

## **Has Your Application Been Waitlisted?**

### **How It Works**

- Wits received approximately 116000 undergraduate applications for 2026 and will only be able to register or enrol approx. 6000 1<sup>st</sup> year students.
- Faculties can only accept a certain number of applicants into each degree, i.e. enrolment targets have been set for each programme.
- Applicants who have been made offers have a limited time within which to accept an offer. If they do not do so, then the faculty will withdraw those offers and may then be able to consider waitlisted applicants.
- Waitlisted applicants will be considered based on their APS points. For e.g., if a faculty has waitlisted applicants with an APS score of between 44 – 47 APS, those with 47 APS are considered before those with 46 APS, 45 APS, and 44 APS.
- The faculty will also take into consideration the marks for faculty-specific subjects. e.g., a waitlisted applicant with 67% for Matric Mathematics will be considered before a waitlisted applicant with 65% for Matric Mathematics.
- Decision-making is ongoing and you are advised to monitor the self-service portal daily -<https://self-service.wits.ac.za/>
