

POSTGRADUATE FUNDING OPPORTUNITIES

2022/2023

UNIVERSITY OF THE
WITWATERSRAND,
JOHANNESBURG

POSTGRADUATE
ASSOCIATION

NOTES

This booklet provides information on potential sources of financial support for postgraduate students. There are various categories of financial assistance administered by the University and many other agencies and donors. This booklet will be a useful resource in identifying potential bursaries and scholarships.

The scholarships and bursaries listed in this version of the booklet will open for application for the 2022 academic year with various stated deadlines, unless otherwise specified. In the majority of cases, interested students must apply for postgraduate funding support preceding the year of study for registration toward their postgraduate Honours, Masters or Doctoral degree (e.g. applicants should apply by the deadlines in 2022, for 2023).

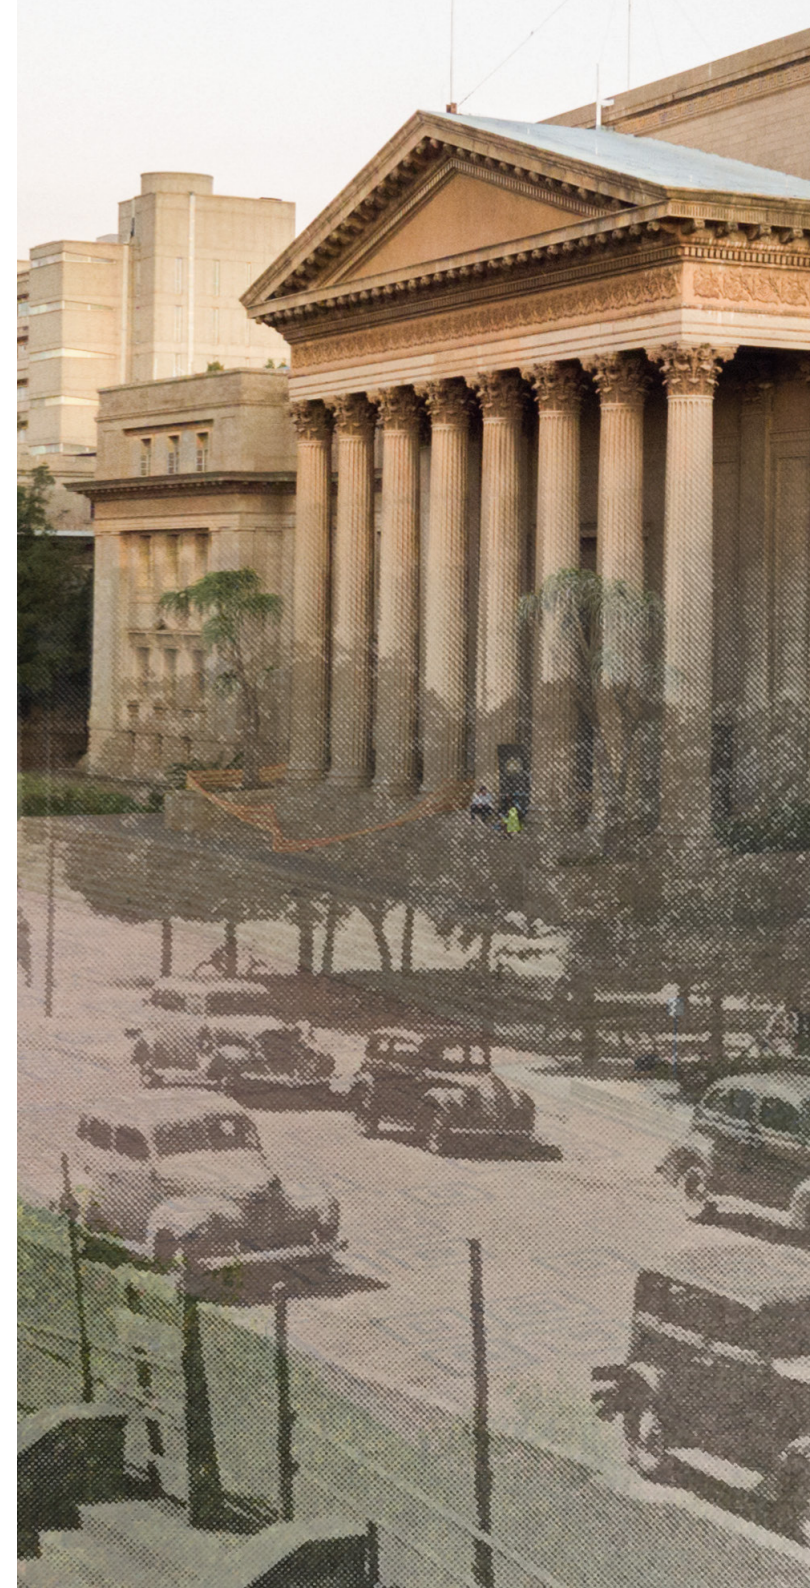

The financing of postgraduate study invariably takes the form of a combination of scholarships or bursaries, part-time employment within or outside the University, student loans (personal – not NSFAS), personal savings and assistance from families. Note that in certain cases awards may be held concurrently, in others, not. Concurrency rules are detailed where relevant.

The content of this booklet is updated annually and is available on the Postgraduate website. www.wits.ac.za/postgraduate/. Additionally, the booklet is also available in hardcopy from the PG Funding Office. Please read through the information carefully to familiarise yourself with the funding opportunities offered through the University as well as those offered via private and third-party organisations.

The Postgraduate Affairs Office extends their best wishes for success in your studies.

WITS INTERNAL BURSARIES

Postgraduate Merit Award

The aim of the University Postgraduate Merit Award (PMA) is to assist graduates to complete Honours, Masters or PhD degrees by research or by a combination of course work and research on both a full-time and part-time basis. No application is necessary for the Postgraduate Merit Award. Please note, the Award does not fund all courses.

PLEASE NOTE REVISED 2020 RULES (VCO) for the PG Merit Award

- HONOURS: 70% Average in 3rd year of an undergraduate Degree
- MASTERS: 75% Average in Honours, 4th Year of a professional degree or PG Diploma
- PhD: Masters submission must be done within 2 years full time or 3 years part time
- Provisional offers will be sent to eligible students
- Students that do not meet this criteria will not receive any communication.
- Please refer to the terms and conditions on the financial aid web page for more details.

Terms and Conditions - PMA

- Full-time students that have been awarded the PMA need to fulfil duties with their Schools each block
- The student needs to contact their school administrator once registered. Their duties will be assigned to them and Schools will submit a list of all the students who have completed their duties for each block.

Schools need to submit lists by the following dates:

- 1st block – 6th April
- 2nd block – 31st May
- 3rd block – 2nd September
- 4th block – 31st October

Discretionary Fund Funding Opportunity

The **Discretionary Fund** has been made available through the generosity of various corporates, trust funds and individual donors. This fund will provide additional opportunities to undergraduate and postgraduate students in 2022. While the funding is not guaranteed, registered students who wish to be considered, should apply.

Criteria for eligibility may include:

- Academic achievement
- Discipline specific depending on the donor

Applications

- Please apply on the [student self-service portal](#)
- Under Financial Aid
- Apply for Scholarships and Bursaries

Your application will be added to a database which will be used to pair students that match donor criteria when the University receives such funding.

Please note that this application is a separate application to the GAP Funding application.

This application does not guarantee you funding for 2023.

Should you need assistance with your Discretionary Fund application, you can email the Wits Financial Aid & Scholarships Office (FASO) directly:

You will only be contacted via your student email address, and only if you qualify for the funding.

University Administered Awards

Name	Fields covered	Value	Eligibility and Closing Dates	Period of Support	Contact Person/Weblink
Collaboration Programme between the University of the Witwatersrand (Wits) and Centre National de la Recherche Scientifique (CNRS)	All	Grant covers 3 years of project funding. R100 000 per student per year for 3 years. Can cover travel and tuition but cannot exceed this amount.	<p>The scholarship is open to PhD candidates from Wits University and the French National Centre for Scientific Research (CNRS). Up to 10 PhD candidates (5 at CNRS, 5 at Wits) will receive a 3-year scholarship to conduct their research project in any discipline, with additional support to travel between the two countries. The scholarships will be shared equally between the two institutions and every selected student will be expected to spend time in each other's organisation over the course of their PhD.</p> <p>The PhD candidates will be selected from qualifying projects at the two institutions in line with the strategic investment for developing and strengthening Wits-CNRS partnership. The bursary can be awarded to South African students with no restriction on the demographics related to gender, race, age or discipline.</p> <p>A minimum aggregate for the relevant Masters of 75%, which is regarded as a degree awarded with distinction</p> <p>CLOSED TILL 2024 UNTIL 1ST CYCLE ENDS</p>	3 years	<p>derci_amois@cnrs.fr or Amel FEREDJ, the Deputy Director for Africa, Middle East & India : amel.feredj@cnrs-dir.fr</p> <p>Lucille.Mooragan@wits.ac.za</p> <p>For more information on the call, please visit https://international.cnrs.fr/wp-content/uploads/2021/01/Joint-PhD-Wits-CNRS_call-2021_guidelines.pdf</p>
Phillip Vallentine Tobias Educational Bursary - 2022	All	50 000 - 60 000 per annum	The recipients are referred to as holders of the Phillip Tobias Educational Bursary. South African citizenship;	Based on satisfactory performance	Applications prepared by students must be emailed to Ms Lucille Mooragan (Lucille.Mooragan@wits.ac.za) in PDF format before the closing date, 16 February 2023.
HUAWEI SCHOLARSHIPS					Celine Steyn: celine.steyn@wits.ac.za

<p>Drone Council of South Africa (DCSA) and the Wits Business School (WBS) have established a fund to sponsor research on drone applications at Masters and Doctoral levels</p>	<p>Food or Medical Supplies for just-in-time last mile logistics. Public Infrastructure (maintenance, development, monitoring) Gas and Oil (Pipeline inspection and surveillance, boiler inspections) Telecommunications (mast inspections and repairs) Electricity (electrical pipeline inspections) Agriculture (surveying and mapping, crop spraying, disease tracking among other uses), Construction (progress monitoring, building inspections), Mining (stock pile monitoring, surveillance), Security (surveillance of critical infrastructure and assets)</p>	<p>Masters and Doctoral support varies according to specific criteria</p>	<p>A call for Expression of Interest (Eoi), is hereby made to Wits Masters and PhD current and prospective students to submit an Expression of interest</p> <p>Applicants must provide the following information with their application. Employment Status (Unemployed/Part-Time Employee/Permanent) Topic and a one-pager concept note 300-word motivation</p> <p>Closing date: mid-February</p>	<p>Based on satisfactory performance</p>	<p>Contact person: Enquiries and Eoi response will be sent to Professor Ephias Ruhode, Programme Director, Master of Management in the field of Digital Business, Ephias.Ruhode@wits.ac.za</p>

Scholarship for International Students

Name	Date of Application	Date of Interviews	General Comments	Contact Person/Weblink
Fulbright Scholarship	March/April of year preceding planned study	May/June (Interviews are 6-8 weeks after the submission of your applications. If you are not accepted for interviews, you will receive no communication from the Fulbright organisers).	For study in the United States for MA, PhD or non-degree purpose coursework relating to your PhD. Provides funding for a maximum of two years. In your application, stress the significance of your potential contributions to South Africa, and give detailed (though succinct) explanations as to why you need to study in the U.S. Some important points to note: 1) Fulbright does not allow you to apply to universities independently after you have received the award. They apply to universities through the IIE and will not necessarily apply to all of your universities of choice, particularly if they are expensive. You have to provide very strong motivation if you are set on a specific university or city. 2) In line with this, if you receive the Fulbright you will usually only discover which university you will be attending in roughly April of the year you leave. 3) If you receive the Fulbright, revise for your GREs. You will need to write both the standard GRE and the GRE for English Literature	Fulbright (USA) http://southafrica.usembassy.gov/fulbright_program.html
Rhodes Southern African Scholarships Programme	July/August of year preceding planned study	September (first round) and December (second round)	For study at the University of Oxford. Either for Masters or second undergraduate degree. Focus on extra-curricular activity and home-country benefit. Be prepared for grilling interviews from a panel of up to ten. Pay attention to detail in your motivation: questions are often derived from this. A dinner with the other applicants and members of the interview panel is held the night before and conversation contributes to the application process.	https://www.rhodeshouse.ox.ac.uk/scholarships/apply/
National Research Foundation (NRF) Scholarship	July of year preceding planned study	None	Generally with a bias towards empirical research, and only partial cost of support (PCS) available for international students. There are two assignments of money; the second being a dividing up of whatever money is left over after preferred choices are made. Be sure to stress home country benefit. Application on the NRF online submission system https://nrfs submission.nrf.ac.za/ . Information: https://www.nrf.ac.za/funding/framework-documents	Application on the NRF online submission system https://nrfs submission.nrf.ac.za/ Information: https://www.nrf.ac.za/funding/framework-documents

Name	Date of Application	Date of Interviews	General Comments	Contact Person/Weblink
Commonwealth Scholarship	August/September of year preceding planned study	October - December	For study in the UK at Masters or PhD level. Core requirements are home country benefit, and why studying in the UK is necessary and beneficial to your field. Requires a return to your home country after study. Particularly good if you plan to study in London as extra funding is provided. 'Split-site' funding (where you are based at two universities, one of which is in the UK, and the other South Africa) is also available. Application is through the University at which you are based, though some study institutions offer 'shared' funding which is applied for through that university.	Commonwealth (UK) http://cscuk.dfid.gov.uk/apply/
Chevening Scholarship	December of year preceding planned study	January - March	For study in the UK at Masters and PhD level (with preference for a Masters). Emphasis is on leadership potential, and impact on improving set UK Foreign Affairs Ministry objectives.	Chevening (UK) http://www.fco.gov.uk/en/about-us/what-we-do/scholarships/chevening/
FirstRand Laurie Dippenaar Postgraduate Scholarship for International Study	March of year of planned study	April (first round) and June (second round)	For Masters study. Emphasis is on being a 'game-changer'. This incorporates academic and leadership excellence. The second round involves interviews with a panel, but the final decision rests with Laurie Dippenaar himself. Emphasis is on main stream development goals. This scholarship can be extended for Doctoral study if it is awarded to a student for Masters.	https://bursaries.firstrand.co.za/Bursary/FirstRandLaurieDippenaarScholarship
Skye Scholarship	January of year of study	February-March	Generally, for Masters study. Emphasis is on pure academic achievement rather than leadership or community service. Look to apply at Universities (Cambridge for example) that offer shared Skye Scholarships as the Foundation looks to provide as many students as possible with funding. Also, a viable 'top-up' fund if you have partial funding elsewhere. Application is through the Dean of Faculty.	Information: http://skye.foundation.co.za/scholarships/postgraduate-scholarships/
Patrick and Margaret Flanagan Scholarship	August of the year before you wish to commence your study	Varies	Emphasis on female empowerment. Flanagan (UK – for South African women with a 75% or higher average)	https://www.advance-africa.com/Scholarships-and-Grants.html
SADC Annual Scholarships for Masters, Doctoral and Postdoctoral Studies and Research in Social Sciences	Social Sciences	The scholarship covers a monthly living allowance of USD 1,000.00 to cover essential expenditure, tuition fees, health insurance,	Be a citizen of a SADC Member State; Return to your country of citizenship after your scholarship has ended; Hold an appropriate undergraduate degree from a recognised university in a relevant field for a Master's programme; Hold a Masters Degree in a related subject that will enable you to gain entry onto a Doctoral and/or Postdoctoral programme at a university in the SADC region; and Provide the IELTS (Band 6) certificate or TOEFL (minimum score: 550 paper based, 213 computer based, 80 internet based) for courses in English for applicants from non-native English speaking countries.	Applications for SADC scholarships can only be submitted through the SADC National Contact Points at Member States level: https://www.sadc.int/member-states/ The deadline for applications is 30 April 2022.

		an economy class return airfare and housing allowance. The scholarship duration is 12–24 months (depending on the particular institution) for Masters and 36–48 months for PhD programmes.

External Statutory Funding

NRF DSI-NRF Postgraduate Student Scholarships

Postgraduate funding is intended to support Honours, Master’s and Doctoral candidates to pursue full-time studies at South African public universities, in all areas of Science, Engineering, Technology, Social Sciences and Humanities, including Indigenous Knowledge Systems, focusing on research aligned with one of the National Priority Research Areas. The overall percentage of supported students by the NRF will be 80% from the Science, Engineering and Technology (SET) disciplines and 20% from the Social Sciences and Humanities (SSH).

Name of Funding Opportunity (Bursary, Scholarship, Grant, Award etc.)	Fields Covered	Value and Academic Criteria	Period of Support	Application Procedure and Closing Dates	Eligibility Requirements	Contact Person and Weblink
NRF Honours Scholarships (General)	All areas of Science, Engineering, Technology, Social Sciences and Humanities, including Indigenous Knowledge Systems, focusing on research aligned with one of the National Priority Research Areas	Full Cost of Study (FCS): R144 700 pa based on need and academic merit ($\geq 75\%$) Partial Cost of Study (PCS): R105 700 pa based average mark of 65% - 74% in the previous degree	1 year	Applications for funding must be submitted to the university where students intend to register, through the NRF Online Submission System by accessing the link: https://nrfsubmission.nrf.ac.za/ Universities set their own internal cut-off dates for applications and applicants must abide by those dates. NRF Global Knowledge Partnerships (GKP)

South African students receiving NRF funding for Doctoral studies in South Africa are encouraged to incorporate a period of international training that forms an integral part of their doctoral training programme. International training opportunities must be identified and financed in consultation with the support of the doctoral supervisor(s) and the University. The NRF will facilitate international training opportunities but will not fund these placements. The existing international training opportunities for NRF funded doctoral students described below.

National Institute for the Humanities and Social Sciences

The NIHSS collaborates annually with the South African Humanities Deans Association (SAHUDA) to extend 150 scholarships per annum to full-time PhD students based at South African universities. The main objective of this programme is to promote scholarship and address inequities in the humanities and social sciences. To ensure that successful applicants are provided with structured intellectual and mentorship support, the NIHSS-SAHUDA cooperation has created an ambitious national doctoral programme for the humanities and social sciences.

Name of Funding Opportunity (Bursary, Scholarship, Grant, Award etc.)	Fields	Value	Period of Support	Application Procedure and Closing Dates	Eligibility and Academic Criteria	Bursary Provider/ Weblink
NIHSS Doctoral Scholarships Programme	Humanities and Social Sciences	A maximum scholarship of R140 000 per annum, with increases to be determined by NIHSS on an annual basis	3 years	Applications for funding must be submitted online of the NIHSS Grants Management System https://gms.nihss.ac.za/xaLogin/NIHSS/reglogin.aspx?ReturnUrl=%2fdefault.aspx	Scholarships are provided for postgraduate students studying in the humanities and social sciences; Strong academic record and support from the supervisor of the study	Further information can be obtained from https://www.nihss.ac.za/latest-items/news

Medical Research Council

The programme attracts young scientists of the highest calibre to complement SAMRC senior researchers and influence sustainable long-term collaboration with national and international institutions through joint supervision of South African students. The long-term goal of this programme is to substantially increase the number of scientists from designated groups in strategic and emerging fields within the health and clinical research where these groups are underrepresented, such as, but not limited to Biostatistics, Demography, Data Science, Genomics, Epidemiology, Implementation and Translational Science, etc.

<p>Fully funded awards generally cover the following, but can vary according to each grantee's program:</p> <p>Travel allowance and transportation from South Africa to the authorized U.S. destination</p> <p>Health benefits</p> <p>Settling in allowance upon arrival in the U.S.</p> <p>Monthly maintenance allowance (to cover living expenses)</p> <p>Tuition and fees</p> <p>Book and computer allowance</p> <p>J-1 visa sponsorship</p>	<p>Master's or Doctoral Degree: 2 years of funding towards one degree. For Doctoral degrees, at least 2-3 years of study are required beyond the initial two years. External Bursaries

Candidates for postgraduate study are strongly urged to apply as widely as possible for awards administered by independent donors, trustees, government departments, public private initiatives and the private sector.

The University is not in a position to keep detailed information and application forms for all awards offered by independent organisations, and candidates are required to apply directly to such organisations at the addresses indicated.

Although the information appearing in this section is updated annually, awards offered by independent organisations may be subject to amendment and/or cancellation without prior notice. Intending candidates should also monitor notice boards and the press for any other opportunities.
