section deals with socio-scientific issues and engages students in the examination of ways of improving the scientific literacy of learners through more relevant school science.

### Course Code: EDUC4206A
**Course Description:** Chemistry and Physics for Educators I  
**NQF Credits:** 25  
**NQF Level:** 8  

This course covers selected topics in Classical Physics and the Chemistry of acids and bases. The physics topics are motion, fluids, heat, sound, light, electricity, and magnetism. Issues of pedagogy relevant to the teaching of these topics, and current and possible future school science curricula in South Africa, are also incorporated. The chemistry part of the course aims to introduce students to the evolution of understanding of acid base concepts through an historical approach. In the process of exploring acids and bases, students are introduced to a number of important related topics which are all relevant to the teaching of the school curriculum.
Course Code: EDUC4207A  
Course Description: Chemistry and Physics for Educators II  
NQF Credits: 20  
NQF Level: 8

This course covers chemistry and physics. Topics for chemistry include the history of acids and the historical evolution of understanding of acid base concepts; chemical kinetics, electrochemistry and chemical systems. Topics for physics include modern physics and the study of relativity; atomic structure, condensed matter, nuclear physics, elementary particles, and cosmology and astrophysics.

Course Code: EDUC4208A  
Course Description: Life Sciences for Educators I  
NQF Credits: 20  
NQF Level: 8

This course deepens candidates’ subject matter knowledge and providing a more advanced perspective on key aspects of the secondary school curriculum such as: Cell biology, Genetics and Physiology. The course is undergirded by theories and research related to the teaching and learning of Life Sciences such as pedagogical content knowledge focusing on aspects such as misconceptions, difficulties associated with the teaching and learning of these topics and socio-cultural and linguistic issues.

Course Code: EDUC4209A  
Course Description: Life Sciences for Educators II  
NQF Credits: 20  
NQF Level: 8

This course deepens candidates’ life sciences knowledge and providing a more advanced perspective on key aspects of the secondary school curriculum such as: Evolution, Biodiversity and the Environment. It deals with subject matter knowledge for teaching evolution, biodiversity and environmental issues. It also deals with research related to the teaching and learning of these topics including controversial aspects of evolution, culture and religion and environmental issues. Candidates make use of technology in their study of the biological content in this course.

Course Code: EDUC4273A  
Course Description: isiZulu in Education  
NQF Credits: 20  
NQF Level: 8

This course equips students’ creativity and innovative ideas for transforming the teaching of isiZulu within the context of decolonisation. Topics includes indigenous language in a multilingual, 21st-century South African classroom. The course pay attention to key debates in language education underlying historical and ideological factors in the construction of language curricula. The course covers transformative and multilingual pedagogies; curriculum construction and materials design; and research methodologies in language education.

Master of Education

Course Code: EDUC7013A  
Course Description: Issues in Curriculum  
NQF Credits: 30  
NQF Level: 9

This course introduces and grounds students in multiple theories of the relationship between curriculum and society from modern and post-modern perspectives. Both dominant and less dominant perspectives will be analysed bearing in mind South Africa’s context in Africa and in the world. The course focuses on theory, general principles, and concepts that may be used to understand any curriculum including South African curriculum statements. This enables theoretically informed research of any aspect of curriculum, such as curriculum change, curriculum policy, and curriculum practice, among others.

<td>This course develops students’ understanding of learning, by means of a history of ideas and focused study of key contemporary debates and research perspectives in the field. It provides a background for further study in relation to issues such as school and academic learning, pedagogy, assessment and the integration of ICTs in education. The contemporary terrain of the study of learning produces various, often highly contentious, accounts of the generative relationships between mind, brain, and cultural artefacts and practices. These theories and research traditions all have implications for the way we understand issues in curriculum and pedagogy.</td>

Course Code: EDUC7094A
Course Description: Teaching and Learning Mathematics

This course deals with understanding and researching mathematics classrooms. It covers major theories of learning, including cognitive, constructivist, socio-cultural and situative theories. The course explores the implications of these theories for what counts as mathematical knowledge in the classroom and for pedagogy. The course examines ways of researching teaching and learning in South African mathematics classrooms, looking particularly at teacher-learner interaction, including teacher questioning and learner participation.

Course Code: EDUC7095A
Course Description: Leadership and Management of Teaching and Learning

This course focuses on the roles of management and leadership in learning organisations. This includes: curriculum planning, development, implementation and evaluation, the implications for leadership and management structures and systems; the role of the principal, managing the learning environment and quality assurance.

Course Code: EDUC7096A
Course Description: Issues in Educational Leadership and Management

The course introduces candidates to issues in the field of school leadership and management. It concentrates on contemporary issues around the impact of school effectiveness and school improvement research, leadership of organisations, schools as organisations, the culture of organisations, management of school change, management and governance, school resource management and quality and accountability. It draws on the large body of literature and research in the fields of school leadership.

Course Code: EDUC7099A
Course Description: Managing Educational Change

This course focuses on the external factors that impact on leading and managing schools. The focus will be on change issues such as globalisation and information technology, teacher recruitment and retention, fiscal and accountability policies and youth culture. How these wider factors influence and shape institutional decisions will be analysed in both the wider educational and South African context.

Course Code: EDUC7131A
Course Description: Education Skills and Development

This course introduces candidates to the main debates about the role of education and skills in economic and social development. It explores the relationship between education, state formation, and patterns of economic growth and social development, as well as relationships between education systems and labour markets, and education and work.

Course Code: EDUC7132A
Course Description: Higher Education, Regional Development and the Knowledge Society

This course investigates the processes of ‘learning’ taking place at the level of the firm, and the contribution of higher education to this learning process through partnerships with higher education and industry.
<table>

This course unpacks the notion of risk, living in a risk society, how risks emerge and manifest and a consideration of a systemic approach to sustainability.

**Course Code:** PSYC7140A  
**Course Description:** Economic Concepts for Research in Education, Skill Formation and Work  
**NQF Credits:** 30  
**NQF Level:** 9

This course focuses on the development and labour market economics in labour markets – the economic returns to education is explored. Topics includes an introduction to economics of education; industrialisation and development; industrial policy; theorisation of work; the South African labour market and economy, and contemporary issues in labour markets.

### In the field of Educational Psychology

**Course Code:** PSYC7046A  
**Course Description:** Adjustment and Maladjustment  
**NQF Credits:** 20  
**NQF Level:** 9

This course demonstrates theories of adjustment and maladjustment, including conventional diagnostic classifications and alternative approaches in psychopathology.

**Course Code:** PSYC7048A  
**Course Description:** Counselling Theory and Practice  
**NQF Credits:** 30  
**NQF Level:** 9

This course is a study of important theories of counselling and personality, and their applications to counselling techniques; training in a variety of counselling techniques, and their application in the clinic, school and community.

**Course Code:** PSYC7047A  
**Course Description:** Clinical Procedures and Psycho-educational Assessment  
**NQF Credits:** 30  
**NQF Level:** 9

This course is a study of theoretical issues in psycho-educational assessment, training in models of psycho-educational assessment, case management and co-ordination, vocational assessment and counselling and consultation.

**Course Code:** PSYC7049A  
**Course Description:** Educational Psychology in the Community  
**NQF Credits:** 30  
**NQF Level:** 9

This course involves the application of psychology in the field of education, with particular reference to community-based intervention. It is an integrated theoretical and practical course based on community psychology and mental health.

### Postgraduate Certificate in Education (PGCE)

**Course Code:** EDUC5218A  
**Course Description:** Theory of Education A (part time)  
**NQF Credits:** 20  
**NQF Level:** 7

This course draws on the disciplinary foundations of psychology and philosophy to explore what it means to teach and learn. The course covers issues in curriculum, pedagogy; the theory of knowledge; teaching as a profession; and theories of human development. The course introduces central concepts that enable students to think about their teaching in ways that enhances their capacity to mediate knowledge, and leads to human flourishing of themselves as prospective teachers and of those they teach.
Course Code: EDUC5243A
Course Description: Theory of Education B (part time)
NQF Credits: 20  NQF Level: 7
This course explores what it means to consider aims, challenges and conditions of possibility for educating and assessing learners in the context of South African society. The course draws on disciplinary foundations of sociology to familiarise students with important issues in understanding human rights; diversity and the implication of these for approaches to inclusive education. The course also considers what it means to be a practicing teacher within the context of contemporary South African education policy and law.

Course Code: EDUC5178A/EDUC5244A
Course Description: Accounting
NQF Credits: 24  NQF Level: 7
This course focuses on the methodology of effectively teaching accounting in the FET band of Basic Education at schools across South Africa. It equips candidates with the curriculum and pedagogical knowledge needed to become a subject specialist in accounting education, which is essential in preparing secondary learners in the various fields of accounting. This methodology course builds on the content knowledge that candidates who major in accounting acquire during their academic studies. It is designed to prepare candidates for practical classroom teaching, and engage them in thinking about and understanding issues related to the teaching and learning of Accounting. It Introduces Curriculum and Assessment Policy Statement (CAPS) for Accounting at Grades 10 to 12, to gain insight into the complex nature and subject discipline theory, outcomes in teaching accounting, different approaches to teaching accounting and preparation for teaching experience.

Course Code: EDUC5194A/EDUC5259A
Course Description: Accounting Teaching Experience
NQF Credits: 16  NQF Level: 7
Student teachers spend 10 weeks annually in a school-based placement, under the supervision of a professional teacher and a university tutor. They are required to teach accounting to Grades 10 and/or 11 classes during this period. Student teachers are required to analyse the pedagogical thinking, planning and delivery of the lessons they observe. With their teacher’s support, they are required to prepare, deliver and assess learning in a range of lessons during their placement. They are observed by both their supervising teacher and university tutor and participate in post-lesson reflective discussions where they receive feedback and further guidance. Candidates are required to maintain a preparation file, a reflective journal and complete their activities which link theoretical issues from their courses to the practice and theory underpinning classroom teaching.

Course Code: FINA5021A/EDUC5256A
Course Description: Visual Arts
NQF Credits: 24  NQF Level: 7
This course enables a professional Fine Arts graduate to be able to approach a teaching and learning situation in the Visual Arts with confidence. Candidates interrogate the Curriculum and Assessment Policy Statements (CAPS) document for visual arts and develop a thorough knowledge of the requirements for the syllabus in the Further Education and Training (FET) Phase of schooling. The candidates encounter and experiment with a variety of teaching methodologies and practise the effective, critical and creative teaching of visual arts.

Course Code: FINA5022A/EDUC5273A
Course Description: Visual Arts Teaching Experience
NQF Credits: 16  NQF Level: 7
Student teachers spend 10 weeks annually in a school-based placement, under the supervision of a professional teacher and a university tutor. They are required to teach Visual Arts to Grades 10 and/or 11 classes during this period. Student teachers are required to analyse the pedagogical thinking, planning and delivery of the lessons they observe. With their teacher’s support, they are required to prepare, deliver and assess learning in a range of lessons during their placement.

**Course Code:** EDUC5090A/EDUC5222A  
**Course Description:** Life Orientation Senior Phase  
**NQF Credits:** 24  
**NQF Level:** 7  

This course prepares candidates to teach life orientation in Grades 7-9 (Senior Phase). It develops an understanding of the aims, principles and scope of life orientation as a senior phase learning area. The course therefore develops knowledge and skills pertaining to learning and teaching the main focus areas of life orientation in the senior phase. This consists of the development of the self in society; health, social and environmental responsibility; constitutional rights and responsibilities; the world of work, and the benefits of physical fitness. Candidates will be helped to develop creative and age-appropriate learning experiences for diverse classrooms in the South African context.

**Course Code:** EDUC5125A/EDUC5269A  
**Course Description:** Life Orientation FET Teaching Experience  
**NQF Credits:** 16  
**NQF Level:** 7  

This course provides the practical experience or service learning required to enable candidates to acquire the pedagogical skills to effectively teach life orientation in the Further Education and Training (FET) Phase in schools in South Africa. Student teachers spend 10 weeks annually in a school-based placement, under the supervision of a professional teacher and a university tutor. They are required to teach life orientation to Grades 10-12 classes during this period. Student teachers are required to analyse the pedagogical thinking, planning and delivery of the lessons they observe. With their teacher’s support, they are required to prepare, deliver and assess learning in a range of lessons during their placement.

**Course Code:** EDUC5207A/EDUC5232A  
**Course Description:** Life Orientation (Senior Phase) Teaching Experience  
**NQF Credits:** 24  
**NQF Level:** 7  

This course provides the practical experience or service learning required to enable candidates to acquire the pedagogical skills to effectively teach life orientation in the Senior Phase in schools in South Africa. Student teachers spend 10 weeks annually in a school-based placement, under the supervision of a professional teacher and a university tutor. They are required to teach life orientation to Grades 7-9 classes during this period. Student teachers are required to analyse the pedagogical thinking, planning and delivery of the lessons they observe.

**Course Code:** EDUC5184A/EDUC5251A  
**Course Description:** Life Sciences  
**NQF Credits:** 24  
**NQF Level:** 7  

This course prepares prospective Further Education and Training (FET) life sciences teachers for effective teaching of the subject through a consideration of their content knowledge and the development of their pedagogical knowledge. This is done through an introduction to the curriculum; its goals and the knowledge, skills, values and attitudes that should be promoted at FET level. This is done through engagement with the literature on the teaching of concepts in the life sciences; through practice of learnt pedagogies, and through reflection by candidates on their developing pedagogical and content knowledge.

**Course Code: EDUC5181A/EDUC5247A**

**Course Description: Economics**

NQF Credits: 24  
NQF Level: 7

The course prepares candidates to teach economics in Grades 10 to 12 the Further Education and Training (FET) Phase. It exposes them to FET subject methodology in economics which focuses on the knowledge of economics they have acquired through their previous degree and approaches to teaching economics in the FET phase. This economics’ subject methodology together with its associated teaching experience makes candidates eligible to teach up to grade 12 in economics.

**Course Code: EDUC5161A/EDUC5239A**

**Course Description: (ICT) Information and Communications Technology Literacy**

NQF Credits: 12  
NQF Level: 7

This course entails assessing and developing basic Information and Communications Technology (ICT) skills for educational purposes. It covers skills in word processing; multimedia presentations; the use of spreadsheet software; the use of interactive smartboards and handheld tablets.

**Course Code: EDUC5177A**

**Course Description: Theory of Education**

NQF Credits: 40  
NQF Level: 7

This course explores what it means to educate, and considers the aims, challenges and conditions of possibility for educating in contemporary South African society. The course has a disciplinary foundation (Philosophy, Psychology and Sociology) to familiarise candidates with the disciplinary foundations as applicable to Education. The course is therefore inter-disciplinary. It covers issues in curriculum, pedagogy and assessment; theory of knowledge; teaching as a profession, human rights; sociological, psychological and philosophical theories of childhood and child development; diversity and inclusion, religions and world views; and contemporary South African education policy and law.

**Course Code: EDUC5191A/EDUC5226A**

**Course Description: Social Sciences**

NQF Credits: 24  
NQF Level: 7

This course introduces the relationship between the discipline of teaching history and geography. This course focuses on the identification of central processes of history and geography; their application in designing learning materials: activities, and eventually full lessons for Intermediate and Grades 7 to 9 learners. It also covers engagement with historical thinking; exploration of the relevance of history and geography to learners; an introduction to the social sciences curriculum; classroom management demands relating to fieldwork and classroom teaching; an introduction to assessment in social sciences and preparation for teaching experience.

**Course Code: EDUC5193A/EDUC5228A**

**Course Description: Mathematics (Senior Phase)**

NQF Credits: 24  
NQF Level: 7

This course familiarises candidates with the content that is covered in the senior phase level. Candidates are expected to be knowledgeable with the content at this phase in order to teach it. The demonstration of understanding content at this phase will be shown through competency in finding answers to questions posed; understanding mathematical content and presenting it in multiple representations; organisation of
the content in forms comprehensible to learners; organisation of activities that enable learners to explore and deduce viable mathematical knowledge; and the use of learner cognition and prior knowledge to build new mathematical understanding.

**Course Code:** EDUC5192A/EDUC5227A  
**Course Description:** Natural Sciences  
**NQF Credits:** 24  
**NQF Level:** 7  
This course prepares prospective intermediate phase natural sciences teachers for effective teaching of the subject through the development of their content knowledge and pedagogy. This is done through an introduction to the curriculum; its goals and the knowledge, skills, values and attitudes that should be promoted at intermediate phase. This is done through engagement with the literature on the teaching of concepts in the natural sciences, through practice of learnt pedagogies, and through reflection by candidates on their developing pedagogical content knowledge.

**Course Code:** EDUC5189A/EDUC5220A  
**Course Description:** Economics and Management Sciences  
**NQF Credits:** 24  
**NQF Level:** 7  
This course equips teachers with the methodology necessary for the effective teaching of economic and management sciences (a learning area introducing learners to Accounting, Business Studies and Economics) in the senior phase of Basic Education at schools across South Africa. The teaching and learning within the economic and management sciences learning area is explored and emphasis is placed on the unique but interrelated nature of accounting, business, studies and economics which together make up the economic and management sciences course.

**Course Code:** EDUC5100A/EDUC5230A  
**Course Description:** Economics and Management Sciences Teaching Experience  
**NQF Credits:** 16  
**NQF Level:** 7  
Student teachers spend 10 weeks annually in a school-based placement, under the supervision of a professional teacher and a university tutor. They are required to teach economic and management sciences to Grades 8 and 9 classes during this period. Student teachers are required to analyse the pedagogical thinking, planning and delivery of the lessons they observe. With their teacher’s support, they are required to prepare, deliver and assess learning in a range of lessons during their placement.

**Course Code:** EDUC5205A/EDUC5229A  
**Course Description:** Arts and Culture Teaching Experience  
**NQF Credits:** 16  
**NQF Level:** 7  
Student teachers spend 10 weeks annually in a school-based placement, under the supervision of a professional teacher and a university tutor. They are required to teach arts and culture (creative arts) to Grades 8 and/or 9 classes during this period. Student teachers are required to analyse the pedagogical thinking, planning and delivery of the lessons they observe.

**Course Code:** EDUC5164A/EDUC5224A  
**Course Description:** Languages (Sesotho)  
**NQF Credits:** 24  
**NQF Level:** 7  
This course prepares candidates for general language and literacy education and core skills for teaching Sesotho at South African high schools. It also ensures that they have the basic analytical skills and a sound knowledge of method and theory on which to base their teaching. The course includes topics such as reading literacy, language acquisition, literature and methodologies. There is a strong emphasis on teaching languages within multicultural classroom contexts and on teaching at both home and first additional language levels.

NQF Level: 7
This course includes teaching experience at schools where candidates prepare lessons, teach and carry out classroom observations. Teaching experience prepares candidates for Further Education and
Training (FET) language and literacy education and core skills for teaching English at South African high schools. This includes micro-teaching practical, lesson plans, teaching portfolios, lesson observations and reflections.

**Course Code: EDUC5170A/EDUC5231A**

**Course Description: Languages (English) Teaching Experience**

**NQF Credits: 16**

This course includes teaching experience at schools where candidates prepare lessons, teach and carry out classroom observations. Teaching experience prepares candidates for general language and literacy education and core skills for teaching English at South African high schools. The course includes micro-teaching practical, lesson plans, teaching portfolios, lesson observations and reflections.

**Course Code: EDUC5182A/EDUC5249A**

**Course Description: Geography**

**NQF Credits: 24**

This course introduces candidates to teaching and learning within geography at the Further Education and Training (FET) Phase. It foregrounds the central concepts of geography in the design of coherent lessons and learning activities, examines options of productive teaching strategies and learning activities appropriate for teaching key geographical knowledge and concepts. It also covers the location, adaptation and use of geographical teaching and learning resource materials, classroom management demands relating to fieldwork and classroom teaching, monitoring learning and assessment in geography classes, common misconceptions around key geographical topics, development of the professional identity of a geography teacher and preparation for teaching experience.

**Course Code: EDUC5199A/EDUC5266A**

**Course Description: Geography Teaching Experience**

**NQF Credits: 16**

Student teachers spend 10 weeks annually in a school-based placement, under the supervision of a professional teacher and a university tutor. They are required to teach geography to Grades 10 and/or 11 classes during this period. Student teachers are required to analyse the pedagogical thinking, planning and delivery of the lessons they observe. With their teacher’s support, they are required to prepare, deliver and assess learning in a range of lessons during their placement.

**Course Code: EDUC5200A/EDUC5267A**

**Course Description: History**

**NQF Credits: 24**

This course prepares candidates with an academic major in history to become effective secondary school history teachers. The focus of this course is on Grades 10 to 12, the Further Education and Training (FET phase). This requires candidates to develop an ability to reflect on their views of what history is and why it should be taught; knowledge about the debates about the place of history in the FET school curriculum of a country with the diversity and needs of South Africa; the ability to engage critically with the history curriculum; engagement with historical thinking and provides extensive opportunity to engage practically with appropriate teaching methodology.

**Course Code: EDUC5200A/EDUC5267A**
